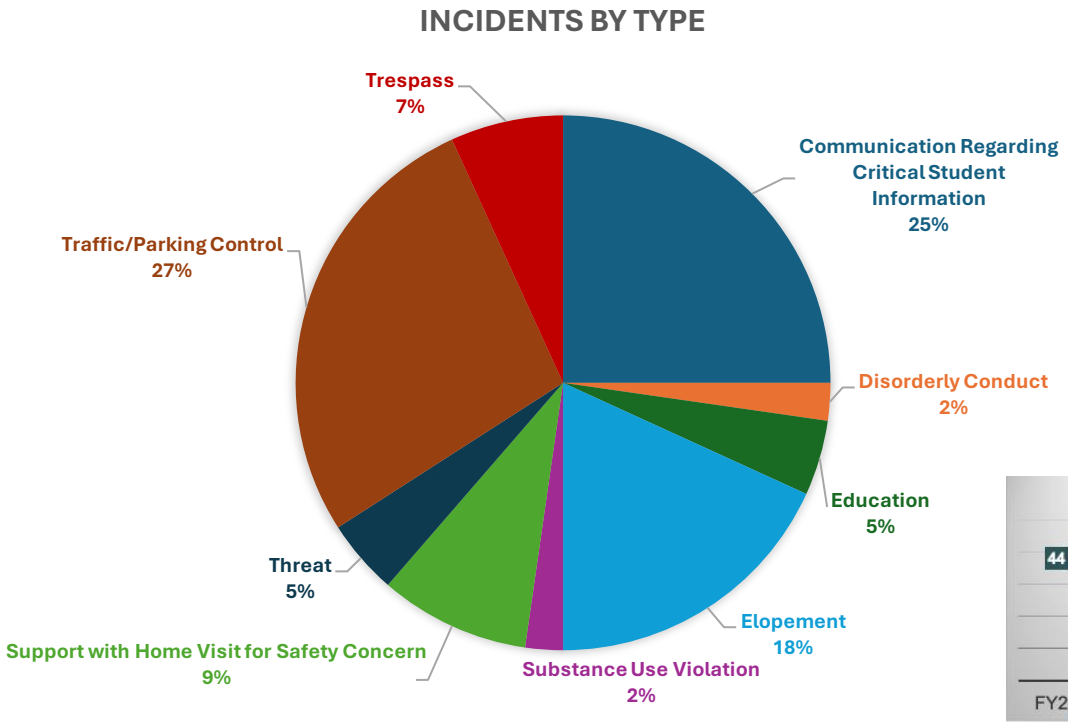
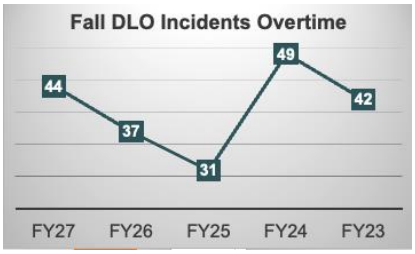
RE: Fall 2026 District Liaison Officer Report

The district continues to use a local data collection system that tracks when the Liaison Officer is called to a school when a student is and is not involved. To protect student privacy, the state of Vermont has set a data release standard that states no data can be released about students that either reports numbers equal to or less than ten in a group or subgroup, or a calculation can be performed that would result in a number equal to or less than ten. Because the number is so low, I cannot break out some of the individual data as it would result in either number lower than ten in this report. I have labeled the pie charts with percentages, as the number of students are not released.

The Data:
Since the beginning of the school year, we have had a total of 44 Liaison Officer logged incidents with the Maple Run Schools. Of those cases, 22 are directly connected to a student/s, the others being traffic/parking control, education, and trespass. On the next page you will find gender, race/ethnicity, free & reduced meals status, and students on educational plans data. This data shows the percentage of incidents involving each demographic whether as an offender or victim.





Communication Regarding Critical Student Information	11	Elopement	8	Threat	2
Disorderly Conduct	1	Substance Use Violation	1	Traffic/Parking Control	12
Education	2	Support with Home Visit for Safety Concern	4	Trespass	3

Bellows Free Academy 26	Fairfield Center School 1	Saint Albans City School 6	Saint Albans Town Educational Center 3	Spring Academy 8
