Rocket Community Wellness Center Project Update

June 1st, 2026

The Rocket Community Wellness Center project is entering its final months of construction and is quickly approaching completion.

For those who may not be aware, Fayetteville-Perry Local School District successfully applied for and was awarded a highly competitive Appalachian Ohio Facilities Construction Commission grant totaling more than $10.8 million**.** This transformational project was designed to enhance the overall health and well-being of our students, staff, and community members.

Construction continues to make significant progress. Exterior trim work is approximately 98% complete, and exterior lighting installation is currently underway. Landscaping crews are scheduled to mobilize on June 15, 2026, beginning work around the retention pond and then progressing throughout the project site.

Inside the facility, epoxy flooring in the restrooms is being completed. Plumbing fixtures and accessories have arrived and will be installed once the flooring has fully cured. Final painting is underway, and indoor turf installation is scheduled to begin on June 15, 2026. Door hardware installation will follow the completion of painting.

The propane tanks have been filled, and the HVAC system has been started and is operational. The Fitness Room is expected to be completed by mid-July and will provide opportunities for individuals of all ages—from school-aged students to senior citizens—to improve their health and wellness. All staff and community members will have the opportunity to apply for a membership and take advantage of the Wellness Center's many amenities and services.

Final inspections are scheduled for the week of June 22, 2026. During July, our community partners, ACRMC Family Medicine and Pierson's Pharmacy**,** are expected to begin preparing their spaces and setting up operations within the facility.

We are excited to announce that a Ribbon Cutting Ceremony is planned for Monday, August 17th, 2026, at 3:00 p.m**.** We encourage all community members to attend, tour the facility, and learn more about the many opportunities the Rocket Community Wellness Center will provide. If you have any questions, please contact Superintendent Tim Carlier at 513-875-4500**.** We look forward to welcoming you to this outstanding new resource for our school district and community.

Sincerely,

Tim Carlier
Superintendent
Fayetteville-Perry Local Schools
