The emergency plan was officially adopted by the Board of Education of Perry County School District No. 32 in a board session on October 14, 2026.The plan will put a school bus within five miles of most of our patrons. We must rely on parents to get their children to school or to and from the emergency bus routes. If the bus connection is some distance from a child's home, we must rely on parents to plan with neighbors and friends for a place where the child can wait for the bus in the morning and get off in the afternoon.

Even this plan cannot work immediately after a major storm. (snow, flooding, etc.) If the emergency bus routes are to be used, this would be announced over our normal news release channels, which are KFVS TV Channel 12 (Cape Girardeau), KSGM Radio 980 FM (Perryville/Ste. Genevieve), KREI Radio AM 800 (Farmington), KTJJ Radio FM 98.5, KZIM Radio FM 100.7 (Cape Girardeau); The Republic-Monitor (www.perryvillenews.com); automated telephone service, and the District 32 mobile app; and social media platforms.

The District Transportation office will gather information as indicated (as early as possible) and report the conditions of the road to the Superintendent and Assistant Superintendent. The District Administration will then make a decision. This decision will be made as early as possible. Notification of no school will be made through the above system(s) to students and parents.
