Fix the following sentences. Every sentence is incorrect in some way. The amount of errors in each sentence is listed at the end of sentence. There is no need to add words to, change, or make up something new for these.

For instance, if at the end of the sentence it says (2 errors), there are only 2 things that are incorrect. Those things may include, spelling, punctuation, capitalization, may need to change the tense of a word, or you may need to add a comma or apostrophe, etc.

You do not need to print this paper off. You can write the correct version of these sentences on any available paper.

1. I went too the beech this summer. (2 errors)
