General Education

Social Emotional Learning/Educator Wellness

Our Department continues to provide support and professional learning in the area of SEL/Educator Wellness. This year Kim Rinehart supported Casman Academy with their implementation of SEL as well as providing Professional Learning at Onekama.

We have included data points and feedback for your review.

CASMAN 7 Mindsets_SEL implementation survey data 2022-2023 - Google Docs.pdf

Overview of Onekama Professional Learning

General Education

Literacy Coaching, Literacy Network, and Literacy Professional Learning
2022-23 Feedback Survey
Shannon Fuller

Who: District Administrators, coaches, and teachers

When:

- K-2 Literacy Network - 9/28, 11/30, 2/1, 4/12 from 4:00 - 6:00 pm

CASMAN

- Completed the new window and partial facade project.
- JMG Students did an on-the-job experience with veterinarians at John Ball Zoo.
- Moved the start date back one week to accommodate the construction.
- Started the school year with open math and science teacher positions - filled them with para pros and used online classes.
- All grade spots were filled with students with waiting lists before the first count day except for 11th and 12th grade.
- We budgeted for 60 students and came in above that number.
- Continued contracted with GVSU for tutoring for the subject of math.
- Rekeyed all of the outside door locks to match.
- Provided CRAZE training for all staff members.
- JMG students attended Leadership Day and Diesel Days.
- Launched a new part of the SEL program in November in coordination with Kim R. from ISD.
- Offered our yearly Thanksgiving Feast, served almost 90 people. City Police and City Fire helped to serve the food.
- Once again offered our Santa's workshop to all students; about 90% choose to participate and pick out gifts for their family to take home for the holidays.

CASMAN Continued

- The student food pantry received donations from the Manistee ISD staff and also the St. Joseph's Church. Both of these donations helped us fill the student pantry. We also received the Blessings in a Backpack program bi-weekly throughout the school year to supplement the program for students.
- The whole staff attended training with Rashell Bowerman from MDE on credits and how to count them for the alternative school setting. She was a great help in explaining the true flexibility within the requirements.
- Replaced the gym floor after old tiles started to pop up and create a tripping hazard.
- Leslie Acton and I completed a compliance review for the Consolidated Application for Title 1 funding.
- CASMAN was awarded funding for the Grow Your Own Program Degree Seeking for Stacee O'Dell (who will be certified in Secondary Mathematics) and also the Alternative Route program for Chris Heidel (adding secondary certification).
- Graduation was moved to an afternoon ceremony at the Ramsdell Theater, and the whole student body could attend for the first time.
- NWEA rounds of testing showed improvement for over 50% of the student body in both Math and Reading.
- Staff attended a three-day professional development series on project-based learning. We plan to roll it out for our summer school program next school year (2024). This will be a year-long process to plan not only for summer school but also starting to incorporate it into the regular curriculum.
- CASMAN currently has all teaching and para positions filled for the coming school year!
