HOOPS FOR THE HOLIDAY

Assistance Request

Helping Make the Holidays Brighter for Our Students

WHO IS THIS PROGRAM INTENDED TO HELP?

This program is primarily intended to assist middle and high school-aged students who may be too old to qualify for many of the other holiday assistance programs available in our community.

Because the number of families needing assistance is high and our resources are limited, we ask families to carefully review the guidelines below before applying.

HOLIDAY ASSISTANCE GUIDELINES

- This program is intended for families who are experiencing a genuine need for holiday assistance.
- If your family has received assistance from our program for two or more years, we kindly ask that you consider reaching out to another community organization this year so we can help families who may not have received assistance previously.
- You may only apply for children for whom you have legal custody.
- Families should not receive holiday assistance from another agency for the same child.
- As part of the application process, the school district will contact other participating community agencies to verify whether your child is already receiving holiday assistance.
- Please be thoughtful and selective when completing your child's wish list. We are not able to provide extremely expensive items or items that are not age-appropriate.
- We do not guarantee that all requested items will be provided.
- If requesting clothing or shoes, please include the child's size and any preferred style or brand.

PLEASE REMEMBER

- Submitting an application does not guarantee that holiday assistance will be provided.
- Because there is a significant level of need, we may not be able to assist every family who applies.
- Families will be contacted after applications have been reviewed to let them know whether or not assistance will be provided.
