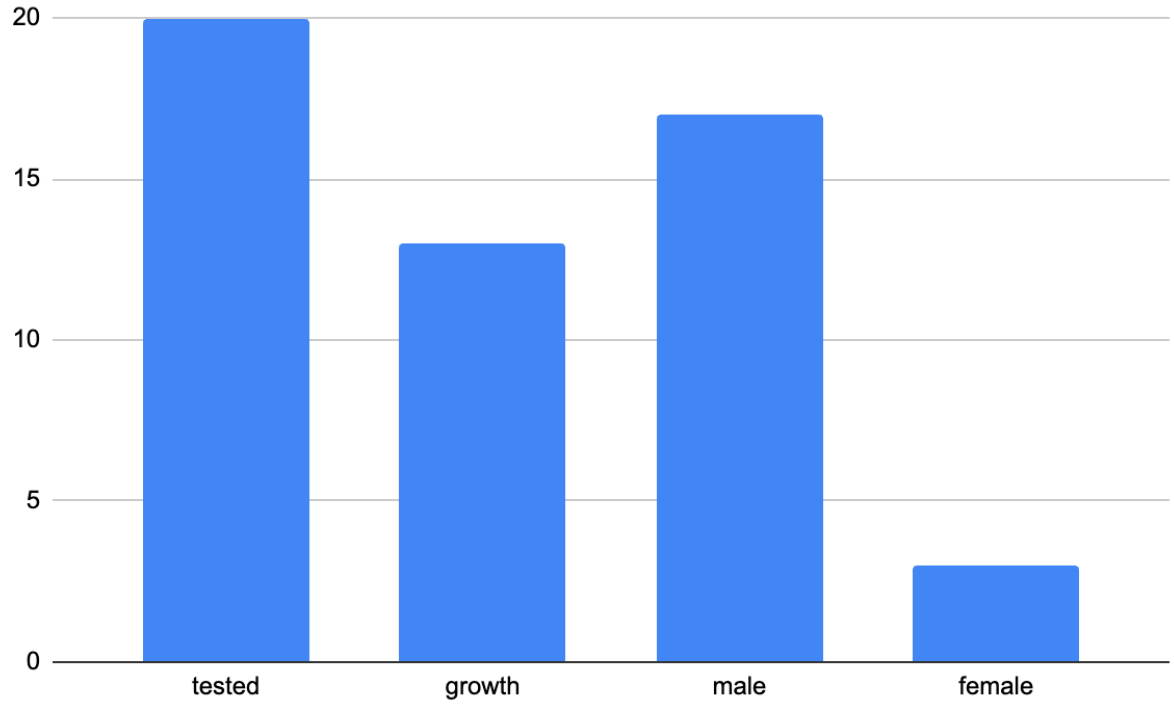
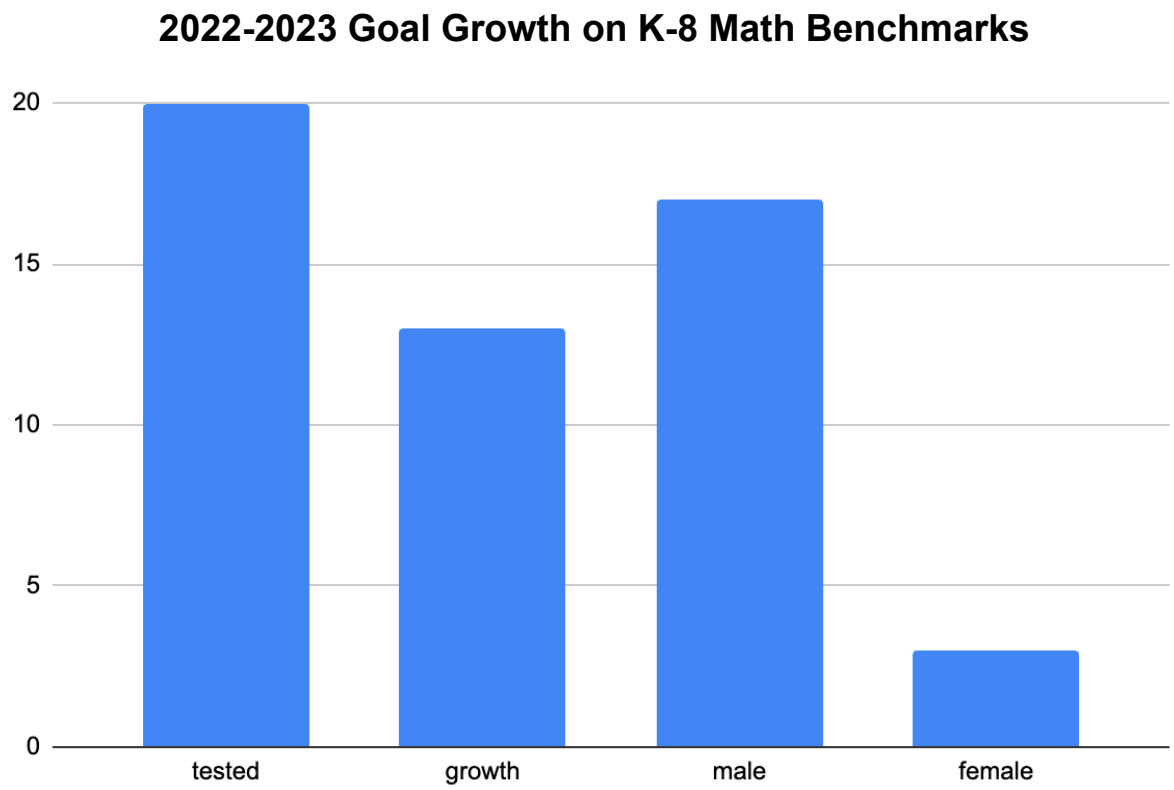
2022-2023 Goal Growth on K-8 ELA Benchmarks



Students at the Manistee ISD are assessed twice a year using a variety of tools to match their needs such as Brigance, Systematic Assessment System-Autism, Ages and Stages Questionnaire, and progress monitoring of Individualized Education Plan goals that incorporate the state benchmarks. This information allows educators to identify student's strengths and weaknesses to allow for rigorous lessons to improve skills. In the year 2022-2023, almost 20 students were identified for tracking progress, and compared to last year, there was almost a 39% growth.



Students at the Manistee ISD are assessed twice a year using a variety of tools to match their needs such as Brigance, Systematic Assessment System-Autism, Ages and Stages Questionnaire, and progress monitoring of Individualized Education Plan goals that incorporate the state benchmarks. This information allows educators to identify student's strengths and weaknesses to allow for rigorous lessons to improve skills. In the year 2022-2023, almost 20 students were identified for tracking progress, and compared to last year, there was almost a 50% growth.
