Pioneer Middle School

After School Activities

Dear Pioneer Middle School Families,

All students are eligible for after school programs until 3:15 pm each day. The tentative start date for after school activities is Monday, September 14th. Sign-ups will be available online in the first week of school and prior to the start of each subsequent quarter. Students must submit a new club request each quarter. This does not include sports that are coordinated by our Athletic Department. Students may be removed from after school activities in the event of discipline issues.

During the first week of school, a Microsoft Form will be posted on the Pioneer Middle website and Facebook page to sign up. In the form, students will fill in their contact information, and then select clubs from the options in their grade level's section. There are a variety of clubs available throughout the week, so students should read through and check each day's list of options. If your student is not joining a club on a particular day of the week, they will select "none". We encourage you to discuss the available options with your child to help them make the best choices for their interests and schedule. Thank you for your support!

After school activities will **NOT** be held on the following dates due to Faculty Meetings, Elementary half Days, or before vacations:

9/2, 10,6, 10/9, 11/3, 11/10, 11-12, 11-20, 11/23, 12/1, 12/22, 1/5, 1/15, 2/2, 2/12, 3/5, 3/25, 4/6, 5/4, 5/27, 6/1, 6/11, 6/25

The After School Program is composed of two components:

The first component is the Academic Program (Power Hour) where students will have the opportunity to work on homework, projects, or a quiet place to read at school. The program will have teachers available for the students' academic needs.

The second component is the Recreation Program where various athletic, craft, and enrichment activities are offered. The activities will be offered on a regular basis. Further communication regarding available programs will be announced in September. Students should listen to the morning announcements regarding upcoming opportunities and sign-up information.

Students who have been recommended by their teachers to attend WIN Academy (formerly Targeted Power Hour) due to low or failing grades, will be required to attend WIN Academy instead of after-school activities. Letters notifying families of WIN Academy participation are sent out every five weeks.

During WIN, students will work under the guidance of one or more teachers and receive support tailored to their individual needs. Students may participate in individual instruction, small-group instruction, homework support, reading intervention, and study sessions.
