WHAT TO EXPECT

The Lennox Lions Club will provide free vision screenings using the SPOT Vision Machine, which takes a picture of your child's eyes. The technology can detect potential vision problems, including near-sightedness, far-sightedness, astigmatism, lazy eye, pupil size deviations, and eye misalignment.

If your child wears prescription glasses or contacts, please make sure they have them at school; screenings will be completed with them on.

DO YOU WISH TO OPT OUT?

If you do not want your child to participate, contact your school secretary or email Renee Johnson by the deadline listed below.
