Our Commitment to Military Students

Purpose:

Support military children new to the district/school with transitioning into the Highlander Family.

Process:

- The student is identified as a military child by their enrolling counselor.
- The enrolling counselor contacts Major RedFearn and/or CSM Batts in JROTC.
- A JROTC cadet is tasked with introducing the student to the school, walking their schedule with them, and helping to identify clubs/sports that the student might be interested in.
- The JROTC cadet reports back to the counselor what activities the new student is interested in, so that the counselor can follow up on that information.
