Our Commitment to Military Students

When new military-connected students are enrolled or transferred to EMS, our registrar alerts Dr. Jennie Hanna, the school POC for our military children. If able, Dr. Hanna talks with those parents to obtain background on the student (previous duty stations, family makeup, potential deployments/trainings, etc.) and shares it with the grade-level principal and counselor as needed.

Those students are then referred to Mr. Barrett, who sponsors our Military Child club at the school. We also set up a plan to check in with the student at some point within the first few days and circle back later on in the first few weeks to make sure the student is settling in okay. This is either done by the grade-level staff, Dr. Hanna or Mr. Barrett.
