

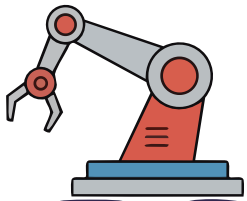
SUMMER STEM CAMP



The Decatur County SUMMER STEM CAMP will be offering two different weeks of exciting four-day learning experiences for bright, forward-thinking students at all grade levels who will evolve into our next generation of science innovators, engineers, health, and Instructional Technology professionals. Working with our robotics teams and technology leaders, students will be given early exposure to STEM fields through hands on experiences with robotics, AR/VR, and even drones.

Students will have the opportunity to learn new skills in the new MEDIA HUB and STEM CENTER at Bainbridge Middle School. During the unique four-day camp, students will design and engineer innovative solutions, explore STEM careers, and grow their problem solving skills. STEM CAMP is the perfect opportunity for young and curious minds to explore the frontiers of 21st-century science and technology.

As always these slots fill up quickly, so reserve your spot today. We look forward to working with you this summer!

Cost: $40.00 registration fee per week

Please make checks payable to BMS
