Robert O. Swartzloff Center
for Educational Services

McHenry Community High School District 156

Ryan McTague, Ph.D., Superintendent
Carl D. Vallianatos, Ed.S., Assistant Superintendent for Learning & Innovation
Julia Pontarelli, Ed.D., Assistant Superintendent for Finance & Personnel
Shae Gibour, Ed.S., Director of Special Services

There are no State of Illinois laws restricting pesticide use in schools. However, it does require us to decide if we want to establish a community registry or universal notification with 48-hour notice. We feel that notification of pesticide use is a good way to ensure all parents, children, staff, and the community are aware and informed of herbicide use in our schools.

Application Notice: Our State of Illinois Certified Applicators will apply InTice 10 pesticide for control of ants around the external perimeter of Upper Campus. InTice is a granular barrier type control applied to the exterior perimeter only.

If you are aware of other users who would like to be informed of these future applications, please have them contact me via email at facilities@dist156.org .

Respectfully,

Hugh Flack
Director of Building and Grounds
