April 9, 2026

Regarding “Senior Pranks”,

As we approach the end of the school year, we want to address what have come to be known as “senior pranks”. While some may view these as a tradition or even a rite of passage, these unsanctioned events have recently led to property damage, safety risks, and an undue burden on our staff and resources.

Be advised that these activities are not school-sponsored and will no longer be tolerated. Moving forward, any unauthorized entry onto school property—or any act of vandalism or damage—will result in disciplinary action up to and including referral to local law enforcement.

Our goal is not to diminish the excitement of senior year, but to protect our students and the integrity of our school. We encourage all seniors to focus their energy on our official graduation events, which are designed to honor your hard work with pride. We ask for your cooperation in making this a safe and respectful final chapter for the Class of 2026 and all classes to follow.

Thank you for your support and cooperation.
