TEACHER FEATURE

FEATURE TEACHER

By: Ella Dawson

Hello, my name is

MRS. FOSTER

Birthday: August 13

Hobby's: reading baking, cooking and taking walks

MY PET, BRUCE

Bruce is my dog. He is 2 years old. He can be naughty but he is also very sweet. He gets happy when I come home. He's a good snuggler and is my buddy.

FUN FACTS:

1. Related to Sir Francsis Drake of England
2. I tought Mr. Reisdorf how to swim
3. I became a grandmother over the summer

Favorites:

Animal: Horse

Food: Chocolate and chicken biscits

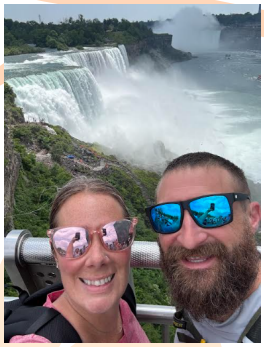

Movie: Ever After

Book: The dog who was there

FAVORITE COLORS:

ALL ABOUT MRS.GASS

By Sawyer Dilimone

Q: What is your favorite animal?

A: Elephant

Q: What type of animals do you have?

A: 4 cats and 17 aquatic animals

Q: What is your favorite food?

A: Pizza and chinese food

Q:What is your favorite season?

A: Fall

Q: What is your favorite hobby?

A: reading

Q:What is your favorite thing about teaching?

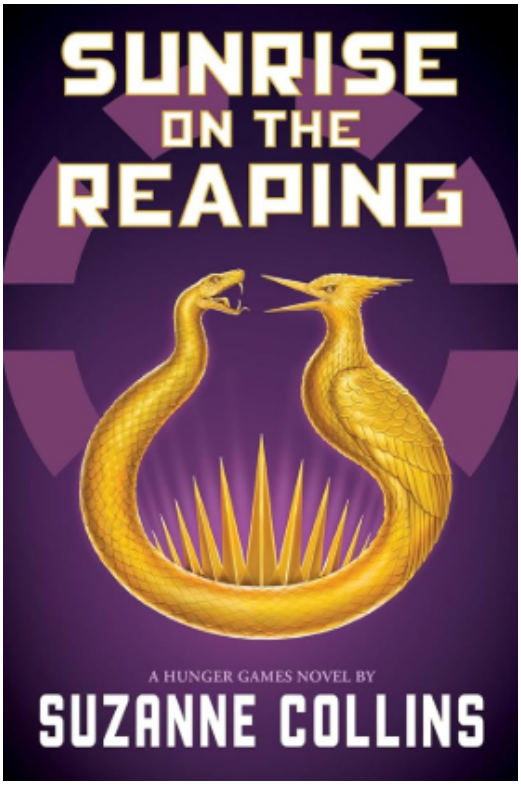

A: "Seeing kids grow, learn, and become confident. I am so proud of the progress they make

Sunrise on the Reaping REVIEW

By: Raegan Shay

INTRO

Have you ever read the Hunger Games? Or watched the movie? If you have, you might know Suzanne Collins. She has a NEW book. This book is a PREQUEL. A prequel is a book that comes BEFORE the original book.

ABOUT THE BOOK

The book is about Haymitch Abernathy. Haymitch was District 12's 2ND victor. He was a mentor to Katniss and Peeta in the first book. In the book, it is the fiftieth games. Which means it is a quarter quell. This means twice as many people will be tributes to the games. Haymitch WAS NOT picked. Instead Woodbine Chance was. *GROSS ALERT* Woodbine Chance tried to run away but before he could, a Peacekeeper shot him. To protect his girlfriend Haymitch pushed a Peacekeeper. That ensured his spot in the games.

REVEIW

I personally love this book. It is very sad so if you don't like books that make you cry you will hate IT! One of the reasons I love this book is because it makes you greatful for everything that we have. It also makes reminds you that everyone is fighting their own wars.

CONCLUSION

I love this book. It is a beyond great read. I reccomend this book to you if you like books. So, what are you waiting for? Go check out Sunrise on the reaping right now!

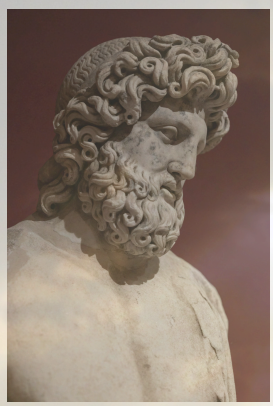

A Touch of HISTORY

HERA:

QUEEN OF THE GODS
GODDESS OF MARRIAGE . FAMILY. AN D BIRTH
SYMBOLS ARE POMEGRANATE.. SCEPTER AND CROWN.
ROMAN NAME: JUNO

AMELIA EARHART

BY: Raegan Shay

INTRODUCTION

Have you ever been out of your comfort zone? Have you ever done something you considered impossible? Or have been wanting to do something you still don't have enough courage for? There was a woman long ago who did the "impossible" at the time. She did not let anyone get in her way.

EARLY LIFE

Amelia was born in Atchison, Kanas on July 24th, 1897. Her father was Samuel "Edwin" Stanton Earhart, and her mother, Amelia "Amy" Earhart. Amelia was born at the home of her maternal grandfather, Alfred Gideon Otis. He was not in favor of her parent's marriage nor her father's progress as a lawyer.
Amelia Earhart was named after her two grandmothers, Amelia Josephine Harres and Mary Wells Patton. Amelia and her younger sister, Grace Muriel Earhart were very adventurous, strong and courageous. Both her and her sister, earned nicknames, Amelia, "Meeley" and sometimes "Millie", and Grace's "Pidge". Since Amy Earhart did not believe in raising her children to be "nice little girls" they wore bloomers that their grandmothers despised. Amelia was a little sensitive that all of the other girls wore dresses. Amelia collected many things with her sister including tree toads, Katydids, and more! Once Amelia went on a ramp like a "roller-coaster." With her bruised lip and torn dress she said, "Oh, Pidge, it's just like flying!"
During her teenage years, Amelia remained with her grandparents in Atchison, Kansas, while her parents moved to Des Moines. Amelia received home schooling. Amelia became exceedingly fond of reading. Finally, in 1909, her family reunited in Des Moines. Amy Earhart took her children to Chicago where they lived. Amelia did not go to the nearest high school saying the chemistry lab was just like the "kitchen sink." She eventually graduated at another high school, Hyde Park High School. After visiting her sister in Canada she saw wounded soldiers coming back from World War I that inspired her to become a Red Cross nurse. During her time being a nurse, she saw many air crafts and became fond of them.

CAREER

Amelia and a friend took a ride on a plane. She was immediately interested in flying. She got Neta Snook to be her flying instructor. Even when times got tough, Amelia continued practicing aviation. In 1928, she became the first woman to fly over the Atlantic Ocean. But Amelia wanted more. She wanted to fly across the world.

LAST FLIGHT

In 1937, Amelia was in the air. Amelia was accompanied by a navigator, named Fred Noonan. They took off in a twin-engine Lockheed Electra. Since one load of fuel wouldn't make it across the world Amelia had stops along the way. They finally reached Lae, New Guinea. On July 2nd they headed for Howland Island. Since the island was so small, they had ships with lights to mark it. Everything was going great until Amelia announced on the radio that she was running out of fuel. An hour later, all radio transmission was gone and Amelia fell from the sky. Amelia's plane was never found...

CONCLUSION

In conclusion Amelia Earhart kept doing what she loved no matter what. She persevered through everything life threw at her. Let that be an example to us all. We all are strong and can do hard things. I personally think Amelia Earhart was an extraordinary person.

"Everyone has oceans to fly, if they have the heart to do it. Is it reckless? Maybe. But what do dreams know of boundaries?"
— Amelia Earhart

It's Just Science!

EARTHQUAKE

BY ABIGAIL HOBBS

WHAT ARE EARTHQUAKES

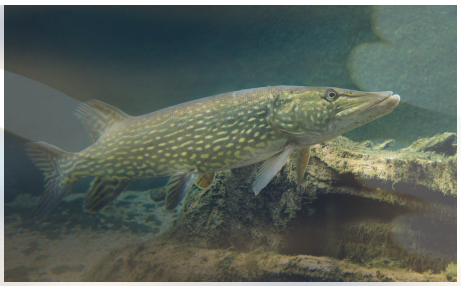

GOOGLE SAID EARTHQUAKES ARE THE SHAKING OF THE GROUND CAUSED BY THE SUDDEN RELEASE OF ENERGY FROM THE EARTH'S TECTONIC PLATES MOVING AND SLIPPING PAST ONE ANOTHER. THESE MOVEMENTS ARE CAUSED BY STRESS BUILT UP ALONG FAULTS. WHICH ARE CRACKS OR BOUNDARIES WHERE THE PLATES MEET. WHEN THE BUILT-UP STRESS BECOMES TOO GREAT. THE ROCKS BREAK OR SHIFT. AND THE ENERGY TRAVELS THROUGH THE EARTH AS SEISMIC WAVES. CAUSING THE GROUND TO SHAKE.

HOW ARE EARTHQUAKES MEASURED

FROM WHAT I GOOGLED. EARTHQUAKES ARE MEASURED USING SEISMOGRAPHS. WHICH RECORD SEISMIC WAVES. AND ARE TYPICALLY QUANTIFIED BY A MAGNITUDE SCALE LIKE THE MOMENT MAGNITUDE SCALE. WHICH CALCULATES THE TOTAL ENERGY RELEASED.

HOW DO EARTHQUAKES FORM

FROM THE INTERNET. EARTHQUAKES FORM WHEN THE EARTH'S TECTONIC PLATES MOVE AND SUDDENLY RELEASE STORED ENERGY. THIS MOVEMENT CAUSES PRESSURE TO BUILD UP ALONG FAULT LINES. AND WHEN THIS PRESSURE OVERCOMES THE FRICTION HOLDING THE PLATES TOGETHER. THEY SLIP AND RELEASE A LARGE AMOUNT OF ENERGY. CREATING SEISMIC WAVES THAT CAUSE THE GROUND TO SHAKE

THE NORTHERN PIKE

BY: BROCK WILLIAMS

PIKE ARE A BIG PREDATOR FISH THAT CAN GROW 4 FEET LONG AND ABOUT 50-60 POUNDS. PIKE HAVE ABOUT 100-200 TEETH IN THEIR MOUTH. THEY LIKE COLD SHALLOW WATERS WITH LOTS OF WEEDS. THEY HIDE IN THE WEEDS AND WHEN A SMALL FISH COMES BY. THE PIKE COMES AND EATS THE FISH. PIKE ARE VERY FAST FISH. THEY ARE LONG AND SKINNY FISH. IF YOU HAVE EVER CAUGHT A PIKE THEY ARE VERY SLIMY. MUCH SLIMIER THAN OTHER FISH! SOMETIMES THERE IS SLIME DRIPPING OFF OF THE PIKE. THAT HELPS THE PIKE GLIDE THROUGH THE WATER FASTER.

IF YOU WANT TO CATCH A BIG PIKE. THERE ARE 5 MAIN LURES.THE 5 LURES ARE SPINNERS/BUCKTAIL. SPOON. RUPOLUS. MADUSA. LIVE 2-7 INCH SHINERS WITH A SIZE 30 HOOK.

Writing Club

By Jazmine Moore

Do you like writing or typing? Then you should attend the writing club because you can type anything you want. You make memories typing and talking about making more newspapers! It takes a lot of time to make the new paper . The best part is, it takes a lot of time because you can write more. Another reason to join is that it will make you a good writer.

My Football Team

By Kaedence Worthington

My football team has the best teammates! I have a friend named Jase Young and he can tackle people really well. His football number was 44. I have a friend named Liam Neth and he is good too!

I play football and my number is 19. Well, there are more people but I can't name them all!

Let me tell you all something. Girls out there, you can play football if you want! Girls like me play football.

How To Train Your Human?

By:Harley Olsen

So you want to know how to train your human? I know what you are thinking, train a human... that's confusing! Well, I'll tell you how. First, you teach them brainrot like 67 or balloreeno chapichino. Second, you feed them junk food and TV dinners. Then, you make them obey by taking away their electronics. Give them back after a few hours or days so they think you are the best. Last, you make them do your homework and chores to show them you are Gen Alfa. Now you can train your human, have fun. Train responsibly.

Cats

By: Ryleigh Finch

Lets start with the Maine Coon cat. Maine Coon cats are known as "gentle giants" due to their large size and sweet disposition. They are one of the largest domestic cat breeds. Males can reach up to 3 feet long and can weigh 13-25 pounds.

Now lets talk about Calico cats. Calico cats are usually black, white, and orange. Calico cats are almost exclusively female due to genetics, but rare males can exist due to a genetic anomaly and are typically infertile. They can weigh about 8 to 12 pounds, and 8 to 20 inches from nose to tail tip.

STICH

by Esme Swinehart

Stitch is the best Disney character. He is a blue alien and he has a friend Lilo. Stitch's experiment number is 626. He is indestructible and invincible. Stitch is also energetic and needs to learn his manners! He is also a bad cook!

THE HISTORY OF 67

-ELIAM TINEO

67 was made in October 2024 or 2025. If you say 67, it means multiple things. It is slang, internet culture , telecommunication, and numerology. What's most popular is the meme 6777777. It got popular during a basketball game when a kid said 67. It also got popular during 2025 with analog horror videos on TIKTOK and YOUTUBE. For some schools, people scream it 60 or 70 times in school a day! It's to the point where schools ban 67! Even a teacher might make you do a writing assignment of 670 words over saying 677777! If you say 67, you'll get in trouble. Here's the thing 67, is literally 2 numbers. Like dude it's not deep. Moral of the story 67 is 2 numbers.

Star Dust And The Once In A LifeTime Experience
By Violet Schafer

Here we are, this is the space launch territory. This is the place where kids, adults and animals can get sent to outer space. At this space launch spot, there are so many workers. The best worker is a little girl named Mabel. She is the one who starts the countdowns and puts the kids and animals in the ship. If you couldn't tell, she is the manager for this company. Also, she is a kid and really wants to go to space. You have to be Ghmn8ui to get a call from the space center to be able to go on a ship. She just hasn't been asked yet but she still has hope and today might just be the day! Sadly, it wasn't.

3...2...1 launch

There goes more kids that Mabel has sent to space. They will be back in 1 week. Mable only needs to send 3 more kids to outer space to beat the world record of sending the most people to ride the stars. The one thing that kept Mable from giving up on ever going to the moon was that it was one more month before summer. They closed and made a new spot for a new rocket. So next year, she will have two rockets for lunch and Mable loves sending rockets to the stars. She is really pumped for that!

Two weeks later, Mable was losing hope. She may need to wait till next year. Then the words finally came. "Mayble, you can help Zoe bring the food to the people on the ISS."

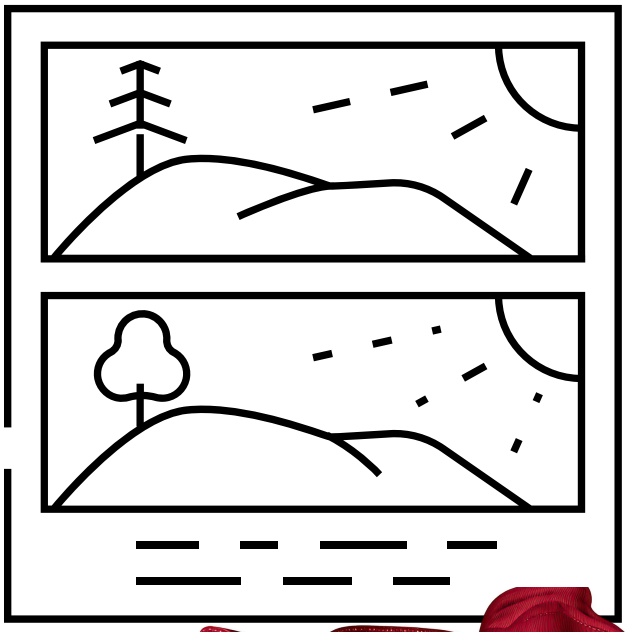

This made Mabel's day! Really, her whole week! She was jumping and running telling everyone what she was chosen to do. She was so excited to head to the moon. Well, ISS, but she gets to go to outer space. Mable had a really deep thought. She thought about who would run the space ship and launch it? She was normally the one who would do that job. She got really worried and confused. She only had one person that partly knew how to launch a space ship because she was sick one day. He got a mini lesson on how to do it. He knew how to launch the space ship for one day but not a whole week and we are leaving tomorrow at 3am. The worst thing of all was this is the last flight of the season! He has to connect all the radios and connect signals to the ship. He doesn't know all that stuff! Ok, I think I got it. I'm going to tell him to bring a mask and take some medicine. He can come in later so just me and him are there. He can only get me sick and no one else, just in case.

So Mabel had given him his mini lesson and after they went home. Mabel had this hard, gut feeling that something would go wrong. She ended up going to sleep so nervous she almost ran to her mom's room to sleep with her. She thought that she was much stronger than that so she pushed through the night. Getting on the ship in the morning she thought everything was alright but she still had that sharp gut feeling. When the count down was at around 5, she was at the verge of fainting right there. Something happened and she saw a bright light. She didn't faint. She survived. That was just a flash. She had made it.
