

RFP 2024-2

District-Wide UPS Replacement

Fairfield City Schools plans to replace all UPS devices in its network infrastructure. We would like prices for the APC devices listed. All devices should include a network management interface for management and monitoring.

FCS also requests prices for installation services. Installation must be performed outside of school instructional hours.

FCS intends to purchase UPS devices through existing contracts under ALJP, contingent on USAC funding. Only those vendors with existing contracts for UPS equipment need respond. Please direct all questions via email to Richard Fuah rfuah@fairfieldk12.org. FCS intends to decide regarding the purchase by Feb 28th, 2024. The evaluation criteria will be as follows:

Factor	Weight
Price of Equipment	40%
Price of Installation Services	20%
Quality of Product	20%
Availability / cost of replacement batteries	15%
Local or In-state vendor	5%
