

# Orangeville Penny Wars

During this homecoming season, please consider helping the less fortunate and put your spare change toward a great cause! We are donating proceeds to Fortunate Souls, an 501.c3 animal welfare group based in Stephenson County- as they are helping some stray animals in the Orangeville area as well as the Pearl City Memorial Fund for the young men killed in a recent car crash.

During the week of **September 28th-Oct 1,** we will be collecting spare change. Here's how it works: Elementary containers will be in the elementary hallway in the morning. Pennies, $1 & $5 bills are "positive" points - Silver coins are "negative" points

- Each Penny counts as 1 positive point for YOUR grade level.
    - $1 = 100 points
    - $5 = 500 points

- Each silver coin counts as negative points for other grade levels. In other words, dropping a quarter in another grade's bucket takes 25 points from their total.

- Points will be tallied continuously throughout the week and leaders will be announced during the morning announcements.
    - Elementary classes will compete against each other and the winner will get a special recess in the HS gym!

This is a service project for the Orangeville Chapter of the National Honor Society - National Honor Society will be assisting in calculating the points to determine the winner.
