March 2026

Dear Parent(s)/Guardian(s):

Schools will administer the SAT School Day to Grade 11 students this spring. The SAT School Day is a nationally recognized college- and career-readiness assessment from the College Board.

Because this test is West Virginia's high school accountability exam, all public school students in Grade 11 will participate in the SAT School Day, unless they meet the criteria for participation in the West Virginia Alternate Summative Assessment.

The SAT School Day will be administered online at your student's high school or a county-approved off-site location during a regular school day. Students will NOT pay a fee to take this test. Each school will provide additional information regarding their plans for testing, including this year's test date.

The SAT School Day is accepted at colleges and universities throughout West Virginia and the nation for both college admissions and placement. The test also can be used to qualify for the PROMISE Scholarship.

Students receive scores in reading/writing, math, and science. Student scores will appear in each student's College Board account a few weeks after they complete the test. Students who provide their cell phone number when taking the test will receive a link to download the College Board's BigFuture™ Schools application, which will allow students to retrieve scores on their phone and access college and career planning resources.

For additional information on the SAT School Day, visit this site: https://wvde.us/academics/assessment/sat-school-day.

I respectfully request that you encourage your student to do their best on the SAT School Day this spring. If you have questions or concerns, please contact the school or the county board of education office.

Sincerely,

Michele L. Blatt
State Superintendent of Schools
