2026-2030 STRATEGIC PLAN

MISSION

The mission of Van Meter Community Schools is to personalize learning for each student's success, today and tomorrow.

SHARED VISION

To empower students to be learners who communicate, collaborate, create and innovate, solve problems, persevere, think globally, and demonstrate employability skills.

LONG-RANGE GOALS

Full Implementation by 2030

PERSONALIZED LEARNING

Students show ownership of their growth in learning to close the gap, become proficient and/or move to advanced proficient.

INNOVATIVE PRACTICES

Students are engaged in authentic, deep thinking skills through student-centered, project-based learning.

GLOBAL READY

Students regularly receive feedback on the 21st-century global competencies that are critical to success beyond academics.

THEORY OF ACTION

If we, as leaders, mirror the type of learning experiences for the staff that we want for our students and if staff personalize learning experiences for students...

Then, through the use of aligned innovative practices and competency-based education, we will produce global-ready graduates....

Who are prepared for success today and for the world they create tomorrow.

PERSONALIZED. INNOVATIVE. GLOBAL.
