What We Know

Mental Health Benefits: People in careers that align with their passions report **40% lower stress levels**, as they feel a stronger sense of purpose in their work (APA).

What We Know

INVESTIGATIVE

Reduces Skills Gaps: Career exploration increases awareness of market needs, helping individuals focus on industries with **growing job opportunities**, such as healthcare, technology, and renewable energy (World Economic Forum).

ARTISTIC

What We Know

Earning Potential: Career planning helps individuals target high-demand fields. For example, people with STEM-related skills often earn **26% more on average** than those in non-STEM roles (BLS).

Teacher of the Year
2024-2025
Natalie Ewell

SOCIAL

What We Know!

Higher Job Satisfaction: People who explore careers that align with their interests and skills are **2.5 times more likely to be satisfied** with their jobs (Gallup).

Enterprising

E

Persuaders

ENTERPRISING

What We Know

Students who participate in career guidanc and courses demonstrate greater job knowledge, higher self-esteem, better grades and increased engagement in career and academic planning. (ACTE)

CONVENTIONAL

What We Know

Early Exposure Matters: Research shows that **86% of high school students** who have career mentors or access to exploration tools feel more confident in their future career paths (American Student Assistance).
