Activity Absence Committee Request Form

The school will monitor activity absences and send a status letter out to parents to inform them when their child is near, at, or over the allowable limit of activity absences for the school year. The policy on activity absences can be found on page 5 of the Student-Parent Handbook which can be found on the school website. Parents or students may make a formal request to the Internal Activities Review Committee to grant additional days. This form may act as the formal request for these additional days. Consideration of a student's academic performance, attendance, discipline record, and consistent, timely completion of assignments will factor into the committee's decisions. If you have received notice from the district, please complete this form and return it to the JH/HS principal by email, mail, or by dropping it off in the JH/HS office.
