Dear Parents,

We have exciting news to share - we are launching our fall programming with a new registration partner, Sawyer. Sawyer powers registration for thousands of children's activity businesses so you can safely and easily book activities for your family.

Here's what you can expect from using Sawyer:

- Create a family profile and add multiple children all under one account
- Book activities with ease and on the go
- User friendly and mobile responsive management
- Pay online automatically and securely
- Manage your schedule all in one place
- Sync your child(ren)'s bookings to your iCal or Google Calendar

PTA Fall Session Registration Opens Wed. 9/16 @8PM

Class Descriptions

K-Pop Demon Hunters Dance Party (Gr. 1-3) with Ms. Sacca: In this fun, high-energy class, dancers become K-Pop Demon Hunters—learning awesome K–pop–inspired choreography while training their "hero skills" to defeat silly dance demons through movement, imagination, and teamwork. **Mondays 3-4 PM**

Scrap, Stick, & Sparkle: Scrapbook Studio (Gr. K-3) with Mrs. Sidman: Get ready to create, decorate, and celebrate what makes YOU special. In this fun and creative after-school class, students will receive their very own scrapbook and turn it into a one-of-a-kind keepsake filled with memories, favorite things, and plenty of personality! Each class will feature a new scrapbook theme from favorite subjects, holidays, seasons, family and friends to favorite foods, places, hobbies, and everything in between. Students will design and complete colorful pages that tell their story and showcase the things they love most. With an exciting assortment of stickers, gems, patterned paper, colorful embellishments, and other creative supplies, students will have endless opportunities to personalize every page and let their imaginations shine! **Mondays 3-4 PM**

Tiny Living Things: Ferment & Microbe (Gr. K-3) with Nicolas White: This hands-on unit explores the hidden world of microbes, fungi, and plants through fermenting, growing, and looking through a microscope. Kids tend a few slow "living" projects — a sourdough starter, a ginger bug for homemade soda, and a mushroom kit — that visibly change week to week, while sessions also deliver a quick, edible payoff like fresh cheese or butter. By the end they've watched invisible life eat, bubble, grow, and multiply, and they understand that tiny living things are everywhere and always busy. **Tuesdays 3-4 PM**

Movement Class (Gr. K-3) with Ms. Boniface: In this high-energy after-school movement class, students will explore dance, yoga, karaoke, mindfulness activities, and fun interactive games. Each session is designed to build confidence, creativity, coordination, and self-expression in a supportive and joyful environment. Students will stay active, practice calming strategies, and most importantly—have fun while moving their bodies and connecting with friends! **Tuesdays 3-4 PM**

Design-it/Build-it (Gr. K-3) with Darryl Bullock: Let's pique the engineering-curious and tap into those creative problem-solving young minds! In groups or individuals, youth will be asked to solve challenges by designing and/or building solutions! Different materials will be used depending on the group and the challenge. Many challenges involve household materials like aluminum foil, skewers, cups, straws, clothes pins, craft sticks, rubber bands etc. Some challenges mix in other materials like wood discs, propellers, small model motors, legos, batteries and other recyclable items. **Thursdays 3-4 PM**

Fun with Food (Gr. K-3) with Mrs. Sacca: Mrs. Sacca is back for another session of her extremely popular cooking class! Join her in creating fun, edible dishes that the class will make and assemble together. The class will feature a balance of healthy, nutritious foods while also making time for some fun, sweet treats. The session will conclude with a special tea party using real china from Mrs. Sacca's grandmother. While we make every effort to avoid common allergens, this class is not recommended for children with food allergies. **Thursdays 3-4 PM**

Creating a Fall Journal (Gr. K-3) with Ms. Boucher: Let's combine interesting labels and papers from our recycling bins, pressed flowers and leaves from nature, and pretty paper, stickers and ribbon into a creative, nature inspired junk journal. This journal will be a beautiful place for your writing, sketching, and coloring. **Fridays 3-4 PM**

Theater Club (Gr. K-3) with Nicolette Callaway Williams: In this fun, improv-based class, students familiarize themselves with the fundamentals of theater and acting: expressing emotions, building characters, identifying motives, and building a scene. Through creative processes, students will develop confidence, communication, and collaboration. Theater Club focuses on theater games, culminating in scene work and student-written and produced short plays. **Fridays 3-4 PM**
