From the Desk of the Superintendent…

Winter is here and with it comes a greater chance of a severe weather event that could potentially cause a school closure due to snow, ice or excessive cold.

Should we have a weather-related school closure, the following information will help you locate the latest district updates and news.

School Closing Information

If we should need to cancel school due to an extreme weather event, families will be notified by phone call, text message and email. In addition, all closings will be posted to our district websites and social media sites. Please make sure all of your contact information is up to date in Skyward so there is no delay in your receiving emergency notifications.

In order to give families time to make important child care decisions, we will always attempt when possible, to announce any school closures the night before.

If the schools have been closed due to a weather-related event neither school district will be holding classes remotely. Instead, we will add a day onto the school calendar at the end of the year to make up for the snow day.

If you have any questions regarding this information, please contact your student's principal or feel free to contact me at the District Office (815-678-4242) or by email at tlind@rbchs.com.

Sincerely,

Tom Lind
