Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER), which provides key information on the 2024-25 educational progress for Marlette Elementary School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about accountability, student assessment, and teacher quality. If you have any questions about the AER, please contact Luke Reynolds for assistance at (989) 635-7427.

The AER is available for you to review electronically by visiting the following website link (HERE) or you may review a copy in the main office at your child's school.

For the 2025-26 school year, schools were identified based on previous years' performance using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that had at least one underperforming student group in 2024-25. An Additional Targeted Support (ATS) school is one that had at least one student group performing at the same level as the lowest 5% of all schools in the state in 2021-22. A Comprehensive Support and Improvement (CSI) school is one whose performance was in the lowest 5% of all schools in the state, had a graduation rate at or below 67%, failed to exit CSI status in 2024-25, or failed to exit ATS status in 2021-22. Some schools are not identified with any of these labels. In these cases, no status label is given.

Our school has not been given one of these labels.

Marlette Elementary had a mix of positive and negative results on the 2024-2025 M-STEP assessment. The school showed improvement on 3rd Grade Math, 4th Grade Math, and 5th Grade Social Studies. There was a slight decline in all ELA scores this year which became a point of emphasis for the 2025-26 school year for all teachers. The school is going into their second year teaching our Science of Reading curriculum, Bookworms, and our math curriculum, iReady. With the second year comes more familiarity of both curriculums by our teaching staff which in turn improves direct instruction. Studies have shown that teacher direct instruction is the most beneficial tool in helping students achieve. To help with direct instruction, our academic coaches also observe and teach strategies for our teachers to use to create engaging daily lessons to help improve scores.

Sincerely,

Luke Reynolds, Principal
