2026 SOUND SIMPLIFIED SUMMER READING GUIDE

- Step 1 - Research: Over the summer, do a little research on your own to discover a novel (a fictional text composed mostly of words—no graphic novels—of more than 100 pages at or above your reading level) that you would enjoy.

- Step 2 - Read: Before the start of the next school year, read your selected book, taking notes on aspects of the book that stand out to you as needed.

- Step 3 - Write: At the start of the school year, having completed reading your selected book, your new Sound School English teacher will give you a prompt for an essay you will write in class.

  It will be graded in PowerSchool.
