Student Safety Data System (SSDS)

- By law, all New Jersey public school districts (including charter schools) must use the Student Safety Data System (SSDS) to report all incidents of violence, vandalism, weapons, substance abuse and HIB incidents that occur in their schools
- SSDS has replaced the Electronic Violence and Vandalism Reporting System (EVVRS) and the Harassment, Intimidation, Bullying-Investigations Trainings and Programs System.
- The district reports this information to the Board of Education and the public on a semi-annual basis.
- Period 1 reports incidents between September and December. Period 2 reports incidents between January and June.

This report will cover Period 2 of the 2025-2026 school year, covering data from January 2026 to June 2026.
