Subject: District of Innovation Teacher Certifications Granted

BACKGROUND INFORMATION

House Bill 1842, passed during the 84th Legislative Session, allows Texas public schools with sufficient academic ratings to obtain exemptions from certain provisions of the Texas Education Code. The allowable exemptions are for those sections of code that do not apply to charter or private schools in an attempt to reduce the extra administrative or operational burdens placed on public schools.

The Board of Trustees approved the administration's plan to implement conversion to full teacher certification, as allowed by Texas Education Agency rule making at the February 16, 2026 meeting.

ADMINISTRATIVE CONSIDERATION

As Tyler ISD continues its quest for highly effective educators, consideration has been given to qualified applicants who meet the requirements for district certification. For the Spring 2026 school semester, a total of Two Hundred Twenty-Seven (227) district level certificates were granted:

Subject: T-TESS/Walkthrough Evaluation Update

BACKGROUND INFORMATION

The Texas Teacher Evaluation and Support System (T-TESS) was created by an educator steering committee comprised of teachers, principals, and representatives from higher education and educator organizations with a goal to support teachers in Texas with ongoing feedback and development to continually improve teacher practice. Tyler ISD administrators began using T-TESS in the fall of 2016.

The goal of T-TESS is to be a formative system that provides a framework for ongoing conversation and feedback to support teachers and students. T-TESS consists of three (3) measures:

1. Classroom Observation and Walkthrough
2. Goal-Setting and Professional Development Plan
3. Student Growth

ADMINISTRATIVE CONSIDERATION

Principals collect and analyze walkthrough and T-TESS observation data to improve instruction on campuses for successful student outcomes. T-TESS also serves as the district's annual appraisal system of teaching staff and professional development effectiveness.

Subject: Senate Bill 546 – Transportation: Seat belts on Buses

BACKGROUND INFORMATION

Senate Bill 546, passed in the 89th Regular Legislative Session, amends Texas Transportation Code §547.701(f) and requires all school buses operating in Texas to be equipped with three-point seat belts for every passenger, including the driver. By the conclusion of the 2025–2026 school year, school districts must report to the Texas Education Agency the number of buses requiring retrofitting, along with the estimated costs associated with installing three-point seat belt systems.

ADMINISTRATIVE CONSIDERATION

The Transportation department has collected the required information and reported as:

- (A) The number of buses not equipped with seat belts: 0
- (B) The number of buses equipped with two-point seat belts: 48
- (C) The number of buses equipped with three-point seat belts: 73

The administration obtained quotes for this project totaling \$1,837,829.84.

The current budget does not allow for the cost to retrofit/replace all seat belts with three-point seat belts. However, as budget allows, school buses are purchased in accordance with the district's 15-year replacement cycle. New buses purchased will be equipped with 3-point seat belts.

The district will consider further purchasing ahead of schedule as the Legislature provides funding through increased basic allotment or grants as they have previously with legislative mandates. However, without an increase to the basic allotment, the district will proceed as usual.

Dr. Bobby Markle presented Next is Now: Preview of the 1882 Partnership with The University of Texas at Tyler. He stated that the 1882 Partnership represents a “Redesigned and Forward-Looking” collaboration and reviewed the core goals that will guide the partnership. The district would like to make sure students have a direct pipeline in to various industries such as biomedical science through UT Health and clinical teaching to engage students and expose them to the teaching profession to help grow our own teachers. This partnership is about being local and bringing the community together to show that Tyler is our hometown school district. Peete Elementary School will have an early literacy teacher preparation program, Clarkston Elementary School will have a residency teacher preparation program for PreK-5th grade, and Bonner Elementary School will begin a biomedical science program with the partnership at UT Health. This collaboration will be an intentional alignment that can strengthen educator preparation, elevate instruction, and create lasting impact for students and communities. He then addressed questions from the board.

Mr. Newsome arrived at 5:20 p.m.

Dr. Markle presented Next is Now: Boulter Middle School Accelerated Campus of Excellence (ACE). (Additional Days of School Year), Student Support (Mental Health and Social Supports for Students) and Strong External Alignment to Mission. He reviewed the ACE Theory and Action for each of the five pillars. Dr. Crawford stated that every middle school student deserves to be in an “A” or “B” rated school. The staff, structure, and instructional methodology should replicate that same theory of action. There are 900 students that attend Boulter Middle School and they deserve the opportunity to catch up and sustain as quickly as possible. They then addressed questions from the board.

Mr. Licea made a motion to approve the Boulter Middle School Accelerated Campus of Excellence Plan for the 2026-2027 school year. The motion was seconded by Mr. Newsome and passed by a vote of 6-0.

The motion was approved by a vote of 6-0.

Dr. Crawford stated the district has received a donation in the amount of \$38,800 from the Cooperative Teachers Credit Union for Tyler ISD District Events and a donation in the amount of \$15,000 from The R.W. Fair Foundation for the Tyler

ISD Athletic Department for Youth Basketball League. The board expressed their appreciation for the continued support and partnerships. Mr. Bergfeld made a motion to approve the donations. The motion was seconded by Mr. Levrets and passed by a vote of 6-0.

Regarding Curriculum/Instruction/Consent agenda, Dr. Crawford stated that Senate Bill 11, passed by the 89th Texas Legislature as codified in Texas Education Code 25.00823, requires each school board to take a record vote on whether to create a policy on authorizing a campus of the district to establish a period of prayer or reading of the Bible or other religious text. He continued stating that the Tyler ISD Administration welcomes the legislation's intent as an opportunity to provide an inlet of moral and ethical support for students and staff as a response to the increasing cultural pressures and societal decay children, adolescents, and young adults are exponentially experiencing outside of our schools. While the legislation aligns with Tyler's and East Texas' expectations for how its public schools should operate in contrarian to other districts, Tyler ISD Administration has elevated concern well past intent when contemplating the execution demands as required within statute.

Mr. Licea stated that the district already provides time for students to pray and that this is going to be a cumbersome burden on administration. He stated that it is not something he would support, and he believes that the district already allows prayer in school.

Mr. Levrets stated that he spoke to several church leaders in his area to get their feedback and they felt that the school should handle educating kids and let the church handle providing spiritual guidance. He also stated that he would defend the right to have "See You at the Pole" every day if the students so choose.

Mr. Bergfeld stated that a couple of things come to mind. Prayer is a good thing and just because this board may not vote to add this resolution to what we do does not mean that we do not support prayer. When you talk about prayer, if you look at Matthew 6 - "And when you pray, do not be like the hypocrites. For they love to pray standing in the synagogues and on the street corners to be seen by men. I tell you the truth, they have received their reward in full. But when you pray, go into your room and close the door, pray to your Father who is unseen." He stated that it seems like a very private act and there are many ways to pray. He thinks that when you consider putting that into the day as a period, he is with the other board members. He thinks there is time in the day for people to practice their faith. He stated in all his years on the board he has not had one person tell him that they were not able to practice their faith the way they wanted to in Tyler ISD. He stated that it seems like the Legislature is giving us a solution in search of a problem in Tyler ISD. He believes that the board understands what the community expects of the district and he was fortunate to have dozens of teachers live out their faith

when he attended Tyler ISD as a student. He said they did not need a period to do it, they just did it, and he is thankful that they did. He supports “not” voting that in right now.

Mr. Newsome stated that the board is in favor of prayer. He stated that it is not the taking of prayer out of school that has done us harm, it was the taking of prayer out of the homes that is the problem. He does not agree with the Legislature trying to tell us how to do it.

Mr. Licea made a motion to “NOT adopt/Vote No” for the Resolution Regarding Senate Bill 11 Period of Prayer and Reading of the Bible or Other Religious Text. Mr. Levrets seconded the motion and passed by a vote of 6-0.

Mr. John C. Hardy, school attorney, stated that the record reflects that six trustees were in attendance and six voted to “Not Pass” a Resolution Regarding Senate Bill 11 Period of Prayer and Reading of the Bible or Other Religious Text.

Mrs. Sheri Barberee-Taylor stated that districts are authorized to request a delay in implementation of certification requirements for foundational/core curriculum teacher until the beginning of the 2029-2030 school year by developing a transition plan, identifying education preparation program partners, and reviewing uncertified staffing trends. She provided an overview of the plan, discussed the goals, and addressed questions from the board.

Mr. Bergfeld made a motion to approve the Resolution for Application to Delay the Implementation of Teacher Certification Requirements until the Beginning of the 2029-2030 School Year. The motion was seconded by Mr. Newsome and passed by a vote of 4-1. Mr. Licea voted in opposition and Mr. Levrets abstained from the vote.

Regarding Superintendent’s/Staff Reports, Dr. Lance Groppe provided a Class Size Update. He stated that the continued goal of the district is to maintain a 22:1 class size limit for grades K-4; however, despite best efforts there are 33 classes by a total of 46 students that exceed the 22:1 class size as of January 28, 2026. He reminded the board that classroom aides are added to assist in the classes that exceed the 22:1 except for those in the magnet programs at Caldwell. He then addressed questions from the board.

Regarding future business, Mrs. Harrison reminded the board about the upcoming meeting in March and Spring Break.

The meeting adjourned at 8:32 p.m. following a motion by Mr. Licea, seconded by Newsome and a vote of 6-0.

Subject: Resolution Regarding Wage Payments during Emergency School Closing Due to Inclement Weather

BACKGROUND INFORMATION

Due to inclement weather and in the interest of the safety of students and staff, Tyler Independent School District schools were closed on January 26, 27, and 28, 2026, and most employees were instructed not to report to work.

ADMINISTRATIVE CONSIDERATION

Per House Bill 2610, bad weather days are not reflected for students because the required number of instructional minutes has been met. However, staff are contracted with the district for a set number of days each school year. The current calendar has two staff days allotted for bad weather make-up days. With the district being closed for three days, the district requests the board consider approving the resolution to continue wage payments to idled employees effective for the closure on January 28, 2026.

ADMINISTRATIVE RECOMMENDATION

In accordance with House Bill 2, all core content area teachers are required to hold a standard certification to provide instruction in those subject areas. To ensure compliance with this requirement and to support current uncertified teachers in obtaining standard certification, the district wishes to enter a partnership with 240 Certification.

240 Certification program is an approved educator preparation program by the State Board of Educators in Texas. 240 trains student observers, teacher interns and clinical/student teacher candidates to fulfill their educational program objectives to complete the educator preparation program requirements for the Texas Education Agency (TEA) certification process, and prepares candidates in elementary, middle, secondary and all level content areas in authentic and/or virtual school campus settings approved by TEA, International Association for Learner Driven Schools and Texas Private School Accreditation Commission.

ADMINISTRATIVE CONSIDERATION

This memorandum of understanding allows for districtwide participation in the 240 Certification Program, which supports uncertified teachers and other district-identified candidates in obtaining Texas educator certification at no cost to the district. Additionally, the 240 Certification Program will support the district's "Grow Your Own" initiative by developing and certifying future educators and leaders from within the district.

The partnership is a three-year term, extending through the end of the 2028–2029 academic year.

ADMINISTRATIVE RECOMMENDATION

The administration recommends the board approve the District Partnership Memorandum of Understanding with 240 Certification for the next three academic school years.

Subject: Consider approval of iReady and mClass as the Foundational Early Literacy and Numeracy Instruments for the 2026-2027 School Year

BACKGROUND INFORMATION

The 89th Texas Legislature passed House Bill 2, requiring districts to administer foundational literacy and numeracy assessments to Kindergarten students through 3rd graders beginning in 2026-27. Texas Education Code §28.0063 requires the commissioner to adopt a list of approved instruments, but this list will not be available until the 2027-28 school year.

For the 2026–27 school year, districts may administer board-approved foundational literacy and numeracy instruments that meet statutory requirements outlined in TEC §28.0063(b).

ADMINISTRATIVE CONSIDERATION

Consistent with the past three years, i-Ready and mClass will be used to meet foundational literacy and numeracy requirements as well as dyslexia screening requirements under House Bill 2.

ADMINISTRATIVE RECOMMENDATION

The administration recommends the board approve the use of i-Ready and mClass as the Foundational Early Literacy and Numeracy Instruments for the 2026-2027 school year.

Subject: Instructional Materials Allotment and TEKS Annual Certification

BACKGROUND INFORMATION

Senate Bill 6 created an instructional materials allotment (IMA) for the purchase of instructional materials, technological equipment, and technology-related services. This new IMA funding replaced both the former textbook allotment funds and the former technology allotment funding.

"Instructional Materials" is defined as content addressing the Texas Essential Knowledge and Skills (TEKS) and includes books, supplemental materials, software, and online services. The term "textbook" has also been replaced with "instructional materials".

ADMINISTRATIVE CONSIDERATION

The IMA funding requires Tyler ISD to annually certify that the district has instructional materials that cover all elements of the TEKS or the required curriculum for each grade level required in the Texas Education Code (TEC), Section 28.002. An annual certification form is required for submission in order to order instructional materials using this funding.

ADMINISTRATIVE RECOMMENDATION

The administration recommends the Board certify that the instructional materials cover elements of the TEKS of the required curriculum and approves the 2026-2027 TEKS certification.

Subject: Library Materials List

BACKGROUND INFORMATION

In compliance with Senate Bill 13, the School Board maintains final authority for approving all library materials acquisitions. The district book review committee has completed its evaluation of proposed library materials for the Spring 2026 acquisition cycle, following established district collection development policies and state requirements.

The Library Materials List supports district collection priorities to:

- Address critical collection age gaps (average 17-21 years in elementary libraries)
- Enrich and support TEKS curriculum
- Foster growth of factual knowledge and literacy appreciation
- Provide age-appropriate materials meeting community standards

ADMINISTRATIVE CONSIDERATION

The Library Materials List is included in the agenda and was posted on the district website for public review on January 17, 2026 for a 30-day public review period which concluded on February 16, 2026. Each approved title may be acquired in multiple formats (paperback, hardcover, ebook, audiobook) under a single board approval. Graphic novel versions of approved titles are excluded and require separate board consideration.

For public access to the district's list of updated materials, access this link: <https://qrcd.org/9jOi>.

ADMINISTRATIVE RECOMMENDATION

The administration recommends the board approve the Library Materials List as presented.
