THE LEGEND OF SANTA CLAUS

By Lauren Feitshans

The legend of Santa Claus originates from a monk named St. Nicholas, who was born around A.D. 280 in modern-day Turkey. He gave away all the wealth he had inherited and traveled through the countryside helping the sick and poor. St. Nicholas became known as the protector of children and sailors. America's first adaptation of St. Nicholas was in New York when Dutch families all honored the anniversary of the death of "Sint Nikolaas", which is Dutch for Saint Nicholas. Later in 1822, Episcopal minister Clement Clarke Moore wrote the poem, "An Account of a Visit from St. Nicholas." The poem is more popularly known by the first line: "'Twas the Night Before Christmas." The first iconic version of Santa Claus was created in 1881 when the political cartoonist Thomas Nast drew on Moore's poem, creating the iconic Santa Claus we know today.

Fun Facts of December:

Important dates in December:

- December 14th: Hanukkah
- December 24th: Christmas Eve
- December 25th: Christmas
- December 26th: Kwanzaa

SPANISH CLUB:

Spanish Club meets throughout the year in Mrs. Loeber's room (115) on no specific day, so listen for updates on the announcements. The initiation date has already passed, but you can still visit Mr. Beach to ask about joining. Once you are in, you can join Ski Club as they venture to Holiday Valley on specific weekend dates. You will need to pay at least \$200 for an all-season pass, excluding rentals for equipment. But these passes can be used as many times as you want until they expire, and you can also take advantage of free lessons with the pass.

TEACHER FEATURE

By Riley Tobias

Mr. Clark has been teaching at Pembroke for 30 years. He is currently teaching Music in our Lives, Junior High General Music, Junior High Chorus, and Senior High Chorus. He also directs Chamber Singers and the High School Musical.

Q: What is one interesting fact about your ancestors?

A: My mom's side of the family is French. My Dad's side is English, which explains his wild personality because English and French haven't gotten along much in history. That explains why he is the way he is.

Q: If you were a chair, what type of chair would you be?

A: I would be an office chair with wheels so I could travel the world.

Q: What have you learned about life from kids?

A: I have learned extreme patience due to the amount of terrorization and brutal age jokes I've had to put up with for all these *many* years.

Q: Do you prefer a real or fake Christmas tree?

A: Fake Christmas trees rule. They are reusable, so you only have to buy them once, and they save you hours of cleanup of pine needles.

Q: If you were to take up boxing, what would your fighter's name be?

A: Clark the killer

MOVIE REVIEW

By Mary McDonald

HOME ALONE 2

Home Alone 2 is the second movie of one of the most classic Christmas movies of the year. It is the second movie in the series and was released on November 15, 1992. We follow Kevin McCallister as his family plans a holiday trip to Florida, but after a series of mishaps, Kevin accidentally ends up in New York City instead. We get to see how he survives in the big city with our two reappearing antagonists, Harry and Marv, also known as the Wet Bandits.

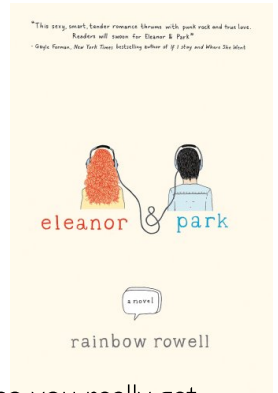

BOOK REVIEW

ELEANOR & PARK

by Rainbow Rowell

This is about two totally different teens whose worlds collide in the best way. Set in 1986, the story switches between their points of view, so you really get inside their heads. The writing is super easy to read and full of visuals that make you feel like you're right there on the bus with them. Eleanor deals with a lot, from bullying to problems at home, but Park is always there for her, even when she doesn't ask. There are twists, drama, and some moments that hit hard. I usually don't like love stories, but this one felt real and not cheesy or fake like in movies. I honestly fell for these characters, and you will too.

IT'S RAINING CATS & DOGS!

CATS: MAINE COON

By The Pembroke Post

The Maine Coon is one of the oldest natural cat breeds in North America, originally from the state of Maine. Known for their large size, fluffy coats, and tufted ears, they often look like small wildcats. Adult Maine Coons can weigh between 10 and 25 pounds and measure up to 40 inches long from nose to tail. Despite their big appearance, they are gentle, friendly, and very social. They are curious and playful, making them great family pets who usually get along well with kids and other animals.

DOGS: CHOCOLATE LABS

By Kaelyn Yager

Chocolate Labs originated in Newfoundland, Canada, in the early 1800s. They were originally bred as hunting dogs and have a long history of working alongside people. Many consider them excellent family pets because of their friendly personalities and high trainability. For more than three decades, they've been one of America's favorite dog breeds. Chocolate Labs are energetic, intelligent, and typically medium to large in size, weighing 55-80 pounds. They are sturdy dogs with a short, water-resistant double coat that ranges from light to dark brown, and they often have warm brown or hazel eyes.

ANIMAL: EUROPEAN TURTLE DOVE

By Riley Tobias

The European Turtle Dove is a relatively small species of dove, growing to approximately 10-11 inches in length with a wingspan of only 19-21 inches roughly. It is a nice light brown with a black and white stripe on the side of its neck. This bird lives in the south Sahara during the winter season and covers most of Europe and the Middle East. They are slowly becoming extinct, with Britain having conservation laws to protect and preserve this species. Soon, there may be no more turtle doves from your beloved Christmas carol.
