January 16, 2026

Good afternoon Bronco families,

This weekend the Village of Orangeville will be finding and fixing a water leak they suspect is near the high school. The school's water supply will be shut off starting tonight, Friday, after the basketball game. If you come to school over the weekend, you will not be able to flush toilets, wash your hands or drink any water.

If all goes as planned, the water leak will be repaired by Tuesday, January 20, 2026, when we return to school. Monday is the Martin Luther King Federal holiday; therefore, we do not have school on Monday.

There is a chance that we may not be able to drink the water on Tuesday due to the time in testing drinking water protocol. I anticipate that the water will be back on by Tuesday for toilet use and handwashing; however, we may be under a boil order until water samples are tested and the water is deemed safe for drinking.

In order to be prepared for a possible boil order on Tuesday, January 20, 2026, please send a bottle of water or a clear liquid container with drinking water in it from home on Tuesday to school with your child in case it is needed. We will also have extra bottles of water for students if needed or if they forget to bring one. School lunch will still be served as planned on Tuesday.

Once the water leak is repaired and the drinking water has been tested for safety, I will send out another letter to let everyone know. In advance, I want to thank you for your understanding and cooperation. If you have any questions, please call me at 815-789-4450 or email me at jkatzenberger@orangevillecusd.com. Thank you.

Sincerely,

Superintendent Katzenberger
