Dr. Trevor McCabe
Director of Educational Compliance & Accountability

Dear Tonawanda Community,

It is a pleasure and honor to become the new Director of Educational Compliance and Accountability here at Tonawanda City School District. In my time here at TCSD, I have grown to love all aspects that the school district and local community have to offer.

My teaching career began as a middle school physical education teacher, teaching students between the grades of sixth through eighth. After four years, I accepted a physical education position to be closer to home here at TCSD. During this time period, I had completed my Master's Degree from SUNY Brockport and Doctoral Degree from Liberty University. In the summer months, I worked as an elementary administrative director for a summer school program. The summer school program established a collaborative partnership with the University of Buffalo that focused on ELA and Mathematics curricula to provide extra support to students (K-5).

My favorite qualities about Tonawanda begin with the diverse and collaborative stakeholders that we have here in the community. Tonawanda is filled with hard-working, passionate, and dedicated community members who truly want what's best for kids.

As I progress in this new role, feel free to contact me by phone (716-694-7688) or email (tmccabe@tonacsd.org) with any questions. If you see me out in the community or at an extra-curricular school event, feel free to say hello! Thank you and I look forward to continuing the significant, ongoing progress here at Tonawanda City School District.

Sincerely,

Dr. Trevor McCabe
