School Board of Directors

The withdrawal of the Town of Eagle Lake from MSAD 27 has prompted the need to re-evaluate the apportionment of members on the eight-member Board of Directors to ensure adequate and equivalent representation ("one man, one vote"). By removing the Subdistrict that represented Eagle Lake, the remaining Board Members still represented one-man, one-vote and were within the acceptable margin of 5%. The Board of Directors approved a revised apportionment plan of a seven-member Board on January 8, 2018 that becomes effective on July 1, 2018. The revised Apportionment and Board Representation is as follows:
