Mr. Peter James, Director of Technology, presented information on Policy 2361: Acceptable Use of Computer Networks/Computers and Resources. He began his presentation by breaking down the components of Policy 2361. Mr. James then reviewed those components, starting with the purpose of the policy, which is to ensure that access to district devices and accounts support student success while providing protections and ensuring proper use. Mr. James outlined the District's responsibilities, the schools' responsibilities, and the responsibilities of the users under Policy 2361. He emphasized that school-related work should be done on a school device through the school network, and that non-school devices outside of the school network should be used for everything else. The Director explained system access, monitoring, parent notification, responsibility, liability and due process, and rights. At the end of the presentation, the Board engaged Mr. James in a discussion regarding various aspects of the Acceptable Use Policy and how it pertains to the use of technology in the classroom and the use of personal devices in the schools. Dr. Jessica Smedley presented the semi-annual report on harassment, intimidation, and bullying (HIB), as required by the State of New Jersey, covering the period of January 2026, through June 2026. She began the presentation by providing an outline of the topics to be covered, including statutory scope, data and trends, the culture and climate summit, and Tier 1 interventions. Dr. Smedley reviewed the statutory definition of HIB as per the NJ Anti-Bullying Bill of Rights Act. She explained the preliminary determination process and reported the total number of preliminary determinations during the second reporting period of the 2025-2026 school year. Dr. Smedley reported on all of the HIB findings for the six-month period from January 2026, through June 2026, presenting the data in several different ways. She broke down the total number of incidents by founded and unfounded, by grade level, by location, and by distinguishing characteristics, such as gender, race, ancestry, disability, and appearance. The Director of Counseling explained that the majority of HIB incidents were based on appearance, followed by incidents based on race/ethnicity. She reviewed trends, showing that the total number of investigations increased slightly for the current period, but there were also more reporting days in the second half of the year. She recounted the proactive and data-driven approaches to bullying prevention exercised throughout the District, including the culture and climate summit that took place on May 27, 2026. She reviewed the outcomes of the work done during the Culture and Climate Summit as well as the goals for next year. Dr. Smedley outlined proactive interventions district-wide including staff development, student SEL supports, and community events and input. She also explained the Multi-tiered support systems (MTSS) and how behavioral and SEL interventions are systematically embedded across all MTSS tiers. The Director of Counseling ended her presentation by relaying that the District provides safe, inclusive, and respectful learning environments for students.
