

SEPTEMBER 16

CLARK PUBLIC SCHOOLS BOND REFERENDUM 2025

VOTE

What's a bond referendum?

A bond referendum is another word for **vote**. Registered voters will decide whether Clark Public School District can finance **facility improvements** through the sale of bonds.

The Board and district administration chose this strategy to:

- Generate **upfront funding** to improve our schools.
- See upgrades in just a few years while having the cost of the projects spread over time.
- Access **state aid**, which can be unlocked through a voter-approved bond referendum.

**STRONGER.
SAFER.
SMARTER.**

The Board is committed to maximizing the amount of work that can be accomplished **with no additional school tax burden.**

New playgrounds at both elementary schools would create updated space for the entire community to enjoy.

Improvements would benefit students at all four schools:

- **Ensuring our school buildings are well-maintained**, run efficiently, and meet the needs of the students, staff members and community.
 - Roof replacements and phone system upgrades at ALJ, CHK, FKH, and VRS
 - Fire alarm upgrades at CHK and VRS
 - Hallway floor replacements at VRS
 - Canopy and sidewalk renovations at CHK
- **Generating space at both our elementary schools to relieve overcrowding**, create more classroom space, and renovate outdoor play areas.
 - New playgrounds at FKH and VRS
 - Addition at FKH to open up space for specialized classrooms at FKH and VRS and house new pre-k program
 - Parking lot renovations at FKH and VRS

What's next?

Clark Public School District is committed to keeping the community informed and engaged leading up to the vote. Currently, the plan is under review by the State Department of Education, which determines state aid eligibility. More financial details are expected soon. Stay tuned!
