ASSISTANT PRINCIPAL

Falcon Families,

As we enter the second month of school, we wanted to revisit the new cell phone rule at MVHS. Our students have truly done a wonderful job adapting to the new state law and the impacts have been significant and positive. Our staff have been consistent in enforcing the law and we have undoubtedly had some patience with our students over this first month while they adapt. At this point, we believe that the expectations around cell phones/bluetooth devices are clear to our students. We took time yesterday morning to meet with the student body and review the expectations and also have them understand the consequences that will now be enforced if they are caught with their cell phone/bluetooth device during the school day. Please see the outline below:

First Offense- Student loses device for the day and they get it back at 2:15.
Second Offense- Student loses device and must be picked up by parent/guardian.
Third Offense- Student loses device, must be picked up by parent/guardian and disciplinary action will be taken.

*If a phone is confiscated by a staff member, it is kept in a locked case in the main office.

We thought it would be in the best interest of our students if we gave everyone a clean slate starting on Monday, October 5th. We recognize that after the first offense, there is a burden that falls on parents/guardians. Please make sure you have the conversation with your student about following the new law so you are not put in a difficult situation of having to pick up your student's phone/device from school. We truly thank you all for your support not only with the new cell phone initiative but with everything that encompasses Mountain Valley.
