Position Opening

Elementary Intervention Systems Specialist

Lake City Area Schools is seeking a collaborative, student-centered educator to serve as our Elementary Intervention Systems Specialist. This position will play an important role in strengthening our academic intervention systems and ensuring every learner receives the targeted support necessary to experience success.

Working under the guidance and supervision of the Director of Curriculum and Learning, and in close collaboration with the elementary principal, and instructional coaches, this individual will help support a coordinated, data-informed approach to academic intervention.

Key Responsibilities:

- Support the implementation of district instructional priorities, including Standards-Based Learning and our continued journey toward Personalized Competency-Based Education.
- Coordinate and strengthen our Elementary Multi-Tiered System of Supports (MTSS) and academic intervention processes.
- Coordinate and manage W.I.N. time structures and targeted instructional interventions.
- Support the process of student review meetings.
- Analyze student achievement data and coordinate progress monitoring.
- Collaborate with educators to identify learner needs, monitor growth, and adjust interventions to improve outcomes.

We are seeking an educator who demonstrates strong knowledge of elementary instruction, assessment, intervention practices, and data analysis. The successful candidate will be a collaborative problem-solver, an effective communicator, and a passionate advocate for student learning and growth.

Join us in creating a learning environment where every learner is supported, challenged, and empowered to succeed.

Minimum Qualifications

- Bachelor's degree required in Education or a closely related field. Michigan teaching certification preferred.
- Strong knowledge of elementary instruction, assessment, and academic intervention, including Multi-Tiered Systems of Supports (MTSS) and evidence-based instructional practices.
- Excellent communication, collaboration, and leadership skills, with the ability to work effectively with administrators, teachers, instructional coaches, and support staff to strengthen student learning.

Please send a letter of interest and resume to Meghan Utech, Director of Curriculum and Learning - ***mutech@lakecitytrojans.org***

Deadline November 27, 2026
