4. Notwithstanding any other provision of this Contract, the Superintendent (or designee) of each school district(s), subject to the laws of the Commonwealth of Massachusetts, may refuse to allow any such employee to perform driving services under any such Contract if the school district(s), in its sole discretion, determines that such employee is not suitable for the performance of driving services under any such Contract based upon the results of such CORI, SORI, or DCJIS information. The school district(s) shall keep such information in a confidential file. The contractor will reimburse the school district(s) for the costs of the CORI, SORI, and/or DCJIS background checks on contractor employees.

submitted to the school district Superintendent or designee. Each driver must meet all requirements of the Department of Motor Vehicles evidenced through a physical conducted by a qualified physician and including a chest x-ray, or other evidence of negative tuberculosis. Provision of said examination is the responsibility of the contractor. Each driver's name, home address, bus number and assigned routes must be included with the roster.

6. If the contractor deems it necessary to assign a new driver to any bus, the school district Superintendent or designee must be notified with an indication that the driver meets all the qualifications stated in these specifications.
7. Drivers employed by the successful bidder are to be thoroughly trained on their respective routes to insure efficient and effective operation, especially for the opening day of school, including state law regarding the appropriate use of mobile devices (M.G.L.c.90, §7B). Drivers will also receive training on identifying and reporting bullying and aggressive behavior. **The contractor will provide details on their training program on Appendix F – Safety Plan.**
8. The contractor further agrees to provide driver and student training each year with such emphasis on safety issues such as evacuation, loading, and unloading (**Appendix F – Safety Plan**).
9. Drivers shall not be permitted to transport any person other than a school official on the bus, while transporting students, unless that person is specifically authorized by the school district Superintendent or designee.
10. Drivers shall not smoke on the vehicle or school property at any time. Drivers shall not consume or drive under the influence of alcohol, marijuana, or narcotics. The contractor shall provide details of their training and monitoring for substance abuse on **Appendix A – Training Program**.

13. The school district Superintendent or designee shall have complete authority over matters pertaining to school transportation.
14. Violation by a driver of the provisions of the contract, Policy of the School Committee, and/or the General Laws of Massachusetts will subject said driver to be removed from service under this contract, upon recommendation of the school district Superintendent or designee. A driver's continued employment by the company or contractor, however, remains at said company or contractor's discretion.
15. The school district Superintendent or designee reserves the right at any time to approve or disapprove a driver or drivers under the terms of the contract.
16. Drivers are not permitted to discharge a student while in route. Under exceptional circumstances where the safety of other students is concerned, drivers must stop the bus and notify the dispatcher by radio of the problem so that a substitute means of transporting the student or students may be made, or return to the school and report the problem to the principal. In the event a student's riding privileges are suspended for a violation of school policy or procedure; the driver shall not transport said student until directed by the principal or designee who ordered the suspension or by the school district Superintendent or designee.
17. Drivers will not take disciplinary action against any student. Circumstances that warrant such action must be reported to the principal or designee of the school or Superintendent or designee. Nothing herein shall prevent a driver from reprimanding a student for action that might cause harm to himself or others, or requesting that student change his seat or to sit in a particular seat if the driver deems this action to be in the best interest of the other passengers.

1. At their own expense, the vendor is required to use a bus transportation routing software program. Routes will be determined using this program. The Contractor will be required to prepare bus routes by August 1st of each year for approval by the Superintendent or designee, prior to the opening of school, considering the schools to be transported to/from, the space available, the capacity of the buses, time schedules, etc.
2. During the first week of school, bus loads and routes will be reviewed, at which time changes may be made or as the need arises at any times during the year. The contractor will agree to make any route changes as requested by the school district Superintendent or designee.
3. The contractor agrees that the time schedules and stopping places on all routes shall be approved by the school district Superintendent or designee; that no changes in the routes, stopping places or schedules shall be made without his/her prior approval; that buses shall run on schedule and shall not be required to wait for students who are tardy in reaching the scheduled stops; and that due consideration should be given by bus drivers to insure the safety of all students in discharging them from the bus.

Appendix G – Fuel Adjustment Clause

Base prices and the adjustment Index Price will be taken from US Energy Information Administration (USEIA, https://www.eia.gov/dnav/pet/PET_PRI_SPT_S1_D.htm), oil price daily; the low price for each fuel listed for New York Harbor, NY.

An adjustment will be implemented only when there is greater than a 10% variation from the base price of fuel. It is agreed that if, during the life of the contract, the price of fuel varies by more than 10% from the April 6, 2026, New York Harbor terminal **Ultra Low Sulfur Diesel of \$4.39 and Conventional Gasoline of \$3.30** school district or contractor will reimburse the difference. Below are the criteria which must be met.

The contractor has provided the actual live mileage to the school district. The number of live miles will be divided by 7 miles per gallon, multiplied by the increase or decrease in the cost of fuel less the 10%. (Live miles are defined as miles when students are onboard the bus being transported to/from school, and miles between schools, not including field/athletic trips.

EXAMPLE (using \$2.71):

1. 500 live miles divided by 7 miles per gallon = 71.42 gallons
2. **\$2.71** New York Harbor terminal as of March 20, 2023
3. If price reduces below \$ 2.71 during the term of the contract, the contractor owes the school department:
4. $\$2.71 - \$2.69 = \$0.02$ decrease x 71.42 gallons = $\$1.42$ x number of billable days fuel decreased. If price exceeds \$2.71 during the term of the contract, the school department owes the contractor:
5. $\$2.73 - \$2.71 = \$0.02$ increase x 71.42 gallons = $\$1.42$ x number of billable days fuel increased.

The contractor will provide to the school district a monthly invoice with this formula and a copy of the section of the USEIA, Oil Price Daily indicating the cost increase. The price of fuel for April 6, 2026 Low Tank Wagon Price, ULSD **\$4.39** is the PEG PRICE. The price of fuel for the first Monday of the month for the remainder of the contract will determine the monthly cost of fuel.

Adjustments will be made once a month on the first business day of the month. If the Adjustment Index Price for the first of the month is greater than 10% plus or minus of the Base Price listed here, an adjustment will be made for the difference minus 10% between the Base Price and the Adjustment Index Price. The adjustment will be made on gallons used, based on live mileage of routes driven and miles per gallon for vehicles used, in the previous month.

The fuel used in busing of school children is exempt from Federal Transportation Fuel Tax. The individual Public School will not pay the vendor for any taxes from which it is exempt.

Base Price Date: April 6, 2026

Fuel: Base Price: (Note: All Prices Are Exclusive of Taxes)

Conventional Gasoline: \$3.30
