Piano lessons at Music Makers Studio in Lake City!
Class is 30 minutes long, once a week.
Tuition is \$85/month
Text or Call with questions or to get on the schedule!
231-360-6288
We'd love to have you join our little music community!

Lego Club

Calling all LEGO enthusiasts! Please join us for the next LEGO Club event at the Ardis Missaukee Library, Monday, September 14, at 3:30pm.

A Note from the Principal

Lake City Elementary Families,

We had a great week at Lake City Elementary. Our students have been busy learning, exploring, and making connections both inside and outside the classroom! We are excited to share a few updates about what has been happening and what's coming up.

Thank you for your continued support and encouragement as our students have worked through fall NWEA and Dibels testing. We know that testing can take extra focus and effort, and we are proud of the perseverance our students have shown. As we finish up our fall assessments, teachers will use this information to better understand each student's strengths and areas where they may need additional support. We are excited to share these results with you at upcoming parent-teacher conferences.

We are excited to welcome the FARM Science Lab in the coming weeks! This will be a wonderful opportunity for students to experience hands-on learning and make connections between what they learn in the classroom and the world around them. Students will have the chance to explore, ask questions, and engage in activities that bring learning to life. We are looking forward to seeing their curiosity and excitement as they learn through this experience!

We also have some exciting field trips on the calendar! Field trips provide students with opportunities to learn in new environments, build connections to classroom lessons, and create lasting memories with their classmates. We will be sharing information about upcoming trips, including dates, permission slips, and any special items students may need to bring. Keep an eye out for these communications in your student's red folder and please return permission forms by the requested deadlines.

Thank you for being such an important part of our school community. We appreciate all that you do at home to encourage your children, support their learning, and celebrate their accomplishments.

Trojan Pride,

Principal Hamilton

Proud to be a Trojan

Music Note

We have been having a blast in music class! We have been singing, dancing, playing instruments, and learning about steady beat, rhythm, and melody. Fourth and fifth graders have begun learning how to play the recorder. It is so much fun seeing their enthusiasm for learning a new instrument. First, second, and third grade are reviewing some concepts they learned last year, and a few new songs. Kindergarten students got to play their first instrument this week, and are learning about steady beat and the four voices (singing, speaking, shouting, whisper). It has been a great time making music this week! Please be on the lookout for upcoming concerts!

In Song,

Mrs. Jessica Wall

Preschool-5th Grade Music Educator

Celebrating Deaf Awareness Month

September is Deaf Awareness Month—a time to celebrate Deaf and hard-of-hearing individuals, recognize the richness of Deaf culture, and build greater understanding and inclusion in our school community.

Deaf Awareness Month reminds us that communication can take many forms. American Sign Language (ASL), spoken language, lip reading, written communication, and technology can all help people connect and participate. Small actions like facing someone when speaking, being patient during conversations, using captions, or learning a few signs can make a meaningful difference.

This month, let's celebrate the diverse ways people communicate and work together to create a school community where everyone feels seen, heard, valued, and included!
