APPENDICES

Introduction

Emergencies and violent incidents in school districts are critical issues that must be addressed in an expeditious and effective manner. Districts are required to develop a districtwide school safety plan designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of the district with local and county resources in the event of such incidents or emergencies. The districtwide plan is responsive to the needs of all schools within the district and is consistent with the more detailed emergency response plans required at the school building level. Districts stand at risk from a wide variety of acts of violence, natural, and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (SAVE) law. Project SAVE is a comprehensive planning effort that addresses prevention, response and recovery with respect to a variety of emergencies in each school district and its schools.

The Gloversville Enlarged School District supports the SAVE legislation and intends to facilitate the planning process. The Superintendent of Schools encourages and advocates on-going districtwide cooperation and support of Project SAVE.

Section I: General Considerations and Planning Guidelines

A. Purpose

The Gloversville Enlarged School District Districtwide School Safety Plan was developed pursuant to Commissioner's Regulation 155.17. At the direction of the Gloversville Enlarged School District Board of Education, the Superintendent of Schools appointed a Districtwide School Safety Team and charged it with the development and maintenance of the Districtwide School Safety Plan. The districtwide plan was updated in June 2026.

B. Identification of School Teams

As per Commissioner's Regulation, Section 155.17 (c) (13), the Gloversville Enlarged School District Districtwide Safety Team is comprised of representatives of the Board of Education, teachers, administrators, school safety personnel and other school district personnel.

The Chief Emergency Officer for the district is Safety Officer, Michael Etherton who shall ensure coordination of communication between staff, law enforcement and first responders and ensure that staff understand the districtwide plan.

C. Concept of Operations

- 1) The Districtwide School Safety Plan shall be directly linked to the individual Building Level Emergency Response Plans for each school building. This Districtwide School Safety Plan will guide development and implementation of Building Level Safety Plans.
- 2) This Plan has been developed using the New York State Education Department guidance document.
- 3) In the event of an emergency or violent incident, the initial response to all emergencies will be by the School Emergency Response Team.
- 4) Upon activation of the School Emergency Response Team, the Superintendent of Schools (or Designee) will be notified and, when appropriate, local emergency officials will also be notified.
- 5) County and state resources, through existing protocols, may supplement emergency response actions, including post-incident responses.

D. Plan Review and Acceptance

- 1) This Plan was reviewed in June 2026.
- 2) The districtwide and building level plans were adopted by the Board of Education in 2001 after a public hearing that provided for the participation of

school personnel, parents, students and other interested parties. The Plan must be formally adopted by the Board of Education.

- 3) Full copies of the Districtwide School Safety Plan and any amendments will be submitted to the New York State Education Department within 30 days of adoption.
- 4) This Plan will be reviewed periodically during the year and will be maintained by the Districtwide School Safety Team. The required annual review occurred in June 2026. The Building Level Emergency Response Plans will be supplied to local police, the sheriff's department and the NYS Police within 30 days of the update.
- 5) While linked to the Districtwide School Safety Plan, Building Level Safety Plans shall be confidential and shall not be subject to disclosure under Article 6 of the Public Officers Law or any other provision of law, in accordance with Education Law Section 2810-1.

Section II: Risk, Reduction/Prevention and Intervention Strategies

A. Prevention/Intervention Strategies

- Character Education Program
 - Assemblies to discuss pertinent issues
 - Agency consultation provided in schools
 - Dignity for All Students Act (DASA)
 - Code of Conduct policy
- 1) Information will be available to parents/guardians on how to identify potentially violent behaviors through the guidance office.
 - 2) If a teacher or administrator feels help for a student is warranted, it will be discussed with appropriate school personnel to determine the next step.
 - 3) An interpersonal violence prevention education package will be taught as appropriate.
 - 4) The Gloversville Enlarged School District recognizes that communication is a vital key in the prevention and intervention of violence in schools. The district will continue to explore programs based on need.
 - 5) The district's referral process is utilized for the reporting of potentially violent incidents and following the district's Code of Conduct.
 - 6) Additionally counselors are available in every school for students to share information where the source can be confidential.

B. Training, Drills and Exercises

Three levels of annual multi-hazard school training will be considered in this plan:

- 1) responder training for members of the Incident Response and Post-incident Response teams conducted by response agencies and/or the BOCES Health, Safety and Risk Management staff;
- 2) general staff awareness training conducted during a superintendent's conference day, by Gloversville administrative staff, by BOCES Health, Safety and Risk Management staff, or through videos;
- 3) general student awareness training of emergency response procedures conducted by building staff (i.e. fire drills, lockdown drills, etc.)

Each year the Districtwide School Safety Team and/or Building Level Teams will consider appropriate training for each of the groups listed above.

- 1) Lockout and lockdown drills are conducted throughout the school year and an evacuation drill is done at least once a year.
- 2) A table-top exercise with response staff to discuss emergency procedures will be conducted once a year.
- 3) After each drill, a meeting is held to discuss the drill and make changes if necessary(After Action Review).

C. Implementation of School Security

Safety Response

School staff are trained to be vigilant pertaining to threats against students and staff (i.e. bullying). The district continues to promote a culture of respect for the students and staff through the Dignity for All Students Act (DASA).

Security Devices

- Surveillance cameras are on buses and at multiple locations on campus. The district is looking to add additional surveillance devices.
- Photo ID cards are issued to staff and badges to visitors. There is a sign in and sign out log for visitors. Visitors are required to wear a "visitor" tag and must submit a photo ID to be scanned through the Raptor System.
- A swipe card system is used by all staff.
- All outside doors to remain locked, but will be accessible as an exit.
- Buzzer system with camera at each main entrance.
- A sign at the main entrance will direct all visitors to "report to the office and sign in".
- TapApp security is currently used throughout the entire district, including all local law enforcement and emergency personnel.

D. Vital Educational Agency Information

Each Building Level Safety Plan will include the following information:

- school population;
- number of staff;
- transportation needs; and
- business and home telephone numbers of key officials of each campus.

The Building Level School Safety Teams will insure that this information is accurate and will be updated routinely.

E. Early Detection of Potentially Violent Behavior

1) Paying attention to early warning signs can help prevent or minimize violence to self and others. Certain emotional and behavioral signs, when viewed in context, can signal a troubled student. Teachers are trained to recognize the signs that can be used to signal a student who may need help. The more signs a student exhibits, the more likely it is that he or she may need intervention. Early warning signs include, but are not limited to:

- Depressed mood or chronic crying.
- Decline in school performance.
- Verbal expressions about one's own death.
- Giving away important personal possessions.
- Use of alcohol or drugs.
- Sudden lifting of severe depression.
- Recent withdrawal from therapy or psychological counseling.
- Purchase of knives, guns or ropes.
- Verbal or written communications which appear to be saying "goodbye".
- Feelings of guilt.
- Violent, aggressive behavior.
- Exaggerated mood swings.
- Running away.
- Talking about revenge or getting even with parents.
- Confusion and despair resulting from sudden death or suicide of a peer.
- Any sudden obvious changes in behavior.
- Eating disorders – changes in eating habits.
- Sleeping disorders – insomnia or excessive sleeping.
- Low energy level, constant fatigue.
- Decreased productivity or effectiveness.

- Pessimism about the future or brooding about the past.
 - Loss of interest in former pleasurable activity.
 - Inability to show pleasure.
 - Reactions that seem inappropriate to the situation.
 - Statements of inadequacy or low self-esteem.
 - Social withdrawal – pulls away from friends.
 - Irritability or excessive anger (which may be directed towards parents, caretakers, or siblings), rebelliousness and belligerence.
 - Neglect of personal appearance.
 - Physical complaints.
 - Preoccupation with illness, death or catastrophic events.
 - Decreased attention, concentration or ability to think clearly.
- 2) Information will be available to parents/guardians on how to identify potentially violent behaviors through the guidance office.
 - 3) If a teacher or administrator feels help for a student is warranted, it will be discussed with the appropriate school personnel to determine the next step.
 - 4) The Superintendent of Schools will set specific times for the building administrators, in conjunction with the Gloversville Enlarged School District Professional Development Committee, to organize activities of particular concern as needed.

F. Hazard Identification

The District has established procedures in the Building Level Safety Plans for the identification of potential sites and the internal and/or external hazards that may be present in them. Besides building security and restoration, the strategies will also include damage assessment, relocation and continuation of the educational process. A post-incident response critique, the notes from the Incident Command Team and lessons learned will be assessed. Plans to mitigate the likelihood of occurrence or impact, if the incident does occur again, will be reviewed. If possible, efforts will be made to improve district facilities resulting in them being more resistant to suffering similar or worse damage.
