Responsibility

Family Newsletter

Purposeful

Responsibility Overview

This month we are talking about Responsibility. One way to define Responsibility is “taking action and understanding the impact of our choices.” Taking action can mean doing the right thing or completing the tasks you have been assigned. Understanding the impact of our choices means that our actions matter. Positive and responsible actions can help people and irresponsible actions can hurt others.

Responsibility is 1 of 3 traits we will focus on throughout the year that helps students **Be Strong**.

Across grade levels students will be developing skills like focusing, organizing, and goal-setting.

Conversation Starters

- Can you share or show what it means to be Responsible?
- How can we help each other practice being more Responsible?

PurposeFull Pursuits

Have some fun connecting as a family this month while practicing Responsibility. Here are 2 “PurposeFull Pursuits” you can complete together!

#1

As a family, think of ways in which you might make someone’s life a little easier by helping a neighbor or family friend with 1 of their Responsibilities. Could you bring the garbage to the chute or out to the curb? Could you carry things in from the grocery store? Could you invite someone over for a meal or a show?

#2

Review Responsibility as a family! Responsibility is taking action and understanding the impact of our choices.

Choose 1 household chore (or more!) that requires multiple steps. Then have each member of the family select 1 step to complete to help get the job done! Maybe it’s washing the dishes, doing laundry, cleaning the living room, or unloading the groceries – whatever it is, see who can be the quickest or most effective at their task!

Monthly Health Spotlight:

Cold & Flu Prevention

Cold and flu season peaks in the fall and winter, and schools are a common place for germs to spread. Simple habits can make a big difference in keeping kids, families, and classrooms healthy.

Flu-Fighting Habits for October:

- Wash hands often: Use soap and warm water for at least 20 seconds.
- Cover coughs and sneezes: Use a tissue or elbow to stop the spread of germs.
- Don't share drinks or utensils: Germs can spread quickly this way.
- Stay home when sick: Rest helps recovery and prevents spreading illness.
- Keep your immune system strong: Eat colorful fruits and veggies, get plenty of sleep, and stay active.
