

MAGiCSCHOOL®

The Leading AI Platform in Education

The most loved, secure, and trusted AI platform for educators and students.

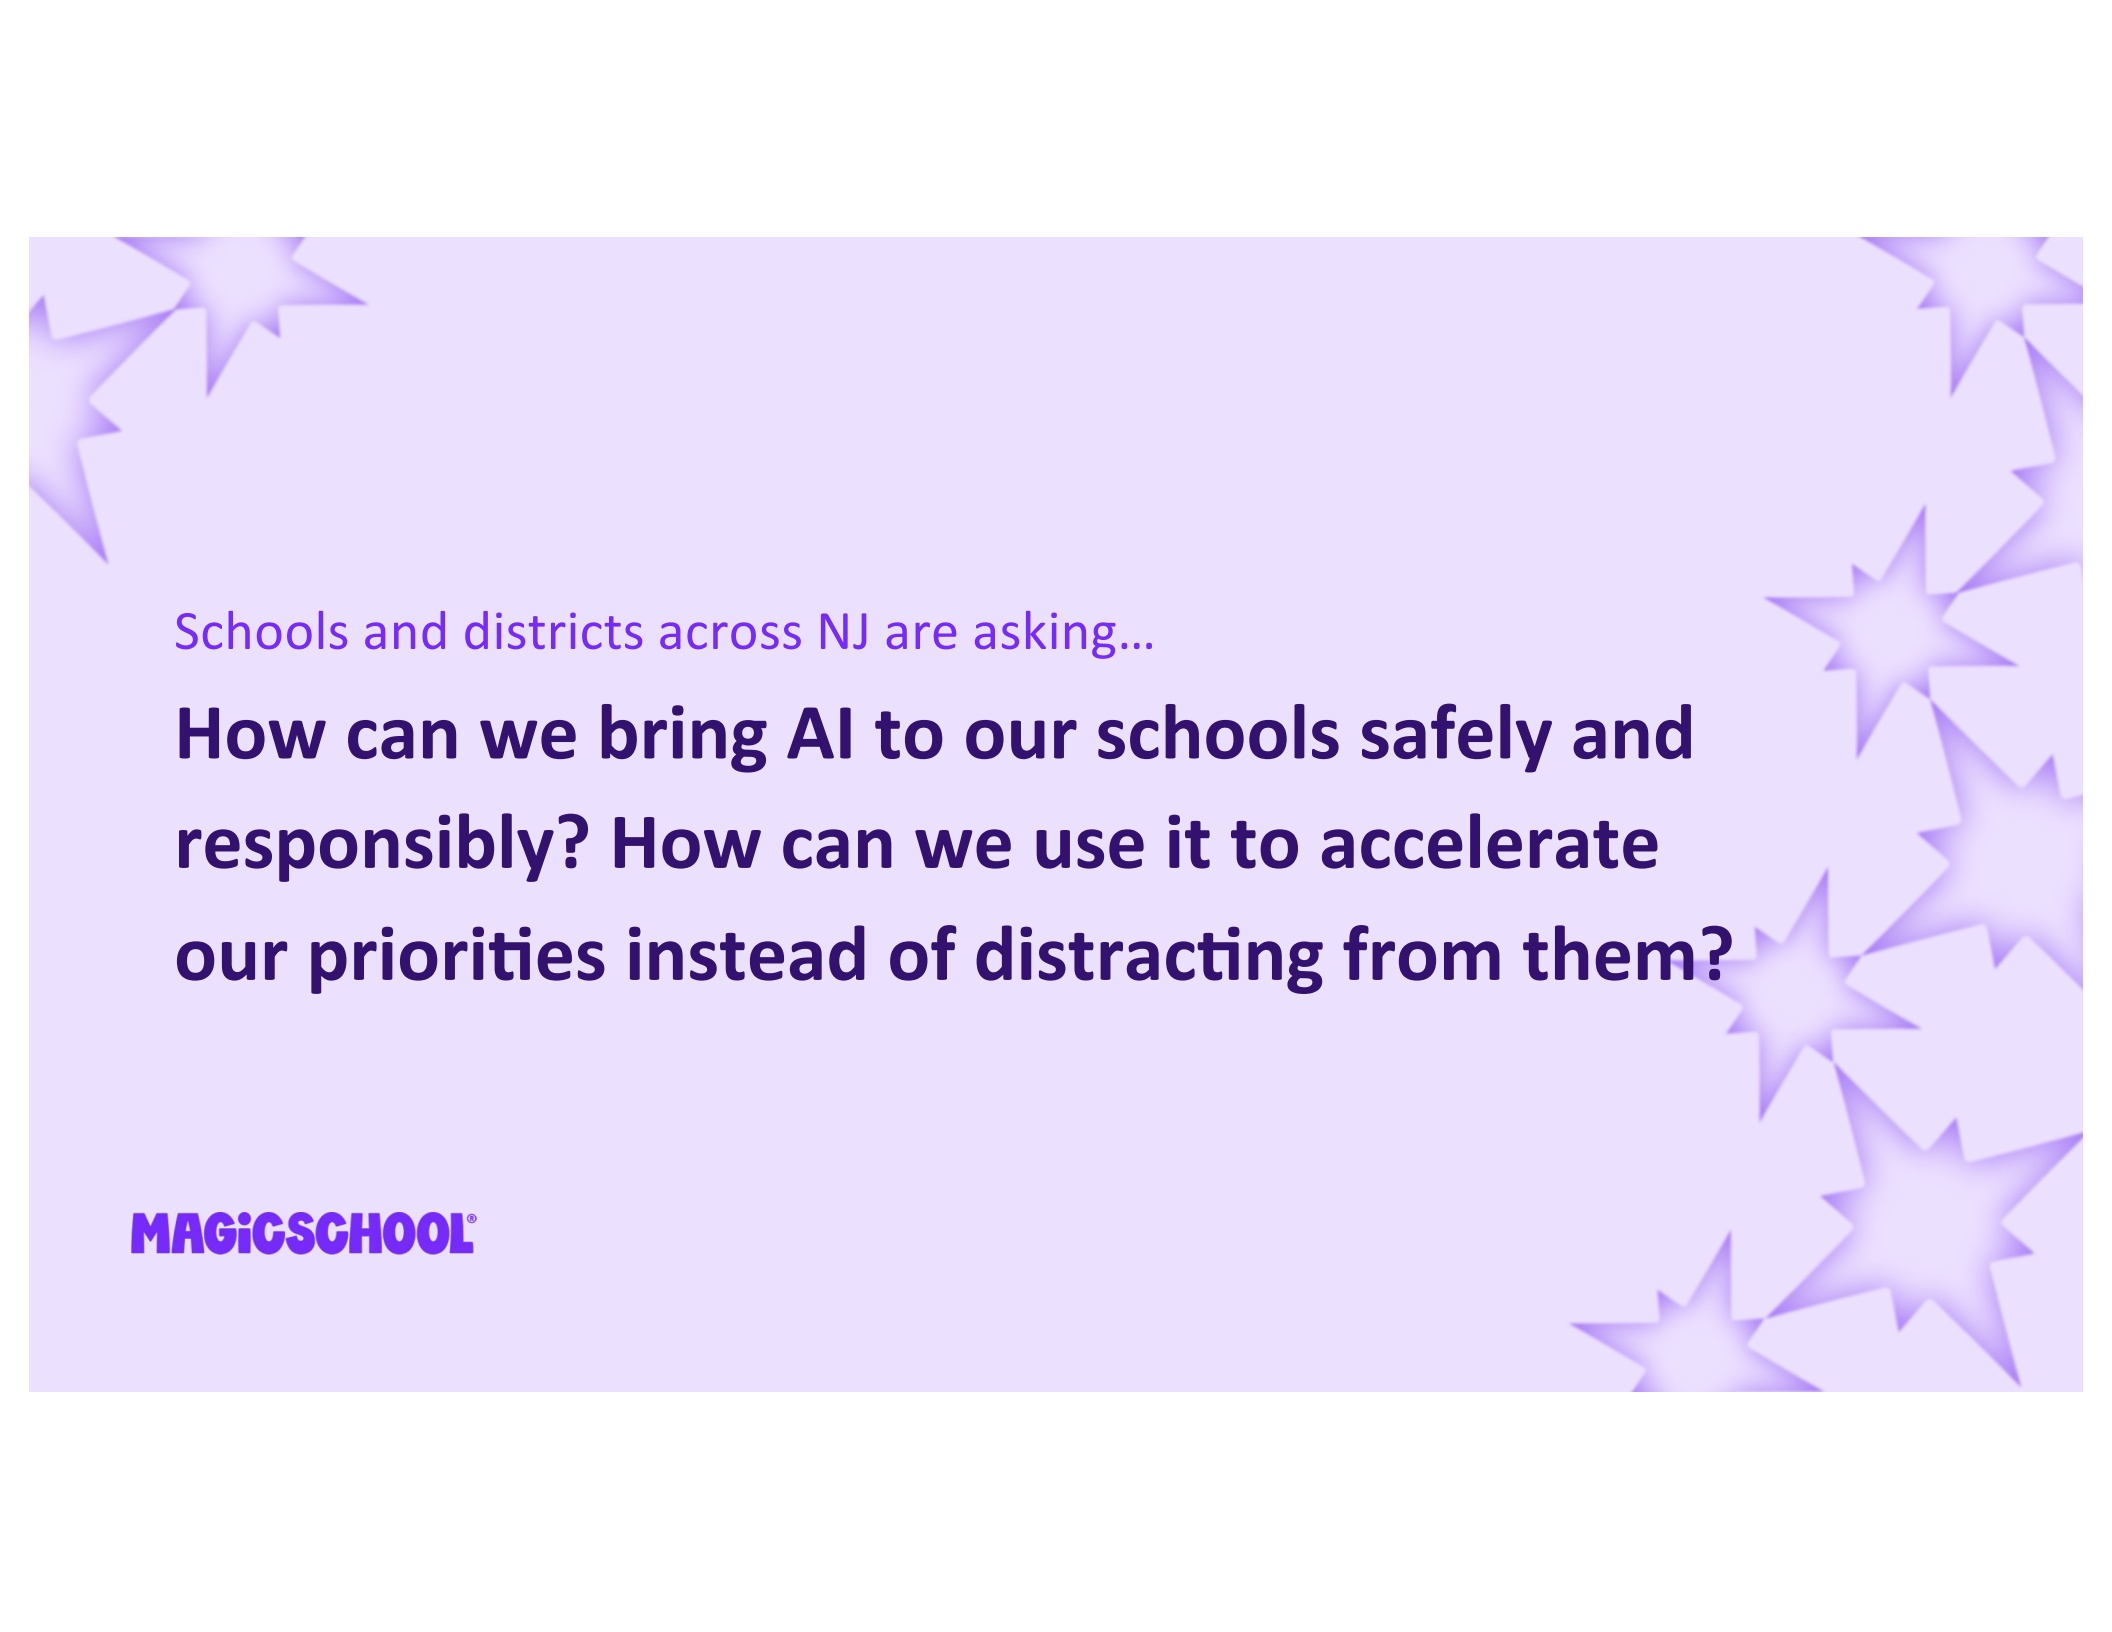

Educators are the magic, not the AI.

Let's use AI thoughtfully to assist and amplify human impact in
service of students.

MAGiCSCHOOL®

Schools and districts across NJ are asking...

How can we bring AI to our schools safely and responsibly? How can we use it to accelerate our priorities instead of distracting from them?

MAGiCSCHOOL®

MagicSchool in Old Bridge

2026-2027 School Year

Student Accounts

Beginning in September 2026, OBHS students will have access to student accounts

Continued Professional Development

AI Tip of the Week

Short, useful tips for staff every Monday so they can continue building and exploring on the platform

Dedicated District Oversight

AI language will be included in all Student Handbooks: Elementary, Middle, and High School

Consistent Monitoring

Continued monitoring of both Staff and Student Accounts to maintain academic integrity

Exploration of Integration at Elementary and Middle Schools

Identify and implement MagicSchool in select Elementary and Middle School Programs to promote responsible AI usage in school and community

Safeguarding Old Bridge Students with MagicSchool

Secure Access

- All users sign in securely through Clever
- Teacher provided join code required to access MagicStudent tools

Training Before Use

- Teacher training
- Student training

District Visibility

- Student rooms remain visible to district administrators

Staff-Only Features

- Anthropomorphized AI characters restricted to use staff only

Safety Monitoring

- Built-in alerts and filtering curated by MagicSchool and administration help protect students

Student safety is built into every level of access

MAGICSCHOOL

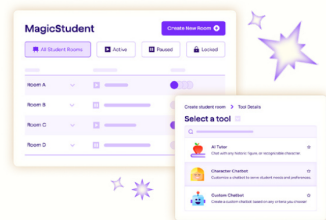

Prepare students for the future with AI, securely and effectively.

What is MagicSchool for Students?

Millions of teachers across thousands of schools choose MagicSchool for AI-powered educator tools. Extend the magic to students with MagicSchool for Students (MagicStudent).

MagicStudent empowers learners to explore AI, receive tailored feedback, and get the support they need, while you maintain full control over data privacy, moderation, and integration with your district's systems.

Why district leaders choose MagicSchool for Students:

Customizable AI tools align with district priorities and curriculum.

Ensures student privacy and data protection and does not collect personally identifiable information (PII).

District and site admins control whether MagicStudent is on or off — no access without explicit activation.

Teachers decide if and when their students use MagicStudent, giving every classroom its own layer of control.

Real-time analytics track student engagement and impact.

Enhanced moderation enables real-time alerts for high-risk content.

Dedicated customer support ensures seamless implementation. To learn more, visit us at: www.magicschool.ai

Student SSO makes it easy for Enterprise customers to track student usage and trends over time.

Loved by millions of educators.
Trusted by schools nationwide.

Transform learning with MagicSchool for Students.

MagicStudent is included with all levels of MagicSchool.

Help every student grow

Give students support when they need it most. They get feedback on their writing, help when they're stuck, and the right level of scaffolding to keep moving forward. This builds skills, strengthens engagement, and meets learners where they are.

Teach students how to use AI the right way

Students learn how to use AI in meaningful ways, from asking better questions to thinking critically about what they see. They develop habits they'll use in school and beyond, with tools designed to be accessible and support all learners.

Give teachers confidence using AI

Teachers have what they need to get started and keep going. The experience is intuitive, with built-in support, clear student insights, and admin controls that keep everything aligned with your district.

Aurora Public Schools CASE STUDY

28% improvement in students meeting grade level expectations for literacy.
