- Statistics

AP SCIENCE

- Biology
- Chemistry
- Environmental Science
- Physics I
- Physics II

AP SPANISH

- Spanish IV - Language and Culture
- AP Spanish V - Literature and Culture

AP-ADVANCED PLACEMENT Program Guidelines

AP instruction will follow guidelines developed by The College Board in the appropriate **AP Course Description Book and Teacher's Guide**.

Instruction

- AP/ PRE-ADVANCED PLACEMENT instruction will be available to students on all high school campuses in English, Mathematics Science, and Social Studies. In addition, the AP program provides a variety of other course offerings available at district high schools.
- It is recommended that all AP instructors attend the appropriate Advanced Placement Summer Institute sponsored by College Board prior to teaching the course.

Entrance into/Exit from Program

Entrance into the AP-ADVANCED PLACEMENT program will be open to all YISD students where courses are offered. A student must meet normal prerequisites for each course; however, prerequisites need not be AP/ PRE-ADVANCED PLACEMENT courses nor are there restrictions based on designated levels of past achievement. Entry into the program may begin at any grade level. For a year-long course, a student may exit an Advanced Placement class during the first three weeks of the course or at the mid-term of a full year course. Grades in progress will transfer. Students who are failing an AP course at the end of the first semester may be removed from the course. For a semester course only, a student may exit an Advanced Placement class during the first nine weeks of the course.
