August 3, 2026

Dear Parents and Guardians,

We are pleased to share that the PowerSchool Parent Portal is available and ready for families to access important student information online. Please complete **all forms prior to** your student's orientation / open house date so they can receive their schedules on that day.

Each school will send specific details regarding your student's orientation / open house. General information is provided below:

- VPI and Secondary (middle and high schools) - August 19, 2026
- Elementary Schools - August 20, 2026

The Parent Portal provides a convenient way to stay informed about your child's educational experience by allowing you to:

- View grades and academic progress
- Monitor attendance
- Access report cards
- Review class schedules (not available for review until after orientation / open house)
- Complete student forms

Whether you are activating your account for the first time or already have an existing Parent Portal account, we have provided several resources to help you get started.

Parent Portal Resources

Please use the following resources as needed:

- **Parent Portal Login Page (for Parents and Students)** – Access the Parent Portal.
- **Accessing Your Parent Portal Account** – Instructions for logging into an existing account.
- **Activating Your Parent Portal Account (Initial Activation)** – Step-by-step directions for first-time users.
- **Adding or Linking a Student to an Existing Parent Portal Account** – Instructions for families with multiple children.
- **PowerSchool Parent Portal FAQs** – Answers to commonly asked questions.
- **Parent Portal App Directions** – Learn how to access student information using the PowerSchool mobile app.
- **How to Create a Google Gmail Email Account** – Assistance for families who need to create an email address to register.
- **How to View Your Child's Report Card Through Parent Portal** – Instructions for accessing and viewing report cards online.

Annual Parent Notifications

As we begin the school year, we also encourage all parents and guardians to review the Student Handbook carefully before completing the required handbook acknowledgment within Parent Portal. The handbook contains important annual notifications and information that families should review each year, including:

- Moment of Silence
- Pledge of Allegiance
- Asbestos Notice
- Cost Per Pupil
- Student Fees, Fines, and Charges
- School Quality Reports
- Administration of Surveys and Questionnaires
- Secondary Academic and Course Planning
- Internet Privacy
- Safe Storage of Prescription Drugs and Firearms

These annual notifications provide important information regarding student rights, school procedures, state and federal requirements, and resources available to families.

Required Back-to-School Forms

As part of the annual back-to-school process, families are also asked to review and update several important forms. Keeping this information current ensures that our schools can communicate effectively with families, respond appropriately in emergencies, provide needed services, and meet state and federal reporting requirements. Once you have completed a review of the Student Handbook and Code of Conduct, please complete the forms identified below from your parent portal account.

Please complete the following forms:

- **Military-Related Student Survey** – This survey helps identify students connected to military families so that appropriate supports and services can be provided and required state and federal reporting can be completed.
- **Student Handbook & Code of Conduct** (*All questions within this form must be completed.*) – Please review the Student Handbook and Code of Conduct with your child before completing the acknowledgment. This form contains important annual notifications, permissions, and acknowledgments required each school year.
- **Emergency Contacts Update** – Please verify that emergency contacts, phone numbers, and authorized individuals are accurate and current. Up-to-date contact information is critical should an emergency arise.
- **Health Information Update** – Review and update your child's health information, including medical conditions, allergies, medications, and other health concerns. Accurate information helps school staff respond appropriately to your child's needs.

- **Telehealth Consent Form** – This form provides consent for eligible school-based telehealth services. Completing it in advance allows students to access services more efficiently should the need arise during the school year. Parents are responsible for setting up any telehealth service.
- **Internet Access Survey** – This survey helps the school division understand students' access to reliable internet and technology outside of school so that instructional and technology supports can be planned effectively.
- **BusRight Parent Form** – BusRight is the new school bus tracking and safety platform designed to keep parents informed during your child's daily commute. By downloading the BusRight mobile app, you can view the real-time location of your child's bus, receive accurate arrival countdowns, and get instant push notifications when the bus is approaching your stop. This form collects information so that BusRight can send you an invitation to the parent app.

If you experience difficulty accessing your Parent Portal account or have questions regarding account activation, password resets, or any of the resources listed above, please contact your child's school office. Staff members are happy to assist you.

We encourage all families to activate and regularly use the Parent Portal and to review the Student Handbook each year. Staying informed through these resources is one of the best ways to remain engaged in your child's education and partner with us to support student success.

Thank you for your continued partnership and support. We look forward to a successful school year together.

Sincerely,

Bryan Huber, Ed.D.,
Division Superintendent
