SAN ANTONIO INDEPENDENT SCHOOL DISTRICT

Family-School Relationships Survey

Overview

Schools that effectively engage families find that their students earn higher grades, score higher on tests, develop better social skills, and are more likely to graduate. By asking parents and guardians to provide feedback through surveys, schools and districts can gather actionable data and better understand how to build effective partnerships with families. The Family-School Relationships Survey provides schools and districts with a clear picture of family attitudes about an array of topics—including family engagement, barriers to engagement, school climate, and family efficacy. SAISD gathered families' input from February 19 through April 5.

Note: While the domain names remain the same as previous years, the questions and answer scales were changed for the 2023-24 school year. As a result, scores from the 2023-24 school year should not be directly compared to results from previous years.

I feel my child's experience at school may be impacted if classes include more students with behavioral issues.	Other - Concern
So far I am fine with the Apollo that they have shown to my children.	Other - Happy with Current School

More consequences for those who bully and are overly disruptive. Keep parents better informed especially in regards to bullying, fighting, and safety concerns.	Safety
We have not been impacted directly, but will feel the change and were already short staffed from a budget perspective. I thought we would be able to have a full staff with the rightsizing, but it seems that promise has yet to be fulfilled. Next year will be just as chaotic with strife, but the district ignores us b/c we aren't impacted directly. It's a vast oversight.	Staffing
I hope the school can get the right educator support in each grade needed.	Staffing
