Acceptable Use of Generative
Artificial Intelligence (AI)
OCT 2026

2365 ACCEPTABLE USE OF GENERATIVE
ARTIFICIAL INTELLIGENCE (AI)

The Board recognizes the potential of AI tools to enhance and transform a student’s educational and co-curricular experience in the district. However, AI tools are not inherently knowledgeable and are trained from large amounts of data collected from various sources. Outputs generated by an AI tool may be inaccurate, inappropriate, or incomplete. Therefore, to ensure the responsible use of AI and to maintain academic integrity, students shall be required to comply with the district’s Acceptable Use of Generative Artificial Intelligence Plan (AI Plan) that will include proper citation and/or documentation methods to support the content provided by an AI tool in a student assignment.

For the purpose of this Policy, “AI” means all types of generative AI technologies that create new content or outputs from a prompt to produce text, images, videos, or music.

For the purpose of this Policy, “AI tools” means software applications and platforms that utilize AI technologies to perform specific tasks and solve problems that typically require human intelligence.

For the purpose of this Policy, “assignment” means any task or work required of a student as part of a student’s educational and co-curriculum program in the district.

The Superintendent or designee will designate personnel to oversee the use of all AI tools in the district and may designate additional personnel and/or committees to monitor the use of all AI tools within the district.

For the 2026-2027 school year, student use of generative AI in assignments will be limited to Grades 9-12, through the use of Board-approved AI platforms.

The Superintendent or designee, in consultation with district staff, shall develop the district’s AI Plan.

POLICY GUIDE

The district’s AI Plan will include details addressing the following issues:

1. An explanation on when, how, and to what extent a staff member may permit a student to use AI in assignments;
2. A procedure that requires each staff member authorized to permit students to use AI in assignments to inform the students at the time of the assignment the conditions in which AI may be used;
3. A procedure for the Superintendent or designees in the district to approve and review the use of AI tools and a process to ensure strategies will be implemented in the district to address any issues regarding student use of AI in assignments. This may include, but not be limited to, areas such as academic integrity, bias, inaccuracy/misinformation, copyright / licensing unknowns, privacy violations, and equity of access;
4. A procedure to inform parents in the beginning of each school year regarding student use of AI for assignments in accordance with this Policy and the district’s AI Plan;
5. A list of prohibited uses of AI that violate this Policy or the district’s Code of Student Conduct, which may include any use of AI which does not align with the conditions set when the assignment was provided to the student; using AI to complete an assignment in a way that falsely represents the assignment as the student’s own; using AI to purposefully create misinformation or to misrepresent others with the intent of harming, bullying, or intimidating an individual(s); using AI with confidential student or staff personal information; and other prohibited behaviors and/or conduct listed in Policy and Regulation 2361 – Acceptable Use of Computer Networks/ Computers and Resources;
6. A list of consequences if a student violates any provision of this Policy or AI Plan consistent with Policy and Regulation 2361 – Acceptable Use of Computer Networks/Computers and Resources and Policy and Regulation 5600 – Student Discipline/Code of Conduct;

Acceptable Use of Generative
Artificial Intelligence (AI)

- 7. A procedure whereby administrative staff members and other staff members review the procedures used in determining the activities where AI may be permitted to be used by students to ensure staff members are implementing AI procedures in accordance with this Policy and the district’s AI Plan;
- 8. The method(s) or format(s) to be used by students on how to cite or document content generated from any AI platform that is used in an assignment.

The district’s AI Plan and this Policy will be reviewed and/or revised as needed.

In the event that a provision(s) of this Policy or the district’s AI Plan becomes inapplicable, inappropriate, undesirable, and/or irrelevant for any reason in the school setting, the Board, in consultation with the Superintendent, may revise or suspend a provision(s) of this Policy or the district’s AI Plan.
