1.00: School Operations During A Pandemic Or Other Health Emergency

(MSH NEW: July 2020)

A pandemic is a global outbreak of disease. Pandemics happen when a new virus emerges to infect individuals and, because there is little to no pre-existing immunity against the new virus, it spreads sustainably. Your child's school and district play an essential role, along with the local health department and emergency management agencies, in protecting the public's health and safety during a pandemic or other health emergency.

During a pandemic or other health emergency, you will be notified in a timely manner of all changes to the school environment and schedule that impact your child. Please be assured that even if school is not physically in session, it is the goal of the school and district to provide your child with the best educational opportunities possible.

Additionally, please note the following:

1. All decisions regarding changes to the school environment and schedule, including a possible interruption of in-person learning, will be made by the superintendent in consultation with and, if necessary, at the direction of the Governor, Illinois Department of Public Health, local health department, emergency management agencies, and/or Regional Office of Education.
2. Available learning opportunities may include remote and/or blended learning. Blended learning may require your child to attend school on a modified schedule.
3. Students will be expected to participate in blended and remote instruction as required by the school and district. Parents are responsible for assuring the participation of their child. Students who do not participate in blended or remote learning will be considered truant.
4. All school disciplinary rules remain in effect during the interruption of in-person learning. Students are subject to discipline for disrupting the remote learning environment to the same extent that discipline would be imposed for disruption of the traditional classroom.
5. Students and parents will be required to observe all public health and safety measures implemented by the school and district in conjunction with state and local requirements.
6. During a pandemic or other health emergency, the school and district will ensure that educational opportunities are available to all students.
7. School personnel will work closely with students with disabilities and other vulnerable student populations to minimize the impact of any educational disruption.
8. Students who have a compromised immune system, live with an individual with a compromised immune system, or have a medical condition that may impact their ability to attend school during a pandemic or other public health emergency should contact school officials.
9. During a pandemic or other health emergency, teachers and school staff will receive additional training on health and safety measures.
10. In accordance with school district or state mandates, the school may need to conduct a daily health assessment of your child. Parents and students will be notified of the exact assessment procedures if this becomes necessary.
11. Parents should not send their child to school if their child exhibits any symptoms consistent with the pandemic or other health emergency.
12. Please do not hesitate to contact school or district officials if you have any concerns regarding your child's education, health or safety.

1.60: Animals On School Property

(MSH Updated: February 2010)

In order to assure student health and safety, animals are not allowed on school property, except in the case of a service animal accompanying a student or other individual with a documented disability. The building principals in the case of an educational opportunity may temporarily waive this rule for students, provided that (a) the animal is appropriately housed, humanely cared for, and properly handled, and (b) students will not be exposed to a dangerous animal or an unhealthy environment.

Facility Therapy Dogs

(Updated June 2026)

Serena utilizes facility therapy dogs that were gifted to them from United Way of Eastern LaSalle County. These facility therapy dogs have gone through training and are certified to work in stressful environments, ignore distractions, and provide canine therapy and support to children and adults with diverse backgrounds and circumstances. Facility therapy dogs will visit classrooms for educational, social, and mental health purposes.

Research has shown simply petting an animal releases a relaxation response. Therapy animals' lower anxiety and help people relax, provide comfort, reduce loneliness, and increase mental stimulation. As allergies, asthma, immune challenges, and/or other health needs may make animal contact inappropriate for some students, District guidelines require prior student permission for contact with animal(s) in school.

The Building Principal or designee will ensure that the District's Guidelines for Using Animals in School Facilities are followed. You may find these Guidelines on our District Website under our District Resources and clicking on the tab of the policy manual. The Building Principal or designee will also supervise the entire student-animal contact session, have a clean and disinfected area of showing the animal, not allow food or drink in the animal showing area, and appropriately dispose of animal waste.

1.70: School Volunteers

(MSH Updated: November 2009; Updated June 2026)*

The school principal must approve all school volunteers prior to assisting at the school. Some teachers utilize parent volunteers in the classroom. The individual teachers make this decision. Teachers who desire parent volunteers will notify parents. For school-wide volunteer opportunities, please contact the building principal.

Long-term volunteers, such as volunteer coaching assistants or any visitor that regularly enters classrooms to assist in instruction, must receive a background check and approval from the School Board.*

Volunteers are required to check in and out at the main office and receive a visitor badge before going to their destination.

1.100: Video & Audio Monitoring Systems

(MSH Updated: February 2009)

A video and/or audio monitoring system may be in use on school buses and a video monitoring system may be in use in public areas of the school building. These systems have been put in place to protect students, staff, visitors and school property. If a discipline problem is captured on audiotape or videotape, these recordings may be used as the basis for imposing student discipline. If criminal actions are recorded, a copy of the tape may be provided to law enforcement personnel.

1.110: Accommodating Individuals With Disabilities

(MSH Updated: February 2011)

Individuals with disabilities will be provided an opportunity to participate in all school-sponsored services, programs, or activities. Individuals with disabilities should notify the superintendent or building principal if they have a disability that will require special assistance or services and, if so, what services are required. This notification should occur as far in advance as possible of the school-sponsored function, program, or meeting.

Cross Reference: PRESS 8:70, Accommodating Individuals with Disabilities

1.120: Students With Food Allergies

(MSH Updated: November 2009)

State law requires our school district to annually inform parents of students with life-threatening allergies or life-threatening chronic illnesses of the applicable provisions of Section 504 of the Rehabilitation Act of 1973 and other applicable federal statutes, state statutes, federal regulations and state rules.

If your student has a life-threatening allergy or life-threatening chronic illness, please notify the building principal.

Federal law protects students from discrimination due to a disability that substantially limits a major life activity. If your student has a qualifying disability, an individualized Section 504 Plan will be developed and implemented to provide the needed support so that your student can access his or her education as effectively as students without disabilities.

Not all students with life-threatening allergies and life-threatening chronic illnesses may be eligible under Section 504. Our school district also may be able to appropriately meet a student's needs through other means.

1.135 Seizure Smart Care Act

Effective July 1, 2020, the Seizure Smart School Act requires the development of a Seizure Action Plan and is documented within a 504 plan for students with epilepsy on how to best care for students with the disorder.

Parents **MUST** submit a seizure action plan from the child's medical doctor to the student's school): (a) at the beginning of the school year, (b) upon enrollment, (c) as soon practicable following the student's diagnosis, or (d) when a student's care needs change during the school year.

A student's parent or guardian is responsible for informing the school, in a timely manner, of any changes to the student's seizure action plan and emergency contact information. It is the responsibility of the student's parent or guardian to share the health care provider's instructions on the student's epilepsy management during the school day, including a copy of any prescriptions and the methods of administering those prescriptions.

1.140: Suicide & Depression Awareness & Prevention

(MSH Revised: June 2026)

Youth suicide impacts the safety of the school environment. It also affects the school community, diminishing the ability of surviving students to learn and the school's ability to educate. Suicide and depression awareness and prevention are important goals of the school district.

The school district maintains student and parent resources on suicide and depression awareness and prevention. Much of this information, including a copy of the school district's policy, is posted on the school district website. Information can also be obtained from the school office.

If you need assistance, help is also available from the following organizations:

School Insurance

As Community Unit District No. 2 is an eligible member of the Workers' Compensation Self-Insurance Trust, *school-time* student accident coverage will be provided at no charge to all enrolled students. Optional 24-hour coverage and extended dental are available for a fee. If a student is covered by a pre-existing policy, the policy offered through the Workmen's Self-Insurance Trust would act as the secondary policy. Claim forms are available in the school office and must be filed within 90 days of the injury. Additional copies of the coverage are available in the district office.

1.160: Parent Organizations & Booster Clubs

(MSH NEW: June 2021)

Parent organizations and booster clubs are invaluable resources to the District's schools. While parent organizations and booster clubs have no administrative authority and cannot determine District policy, the School Board welcomes their suggestions and assistance.

Parent organizations and booster clubs may be recognized by the Board and permitted to use the District's name, a District school's name, or a District school's team name, or any logo attributable to the District provided they first receive the Superintendent or designee's express written consent. Consent to use one of the above-mentioned names or logos will generally be granted if the organization or club has by-laws containing the following:

1. The organization's or club's name and purpose, such as, to enhance students' educational experiences, to help meet educational needs of students, to provide extra athletic benefits to students, to assist specific sports teams or academic clubs through financial support, or to enrich extracurricular activities.
2. The rules and procedures under which it operates.
3. An agreement to adhere to all Board policies and administrative procedures.
4. A statement that membership is open and unrestricted, meaning that membership is open to all parents/guardians of students enrolled in the school, District staff, and community members.
5. A statement that the District is not, and will not be, responsible for the organization's or club's business or the conduct of its members, including on any organization or club websites or social media accounts.
6. An agreement to maintain and protect its own finances.
7. A recognition that money given to a school cannot be earmarked for any particular expense. Booster clubs may make recommendations, but cash or other valuable consideration must be given to the District to use at its discretion. The Board's legal obligation to comply with Title IX by providing equal athletic opportunity for members of both genders will supersede an organization or club's recommendation.

Permission to use one of the above-mentioned names or logos may be rescinded at any time and does not constitute permission to act as the District's representative. At no time does the District accept responsibility for the actions of any parent organization or booster club regardless of whether it was recognized and/or permitted to use any of the above-mentioned names or logos. The Superintendent shall designate an administrative staff member to serve as the recognized liaison to parent organizations or booster clubs. The liaison will serve as a resource person and provide information about school programs, resources, policies, problems, concerns, and emerging issues. Building staff will be encouraged to participate in the organizations.

The school does not prohibit hairstyles historically associated with race, ethnicity, or hair texture, including, but not limited to, protective hairstyles such as braids, locks, and twists. The school will not prohibit students from wearing or accessorizing the student's graduation attire with items associated with the student's cultural, ethnic, or religious identity or any other protected characteristic or category identified in the Illinois Human Rights Act. Students who disrupt the educational process or compromise standards of health and safety must modify their appearance.

(MSH NEW: July 2023)

The Illinois State Board of Education (ISBE) maintains a resource guide on sexual abuse response and prevention. The guide contains information on and the location of children's advocacy centers, organizations that provide medical evaluations and treatment to victims of child sexual abuse, organizations that provide mental health evaluations and services to victims and families of victims of child sexual abuse, and organizations that offer legal assistance to and provide advocacy on behalf of victims of child sexual abuse. This guide can be accessed through the ISBE website at www.isbe.net or you may request a copy of this guide by contacting the school's office.

CHAPTER 2
ATTENDANCE, PROMOTION & GRADUATION

2.10: Attendance

(MSH Updated: December 2018)

Illinois law requires that whoever has custody or control of any child between six (by September 1st) and seventeen years of age shall assure that the child attends school in the district in which he or she resides, during the entire time school is in session (unless the child has already graduated from high school). Illinois law also requires that whoever has custody or control of a child who is enrolled in the school, regardless of the child's age, shall assure that the child attends school during the entire time school is in session.

For the purpose of marking the attendance of all students of the district, the following guidelines shall be used:

a) Except for shortened school days, all students shall be required to be in attendance for at least five (5) clock hours to receive credit for a full day of attendance. On shortened school days, no more than one and one-half (1½) hours may be missed by a student for the student to receive credit for a full day of attendance.

b) Except for shortened school days, all students shall be required to be in attendance for at least two and one-half (2½) hours to receive credit for one-half day of attendance. On shortened school days, no more than four (4) hours of school may be missed by a student for the student to receive credit for one-half (½) day of attendance.

Tardiness To School

(Updated June 2026)

It is vitally important that students report to school and classes in a timely manner.

- 1st Hour begins promptly at 8:05. Any student who arrives after 8:05am is considered tardy.
- Any student who arrives after 8:20am for his/her first class is considered tardy and will be marked absent from the 1st hour. Students who are tardy without a valid excuse from a parent are considered Unexcused Tardy.
- More than 5 tardies to school may result in disciplinary action. The possible consequences are, but not limited to:
    - After School Detention, or In School Suspension
- Tardiness, a form of absenteeism, is disruptive in that it distracts students and teachers alike. It should be noted that tardiness may lead to lower or failing grades due to the loss of classroom and instructional time.

2.20: Student Absences

*(MSH Revised: May 2025; *Updated June 2026)*

Subject to specific requirements in State law, the following children are not required to attend public school: (1) any child attending a private school (including a home school) or parochial school, (2) any child who is physically or mentally unable to attend school (including a pregnant student suffering medical complications as certified by her physician), (3) any child lawfully and necessarily employed, (4) any child over 12 and under 14 years of age while in confirmation classes, (5) any child absent because of religious reasons, including to observe a religious holiday, for religious instruction, or because his or her religion forbids secular activity on a particular day(s) or time of day, and (6) any child 16 years of age or older who is employed and is enrolled in a graduation incentives program.

For students who are required to attend school there are two types of absences: excused and unexcused.

Excused Absence
Parent must call the school to notify of the absence and reason for each absence

- Illness
    - After 3 days of illness, school may require parent to provide a doctor's note excusing the student from school due to the illness
- Students may take up to 5 days for mental or behavioral health

        - After the second call in for mental or behavioral health (and any following call ins for mental or behavioral health), the student will be referred to student services to determine further needs
    - Attendance at a verified medical or therapeutic appointment (including a victim services provider)
    - Observance of a religious holiday or event
    - Death in the immediate family
    - Family emergency
    - Situations beyond the control of the student as determined by the school board
    - Circumstances that cause reasonable concern to the parent/guardian for the student's mental, emotional, or physical health or safety
    - Other reasons as approved by the building principal.
    - Students eligible to vote are also excused for up to two hours to vote in a primary, special, or general election.
    - For students who are parents, expectant parents, or victims of domestic or sexual violence, an excused absence includes the fulfillment of a parenting responsibility and addressing circumstances resulting from domestic or sexual violence.
    - Additionally, a student will be excused for up to 5 days in cases where the student's parent/guardian is an active-duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings. The Board of Education, in its discretion, may excuse a student for additional days relative to such leave or deployment. A student and the student's parent/guardian are responsible for obtaining assignments from the student's teachers prior to any excused absences and for ensuring that such assignments are completed by the student prior to his or her return to school.

Pre-arranged Extended Absences

Family vacations may be excused (up to 5 total days) by the building principal as long as the following criteria is met:

- The student is not placed on chronic truant status
- A parent has filed a "Prearranged Vacation Form" with the school office.

Unexcused Absences

- Absences not reported to the school office
- Absences beyond the number of allowed days without a doctor's note
- Absence due to missing the bus or "sleeping in."
- Extended Absences without valid documentation (a Pre-Arranged Vacation Form needs to be filled out and approved)
- Any other absence not listed under "Excused" and not approved as excused by the school

Students are responsible for obtaining any work missed during an absence. There is no guarantee a student will receive work ahead of time. Students should check in with teachers upon return to obtain any missing work they have not already received. Students who are excused from school will be given an extra day for every day missed to make up for missed homework and classwork assignments that occurred during the student's absence.

The school may require documentation explaining the reason for the student's absence. After three consecutive days of absences a physician's note will be required to excuse the absences. After students reach 9 days of absences in a semester (excused and unexcused combined), that student may receive a Truancy Letter and be requested to provide the office with a physician's note each time to excuse the absence. **Absences beyond 9 days may result in, but are not limited to, the following consequences: Truancy Referral to County ROE, Home Visit, Lunch Detention, After School Detention, In School Suspension, Referral to Alternative Placement.**

In the event of any absence, the student's parent or guardian is required to call the school before 8:00 a.m. to explain the reason for the absence. If a call has not been made to the school by 9:00 a.m. on the day of a student's absence, a school official will call the home to inquire why the student is not at school. If the parent or guardian cannot be contacted, the student will be required to submit a signed note from the parent or guardian explaining the reason for the absence. Failure to do so shall result in an unexcused absence, which may lead to disciplinary action.

Diagnostic Procedures For Identifying Student Absences & Support Services To Truant Or Chronically Truant Students

State law requires every school district to collect and review its chronic absence data and determine what systems of support and resources are needed to engage chronically absent students and their families to encourage the habit of daily attendance and promote success. This review must include an analysis of chronic absence data from each attendance center.

Furthermore, State law provides that school districts are encouraged to provide a system of support to students who are at risk of reaching or exceeding chronic absence levels with strategies and are also encouraged to make resources available to families

such as those available through the State Board of Education's Family Engagement Framework to support and engage students and their families to encourage heightened school engagement and improved daily school attendance.

Chronic Absenteeism

*(*Updated June 2026)*

"Chronic absence" means absences that total 10% or more of school days of the most recent academic school year, including absences with and without valid cause, and out-of-school suspensions. Students who are in attendance more are proven to do better academically. Check ins from school personnel will be made to parents regarding an accrual of absences and a process of incentives, contracts, parental meetings, and when necessary a referral to a truancy officer will be made to encourage regular attendance.

The School and District use the following diagnostic procedures for identifying the causes of unexcused student absences: Interviews with the student, his or her parent/guardian and any school officials who may have information about the reasons for the student's attendance problems.

Supportive services to truant or chronically truant students include: County ROE Truancy Referrals, Parent conferences, Student counseling, and/or Disciplinary Consequences. Truant students may receive a letter about their absences from the school district, as well as information about community services.*

2.21: Student Participation In Outside Activities That Count Toward Calculation Of Class Hours

(MSH New: June 2026)

Pupil attendance in any of the following activities shall be counted toward the calculation of clock hours of school work per day:

1. Instruction in a college course where the student is dually enrolled for both high school and college credit.
2. Participation in a Supervised Career Development Experience in which student participation and learning outcomes are approved by a licensed educator assessment of competencies. Participation may include, but is not limited to, scheduled events of local, State, and national youth organizations, career and technical education organizations, FFA associations, and 4-H programs as part of organized competitions, exhibitions, or conferences.
3. Participation in any work-based learning experience, including supervised agricultural experiences, in which student participation and learning outcomes are approved by an educator who holds an Educator License with Stipulations with a career and technical educator endorsement and a work-based learning designation.
4. Participation in a youth apprenticeship in which student participation and learning outcomes are approved by a licensed educator for assessment of competencies.
5. Participation in a blended learning program approved by the district in which course content, student evaluation, and instructional methods are supervised by a licensed educator.

Students shall not be penalized for work missed for participating in any of the above activities and will be permitted to make up all missed work, including homework and tests, for equivalent academic credit. A student and the student's parent or legal guardian are responsible for obtaining coursework that is missed while the student participates in any of the above activities.

Students who desire to participate in any of the above activities should contact the building principal for approval.

2.30: Release Time For Religious Instruction & Observance

(MSH Updated: August 2017)

A student will be released from school, as an excused absence, to observe a religious holiday or for religious instruction. The student's parent/guardian must give written notice to the building principal at least 5 calendar days before the student's anticipated absence(s). Students excused for religious reasons will be given an opportunity to make up any examination, study, or work requirement.

2.40: Make-Up Work

(MSH Revised: June 2026; Updated June 2026)

If a student's absence is excused or if a student is suspended from school, he/she will be permitted to make up all missed work, including homework and tests, for equivalent academic credit. Students are responsible for obtaining any work missed during an absence, as well as scheduling time to complete tests, quizzes, experiments, presentations, etc…. There is no guarantee a student will receive work ahead of time. Students should check in with teachers upon return to obtain any missing work they have not already received. Students who are **excused** from school will be given an extra day for every day missed to make up for missed homework and classwork assignments that occurred during the student's absence. Students who participate in activities outlined in handbook procedure 2.21 will be permitted to make up all missed work, including homework and tests, for equivalent academic credit. Students who are unexcused from school will not be allowed to make up missed work.

In lieu of a teacher's expressed policy, the policy for make-up work is as follows. Make-up work is to be completed within one school day for each day of excused absence. For example, a student with three consecutive days of excused absence is allowed up to three consecutive school days to hand in make-up work. Make-up work is to be completed as homework. Work for an unexcused absence cannot be made up.

PRESS 7:70, Attendance and Truancy

2.50: Truancy

*(MSH Updated: December 2018; *Updated June 2026)*

Student attendance is critical to the learning process. Truancy is therefore a serious issue and will be dealt with in a serious manner by the school and district.

Students who miss more than 1% but less than 5% of the prior 180 regular days without valid cause (a recognized excuse) are truant. Students who miss 5% or more of the prior 180 regular school days without a valid cause are considered chronic truants. Students who are chronic truants will be offered support services and resources aimed at correcting the truancy issue.

a) A Warning Notice of Truancy will be mailed or personally delivered to home after 5 Unexcused Absences, and a Notice of Truancy, as well as possible referral to a truancy officer, will be sent after 9 Unexcused Absences*

After the first notice of Truancy, the following support services will be offered: County ROE Truancy Referrals, Parent conferences, Student counseling, and/or Disciplinary Consequences

If chronic truancy persists after support services and other resources are made available, the school and district will take further action, including

a) Referral to the truancy officer
b) Reporting to officials under the Juvenile Court Act
c) Referral to the State's Attorney
d) Appropriate school discipline

It is within the sole discretion of the high school administration to determine the legitimacy of a student's absence and to determine whether it is excused or unexcused. If a student is absent from school without valid cause, then such truancy will result in disciplinary action. This disciplinary action may include, but not limited to a written warning, meeting with their counselor or other support services, Detentions, or ISS.

A student who misses 15 consecutive days of school without valid cause and who cannot be located or, after exhausting all available support services, cannot be compelled to return to school is subject to being dropped from school rosters.

A parent or guardian who knowingly and willfully permits a child to be truant is in violation of State law.

Enrollment & Withdrawal Of Students

The central office of the Superintendent conducts enrollment. If there is any question about which school a student should attend, information may be obtained from the principal's office in any of the district's schools. A student must live with his parents or legal guardian in the school's attendance area in order to attend school in Community Unit School District No. 2. Tuition students are permitted under very special circumstances but only after approval of the Superintendent of Schools.

If the student moves during the year, his parents should contact the school office as soon as it is known when the student will move. This procedure will help get the student's records to his/her new school much quicker.

School Transfer

If a student transfers outside the school district, he/she may complete the remainder of the year in this district's school on a non-tuition basis provided that his parents shall be responsible for his/her transportation to and from school.

2.60: Grading & Promotion

*(Updated: November 2009; *Updated June 2026)*

School report cards are issued to students on a Semester basis. Progress Reports may be sent home halfway through each semester if the student is earning a D or an F in any class.* Report Cards will be available to view online at the end of each Semester. If you would like a copy sent home, please notify the school office. For questions regarding grades, please contact the school office.

The decision to promote a student to the next class level is based on successful completion of the curriculum, attendance, performance on standardized tests and other testing. A student will not be promoted based upon age or any other social reason not related to academic performance.

The graduation ceremony is an extracurricular activity, not a right. Students may lose the opportunity to participate in the graduation as a consequence of violating rules of conduct.

2.70: Homework

(MSH Updated: June 2022)

Homework is used as a way for students to practice what they have learned in the classroom. The time requirements and the frequency of homework will vary depending on a student's teacher, ability and grade level. Homework is to be completed by the assigned due dates by each teacher. Penalties may be applied for late or missing work in accordance with the teacher's

classroom policies. Students who are absent from school for a valid cause (an excused absence) may make up missed homework in a reasonable amount of time. Unexcused absence work cannot be made up.

2.80-HS: Exemption From PE

*(MSH Updated: November 2021; *Updated July 2026)*

In order to be excused from participation in physical education, a student must present an appropriate excuse from his or her parent/guardian or from a person licensed under the Medical Practice Act. The excuse may be based on medical or religious prohibitions. An excuse because of medical reasons must include a signed statement from a person licensed under the Medical Practice Act that corroborates the medical reason for the request. An excuse based on religious reasons must include a signed statement from a member of the clergy that corroborates the religious reason for the request.

State law prohibits the School District from honoring parental excuses based upon a student's participation in athletic training, activities, or competitions conducted outside the auspices of the School District.

All requests for exemption from physical education are subject to administrative review and approval. The administration reserves the right to approve or deny requests based on compliance with Illinois School Code, Board of Education policy, and District procedures. Any request involving unique circumstances will be reviewed on an individual basis and handled in accordance with applicable law and Board policy. *

Special activities in physical education will be provided for a student whose physical or emotional condition, as determined by a person licensed under the Medical Practices Act, prevents his or her participation in the physical education course.

Students who have been excused from physical education shall return to the course as soon as practical. The following considerations will be used to determine when a student shall return to a physical education course:

1) Medical Release from Restriction from a licensed physician
2) The time of year when the student's participation ceases
3) The student's class schedule.
4) The student's future or planned additional participation in activities qualifying for substitutions for physical education.

2.100: Home & Hospital Instruction

(MSH Revised: May 2025)

A student who is absent from school, or whose physician, physician assistant or licensed advance practice registered nurse anticipates his or her absence from school, because of a medical condition may be eligible for instruction in the student's home or hospital.

Appropriate educational services from qualified staff will begin no later than five school days after receiving a written statement from a physician, physician assistant, or licensed advanced practice registered nurse. Instructional or related services for a student receiving special education services will be determined by the student's individualized education program.

A student who is unable to attend school because of pregnancy or pregnancy-related conditions, the fulfillment of parenting obligations related to the health of the child, or health and safety concerns arising from domestic or sexual violence will be provided home instruction under the following circumstances:

1. Before the birth of the child when the student's physician, physician assistant, or advanced practice registered nurse indicates, in writing, that she is medically unable to attend regular classroom instruction.

2. For up to three months after the child's birth or a miscarriage.

3. When a student must care for his or her ill child if:

a. The child's physician, physician assistant, or advanced practice registered nurse informs the school, in writing, that the child has a serious health condition that would require the student to be absent from school for two or more consecutive weeks; and

b. The student or the student's parent/guardian informs the school, in writing, that the student needs to care for the child during this period.

4. The student must treat physical or mental health complications or address safety concerns arising from domestic or sexual violence when a health care provider or an employee of the student's domestic or sexual violence organization informs the school in writing that the care is needed by the student and will cause the student's absence from school for two or more consecutive weeks.
The school may reassess home instruction provided to a student under No. 3 or No. 4 every two months to determine the student's continuing need for home instruction.

Periodic conferences will be held between appropriate school personnel, parent(s)/guardian(s), and hospital staff to coordinate course work and facilitate a student's return to school.

Students whose parent or guardian is unable to afford student fees may receive a fee waiver. A fee waiver applies to all fees related to school, instruction, and extracurricular activities.

Applications for fee waivers may be obtained from the school office and may be submitted by a parent or guardian of a student who has been assessed a fee. As student is eligible for a fee waiver if at least one of the following prerequisites is met:

2. The student's parent is a veteran or active-duty military personnel with income at or below 200% of the federal poverty line;
3. The student is homeless, as defined by the Mc-Kinney-Vento Homeless Assistance Act.

The building principal will give additional consideration where one or more of the following factors are present:

- Unemployment;
- Emergency situations; or
- When one or more of the parents/guardians are involved in a work stoppage.

The building principal will notify the parent/guardian promptly as to whether the fee waiver request has been granted or denied. Questions regarding the fee waiver application process or an appeal of the District's decision to deny a fee waiver should be addressed to the Building Principal.

Pursuant to the Hunger-Free Students' Bill of Rights Act, the school is required to provide a federally reimbursable meal to a student who requests one, regardless of whether the student has the ability to pay for the meal or owes money for earlier meals or snacks. Students may not be provided with an alternative meal and the school is prohibited from publicly identifying or stigmatizing a student who cannot pay for or owes money for a meal or snack.

Students who have accumulated delinquent lunch fees in excess may be restricted from purchasing extra, optional snacks at lunch or breakfast. However, students will still be provided with the hot lunch meal, regardless of account status.

Free & Reduced-Price Food Services Eligibility

The following notification is provided to all households of students at the beginning of each school year as federally required notification regarding eligibility requirements and the application process for the free and reduced-price food services that are listed in Board policy 4:130, Free and Reduced-Price Food Services, and 4:140, Waiver of Student Fees. This notification is also provided to households of students transferring to the District during the school year. For more information, see www.fns.usda.gov/school-meals/unpaid-meal-charges, and/or contact the Building Principal or designee.

When the parents/guardians of students are unable to pay for their child(ren)'s meal services, meal charges will apply per a student's eligibility category and will be processed by the District accordingly.

Meal Charges For Meals Provided By The District

*(*Updated June 2026)*

The Building Principal and District staff will work jointly to prevent meal charges from accumulating. Every effort to collect all funds due to the District will be made on a regular basis and before the end of the school year. Contact your Building Principal or designee about whether your child(ren)'s charges may be carried over at the end of the school year, i.e., beyond June 30th.

Unpaid meal charges are considered delinquent debt when payment is overdue as defined by Board policy 4:45, Insufficient Fund Checks and Debt Recovery and the Hunger-Free Students' Bill of Rights Act (105ILCS 123/, added by P.A. 100-1092). The District will make reasonable efforts to collect charges classified as delinquent debt.

When a student's funds are low or there is a negative balance, reminders will be provided via email to the students and their parents(s)/guardians(s) to attempt collection of the owed money. If a parent/guardian regularly fails to provide money for the child(ren) that he/she is responsible for in the District and does not qualify for free meal benefits, the Building Principal or designee will direct the next course of action. Continual failure to provide meal money may require the District to notify the Ill. Dept. of Children and Family Services (DSFS) and/or take legal steps to recover the unpaid meal charges, up to and including seeking an offset under the State Comptroller Act, if applicable.

Students who have accumulated delinquent lunch fees in excess may be restricted from purchasing extra, optional snacks at lunch or breakfast. However, students will still be provided with the hot lunch meal, regardless of account status.

CHAPTER 4
TRANSPORTATION

4.10: Bus Transportation

*(MSH Updated: February 2016; *Updated June 2026)*

The district provides bus transportation to and from school for all students living 1.5 miles or more from the school. A list of bus stops will be published at the beginning of the school year before student registration. Parents must, at the beginning of the school year, select one bus stop at which a student is to be picked up, and one stop at which a student is to be dropped off. Students are not permitted to ride a bus other than the bus to which they are assigned. Exceptions must be approved in advance by the building principal.

The following transportation rules apply to students riding a bus to and from school, for an extracurricular activity, on a school sponsored field trip and any other time a student is on a school bus.

While students are on the bus, they are under the supervision of the bus driver. In most cases, bus discipline problems can be handled by the bus driver. In the case of a written disciplinary referral, student bus problems will be investigated and handled by the building principal.

Students are expected to follow all school rules while on the bus. Students may be suspended from riding the school bus for up to 10 consecutive school days for violating school rules or for engaging in other gross disobedience or misconduct. The school board may suspend the student from riding the school bus for a period in excess of 10 days for safety reasons. The district's regular suspension procedures shall be used to suspend a student's privilege to ride a school bus. Removal from the bus may be for, but not limited to:

a) Violating any school rule or school district policy.
b) Willful injury or threat of injury to a bus driver or to another rider.
c) Willful and/or repeated defacement of the bus.
d) Repeated use of profanity.
e) Repeated willful disobedience of a directive from a bus driver or other supervisor.
f) Such other behavior as the building principal deems to threaten the safe operation of the bus and/or its occupants.

A student who is suspended from riding the school bus and who does not have alternative transportation to school shall be allowed the opportunity to make up all missed work for equivalent academic credit. It is the responsibility of the student's parent or guardian to notify the school that the student does not have alternative transportation to school.

In the interest of the student's safety and in compliance with State law, students are also expected to observe the following:

1. Dress properly for the weather. Make sure all drawstrings, ties, straps, etc. on all clothing, backpacks and other items, are shortened or removed to lessen the likelihood of them getting caught in bus doors, railings or aisles.
2. Arrive on time at the bus stop, and stay away from the street while waiting for the bus.
3. Stay away from the bus until it stops completely and the driver signals you to board. Enter a single file without pushing. Always use the handrail.
4. Take a seat right away and remain seated facing forward. Keep your hands, arms, and head inside the bus.

CHAPTER 5
HEALTH & SAFETY

5.10: Immunization, Health, Eye & Dental Examination

(MSH Updated: May 2019)

Required Health Examinations & Immunizations
All students are required to present appropriate proof of a health examination and the immunizations against, and screenings for, preventable communicable diseases within one year prior to:

1. Entering kindergarten or the first grade;
2. Entering the sixth and ninth grades; and
3. Enrolling in an Illinois school for the first time, regardless of the student's grade.

Proof of immunization against meningococcal disease is required for students in grades 6 and 12. A diabetes screening must be included as part of the health exam (though diabetes testing is not required). Students between the age of one and seven must provide a statement from a physician assuring that the student was "risk-assessed" or screened for lead poisoning. Beginning with the 2017-2018 school year, an age-appropriate developmental screening and an age-appropriate social and emotional screening are required parts of each health examination.

Failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the school, subject to certain exceptions. A student will not be excluded from school due to his or her parent/guardian's failure to obtain a developmental screening or a social and emotional screening.

New students who register mid-term have 30 days following registration to comply with the health examination and immunization requirements. If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by an appropriate medical professional.

Eye Examination
All students entering kindergarten or the school for the first time must present proof by October 15 of the current school year of an eye examination performed within one year. Failure to present proof by October 15, allows the school to hold the student's report card until the student presents: (1) proof of a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15.

Dental Examination
All students entering kindergarten, second, sixth and ninth grades must present proof by May 15 of the current school year of having been examined by a licensed dentist within the last 18 months. Failure to present proof allows the school to hold the child's report card until the student presents: (1) proof of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15.

Exemptions
A student will be exempted from the above requirements for:

1. Medical grounds if the student's parent/guardian presents to the building principal a signed statement explaining the objection;
2. Religious grounds if the student's parent/guardian presents to the building principal a completed Certificate of Religious Exemption;
3. Health examination or immunization requirements on medical grounds if a physician provides written verification;
4. Eye examination requirement if the student's parent/guardian shows an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist; or
5. Dental examination requirement if the student's parent/guardian shows an undue burden or a lack of access to a dentist.

5.20: Student Medication

(MSH Revised May 2025)

Taking medication during school hours or during school-related activities is prohibited unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is necessary for the student to take medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child by completing a "School Medication Authorization Form."

No school or district employee is allowed to administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed School Medication Authorization Form is submitted by the student's parent/guardian. No student is allowed to possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this procedure.

Self-Administration of Medication
A student may possess and self-administer an epinephrine injector (e.g., EpiPen®) and/or an asthma inhaler or medication prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed a School Medication Authorization Form.

Students who are diabetic may possess and/or self-administer diabetic testing supplies, equipment, and insulin if authorized by the student's diabetes care plan, which must be on file with the school.

Students with epilepsy may possess and/or self-administer supplies, equipment and medication, if authorized by the student's seizure action plan, which must be on file with the school.

Students may self-administer (but not possess on their person) other medications required under a qualified plan, provided the student's parent/guardian has completed and signed a School Medication Authorization Form.

The school district shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including asthma medication or epinephrine injectors, or medication required under a qualifying plan. A student's parent/guardian must indemnify and hold harmless the school district and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector, asthma medication, and/or a medication required under a qualifying plan.

Administration of Medical Cannabis
In accordance with the Compassionate Use of Medical Cannabis Program, qualifying students are allowed to utilize medical cannabis infused products while at school and school events. Please contact the building principal for additional information. Discipline of a student for being administered a product by a designated caregiver pursuant to this procedure is prohibited. The District may not deny a student attendance at a school solely because he or she requires administration of the product during school hours.

Undesignated Medications
The school may maintain the following undesignated prescription medications for emergency use: (1) Asthma medication; (2) Epinephrine injectors; (3) Opioid antagonists; and (4) Glucagon. No one, including without limitation, parents/guardians of students, should rely on the school or district for the availability of undesignated medication. This procedure does not guarantee the availability of undesignated medications. Students and their parents/guardians should consult their own physician regarding these medication(s).

Emergency Aid to Students
Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

Reporting Student Illness, Appointments, and Medical Needs

(Updated June 2026)

Appointments

Medical and dental appointments should be limited to times when school is not in session. If it becomes necessary for a student to be absent for a medical or dental appointment, prearranged notice must be given to the school by a parent.

1. Students must present an excusal note or appointment notification from the doctor's office for the absence to be excused.
2. The parent must also call and leave a message at the school regarding the appointment.
3. Students who drive themselves must have parent permission to do so.
4. For students who need to be picked up for an appointment, the parent needs to come to the main entrance of the high school. Students need to sign themselves out before being dismissed. Returning students need to enter the main entrance of the high school and sign themselves in prior to attending class.

Student Illness or Injury

1. Student Illness or Injury During the School Day:
    a. If a student becomes ill or injured during the school day, they must report to the main office after obtaining permission from their classroom teacher. Failure to follow this procedure may result in the student being marked absent from class.
    b. **If it is determined that a student should leave school due to illness or injury, the school office will contact the student's parent/guardian.** Students may only be released from school with authorization from a parent/guardian and approval from the school office.
    c. **Parents/guardians should not come to the school based solely on communication from their student.** Decisions regarding early dismissal for illness or injury will be made collaboratively between school personnel and the parent/guardian. Please wait for direct communication from the school office before arriving to pick up your student. **Students are expected to report health concerns through the appropriate school procedures rather than contacting parents/guardians directly to arrange dismissal.**

2. Student becomes ill prior to arriving at school
    a. Parents/Guardians need to notify the school office about the absence and reason for absence before 8am. Please refer to section 2.20: Student Absences for more information.
    b. ***When to Keep a Child Home from School****:* A parent/guardian is often faced with the decision of when to keep their son/daughter home because of illness. Below are the general guidelines for appropriate reasons for a student's absence:
        i. Temperature over 100 degrees F within the last 24 hours
        ii. Vomiting/diarrhea within the last 24 hours
        iii. Severe headache, stomachache, earache, sore throat, chills
        iv. Excessive coughing
        v. Rash of unknown origin
        vi. Children should remain at home until they have had no episodes of vomiting/diarrhea and have been fever free (without the use of fever reducing medication) for 24 hours.
    c. Policies on when students can return to school may change during a Pandemic or other health event.

5.60: Head Lice

(MSH Updated: November 2016)

The school will observe the following procedures regarding head lice.

1. Parents are required to notify the school nurse if they suspect their child has head lice.
2. Infested students will be sent home following notification of the parent or guardian.
3. The school will provide written instructions to parent or guardian regarding appropriate treatment for the infestation.

Infested children are prohibited from riding the bus to school to be checked for head lice.

5.70: Targeted School Violence Prevention Program

(MSH New May 2024)

Threats and acts of targeted school violence harm the District's environment and school community, diminishing students' ability to learn and a school's ability to educate. Providing students and staff with access to a safe and secure environment is an important goal of the School and District. While it is not possible to completely eliminate threats, the School and District maintain a Targeted School Violence Prevention Program and a Threat Assessment Team to reduce these risks to its environment.

Parents/guardians and students are encouraged to report any expressed threats or behaviors that may represent a threat to the community, School, or self. Reports can be made to any school administrator, law enforcement authorities, or the Safe2Help Illinois helpline (www.safe2helpil.com/).

Students and parents are urged to participate in behavioral threat assessment and intervention programs if the Behavioral Threat Assessment Team believes that intervention is necessary to prevent a student from harming themselves or others. However, if for some reason there is a reluctance to participate in the process by the threat maker(s) or parent/guardian(s), the threat assessment process will continue in order to ensure a safe and caring learning environment for all.

For further information, please contact the Building Principal.

5.80 Students Who Are Parents, Expectant Parents Or Victims Of Domestic Or Sexual Violence

6.20: School Dress Code & Student Appearance

(MSH Updated: June 2022; Updated June 2026)

Dress Code Philosophy
The Serena Middle School student dress code supports equitable educational access and is written in a manner that does not reinforce stereotypes. To ensure effective and equitable enforcement of this dress code, school staff shall enforce the dress code consistently and in a manner that does not reinforce or increase marginalization or oppression of any group based on race, sex, gender identity, gender expression, sexual orientation, ethnicity, religion, cultural observance, household income or body type/size.

Dress Code
Serena Middle School expects that all students will dress in a way that is appropriate for the school day or for any school sponsored event. Student dress choices should respect the District's intent to sustain a community that is inclusive of a diverse range of identities. The primary responsibility for a student's attire resides with the student and their parent(s) or guardian(s). The school district is responsible for seeing that student attire does not interfere with the health or safety of any student, that student attire does not contribute to a hostile or intimidating atmosphere for any student, and that dress code enforcement does not reinforce or increase marginalization or oppression of any group based on race, sex, gender identity, gender expression, sexual orientation, ethnicity, religion, cultural observance, household income, or body type/size. Any restrictions to the way a student dresses must be necessary to support the overall educational goals of the school and must be explained within this dress code.

Students are expected to wear clothing in a neat, clean, and well fitting manner while on school property and/or in attendance at school sponsored activities. Students are to use discretion in their dress and are not permitted to wear apparel that causes a substantial disruption in the school environment. Students should be reminded that all school photos that are submitted to the yearbook must follow all the dress code rules.

- School attire will be neat, clean, opaque and will cover the individual at least from shoulder through a 2-inch inseam on shorts.
- Appropriate footwear will be worn at all times.
- Pants must fit properly at the waistline.
- Shirts or blouses may not expose excessive cleavage.
- Bare midriffs, strapless tops, halter tops, spaghetti strip tops, low cut tops and other attire deemed inappropriate by administration, faculty and staff are not permitted.
- All undergarments should be covered by an opaque material.
- Wallet chains are not permitted in school.
- Student dress (including accessories) may not advertise, promote, or picture alcoholic beverages, illegal drugs, drug paraphernalia, violent behavior, or other inappropriate images.
- Student dress (including accessories) may not display lewd, vulgar, obscene, or offensive language or symbols, including gang symbols.
- No student on or about school property or at any school activity shall dress or display any clothing, jewelry, emblem, badge, symbol, sign, including look-a-likes or other items that are evidence of membership or affiliation in any gang.
- Coats, sunglasses, gloves and head wear including but not limited to (hats, bandanas or hoods) will not to be worn during the school day nor brought to class.
- Hair styles, dress, and accessories that pose a safety hazard are not permitted in the shop, laboratories, or during physical education.
- Clothing with holes, rips, tears, and clothing that is otherwise poorly fitting, showing skin and/or undergarments may not be worn at school.
- The length of shorts or skirts must be appropriate for the school environment (2 in inseam or more)
- If there is any doubt about dress and appearance, the building Principal will make the final decision.
- Students whose dress causes a substantial disruption of the orderly process of school functions or endangers the health or safety of the student, other students, staff or others may be subject to discipline.

- **Any attire deemed inappropriate by administration will be prohibited. The Principal will make the final decision.**

Students who ignore these guidelines will be sent to the Principal or designee. The student may be sent home from school to change clothes or be retained by the Principal or designee until the end of the school day.

Dress Code Enforcement

To ensure effective and equitable enforcement of this dress code, school staff shall enforce the dress code consistently using the requirements below. School administration and staff shall not have discretion to vary the requirements in ways that lead to discriminatory enforcement.

- Students will only be removed from spaces, hallways, or classrooms as a result of a dress code violation. Students in violation will be provided two (2) options to be dressed more to code during the school day:
    - Students will be asked to put on their own alternative clothing, if already available at school, to be dressed more to code for the remainder of the day.
    - If necessary, students' parents may be called during the school day to bring alternative clothing for the student to wear for the remainder of the day.
    - **If the student refuses to comply with the above provided solutions, disciplinary action may be taken.**
- No student should be affected by dress code enforcement because of racial identity, sex assigned at birth, gender identity or expression, sexual orientation, ethnicity, cultural or religious identity, household income, body size/type, or body maturity.
- School staff shall not enforce the school's dress code more strictly against transgender and gender nonconforming students than other students.
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes, but is not limited to:
    - kneeling or bending over to check attire fit; measuring straps or skirt length;
    - asking students to account for their attire in the classroom or in hallways in front of others;
    - calling out students in spaces, in hallways, or in classrooms about perceived dress code violations in front of others and,
    - accusing students of "distracting" other students with their clothing.

These dress code guidelines shall apply to regular school days and summer school days, as well as any school-related events and activities, such as graduation ceremonies, dances and prom. Student athletic apparel will be defined by safety and competitive performance standards.

Student Appearance
A student's appearance, including dress and hygiene, must not disrupt the educational process or compromise standards of health and safety. Serena Middle School does not prohibit hairstyles historically associated with race, ethnicity, or hair texture, including, but not limited to, protective hairstyles such as braids, locks, and twists. Students who disrupt the educational process or compromise standards of health and safety must modify their appearance.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

When & Where Conduct Rules Apply

The grounds for disciplinary action also apply whenever the student's conduct is reasonably related to school or school activities, including but not limited to:

1. On, or within sight of, school grounds before, during, or after school hours or at any time;
2. Off school grounds at a school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school;
3. Traveling to or from school or a school activity, function, or event;
4. 5. During periods of remote learning.

Disciplinary Measures

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out of school voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following measures:

1. Notifying parents/guardians.
2. Disciplinary conference.
3. Leaving all electronic devices (phones, ear buds, etc…) in the office for the duration of the school day
4. Withholding of privileges - including dances, extracurricular activities, and field trips

11. Suspension of bus riding privileges.
12. Suspension from school and all school activities for up to 10 days. A suspended student is prohibited from being on school grounds.

14. Transfer to an alternative program if the student is expelled or otherwise qualifies for transfer under State law.
15. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, such as, illegal drugs (controlled substances), "look-alikes," alcohol or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension or expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

Isolated Time Out, Time Out & Physical Restraint

Isolated time out, time out, and physical restraint shall only be used if the student's behavior presents an imminent danger of serious physical harm to the student or others and other less restrictive and intrusive measures were tried and proven ineffective in stopping it. The school may not use isolated time out, time out, and physical restraint as discipline or punishment, convenience for staff, retaliation, a substitute for appropriate educational or behavioral support, a routine safety matter, or to prevent property damage in the absence of imminent danger of serious physical harm to the student or others. The use of prone restraint is prohibited.

Corporal Punishment

Corporal punishment is prohibited in all circumstances. Corporal punishment is defined as a discipline method in which a person deliberately inflicts pain upon a student in response to the student's unacceptable behavior or inappropriate language, with an aim or set an example for others. It includes slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as permitted by State law.

Re-Engagement of Returning Students

The building principal or designee shall meet with a student returning to school from an out-of-school suspension, expulsion or alternative school setting. The goal of this meeting shall be to support the student's ability to be successful in school following a period of exclusion and shall include an opportunity for students who have been suspended to complete or make-up missed work for equivalent academic credit.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, physical appearance, socioeconomic status, academic status, order of protection status, status, status of being homeless, or actual or potential marital or parental status, pregnancy, parenting status, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is **prohibited** in each of the following situations:

1. During any school-sponsored education program or activity.

3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a non-school-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school.

Bullying includes cyber-bullying and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student's or students' person or property;
2. Causing a substantially detrimental effect on the student's or students' physical or mental health;
3. Substantially interfering with the student's or students' academic performance; or

Cyberbullying means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying.

Bullying may take various forms, including without limitation one or more of the following: harassment, threats, intimidation, stalking, physical violence, sexual harassment, sexual violence, posting or distributing sexually explicit images, theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying. This list is meant to be illustrative and non-exhaustive.

Students are encouraged to immediately report bullying. A report may be made orally or in writing to the building principal, nondiscrimination coordinator, district complaint manager or any staff member with whom the student is comfortable speaking. All school staff members are available for help with a bully or to make a report about bullying. A student will not be punished for reporting bullying or supplying information, even if the school's investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

Consistent with federal and State laws and rules governing student privacy rights, the school shall make diligent efforts to notify a parent or guardian within 24 hours after the school's administration is made aware of a student's involvement in an alleged bullying incident. To contact IDHR, go to: https://dhr.illinois.gov/about-us/contact-idhr.html or

1. Reduce or remove, to the extent practicable, barriers to reporting discrimination, harassment, and retaliation;
2. Permit any person who reports or is the victim of an incident of alleged discrimination, harassment, or retaliation to be accompanied when making a report by a support individual of the person's choice who complies with the District's policies and rules;
3. Permit anonymous reporting, except that an anonymous report may not be the sole basis of any disciplinary action;
4. Offer remedial interventions or take such disciplinary action as may be appropriate on a case-by-case basis;
5. Offer, but do not require or unduly influence, a person who reports or is the victim of an incident of harassment or retaliation the option to resolve allegations directly with the accused; and

School officials may investigate or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination. Failure to comply would result in insubordination and assume the student is guilty in the behavior and subject to discipline as well as possible police involvement based on circumstances.

9. Students are required to log into Serena CUSD #2 devices with the appropriate Serena High School login credentials

10. All Student Chromebooks and Accounts are subject to monitoring and filters such as Go Guardian. Misuse of technology, such as accessing restricted websites or websites not relevant to classroom activity may result in the loss of technology privileges and disciplinary action. This includes, but is not limited to, the following: Cyberbullying (including the creation of potentially harmful media), general derogatory behavior, video gaming, cheating and plagiarism, web browsing inappropriate or violent material, and use of AI sites to aid in assignment completion are also prohibited

7.10: Acceptable Use of the District's Electronic Networks

(MSH Rewritten: June 2021)

All use of the District's electronic networks shall be consistent with the District's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. These procedures do not attempt to state all required or prohibited behavior by users. However, some specific examples are provided. The failure of any user to follow these procedures will result in the loss of privileges, disciplinary action, and/or legal action.

Terms and Conditions
The term electronic networks includes all of the District's technology resources, including, but not limited to:

1. The District's local-area and wide-area networks, including wireless networks (Wi-Fi), District-provided Wi-Fi hotspots, and any District servers or other networking infrastructure;
2. Access to the Internet or other online resources via the District's networking infrastructure or to any District-issued online account from any computer or device, regardless of location;
3. District-owned and District-issued computers, laptops, tablets, phones, or similar devices.

Acceptable Use
Access to the District's electronic networks must be: (a) for the purpose of education or research, and be consistent with the District's educational objectives, or (b) for legitimate business use.

Privileges
Use of the District's electronic networks is a privilege, not a right, and inappropriate use may result in a cancellation of those privileges, disciplinary action, and/or appropriate legal action. The system administrator or Building Principal will make all decisions regarding whether or not a user has violated these procedures and may deny, revoke, or suspend access at any time. His or her decision is final.

Unacceptable Use
The user is responsible for his or her actions and activities involving the electronic networks. Some examples of unacceptable uses are:

1. Using the electronic networks for any illegal activity, including violation of copyright or other intellectual property rights or contracts, or transmitting any material in violation of any State or federal law;
2. Using the electronic networks to engage in conduct prohibited by board policy;
3. Unauthorized downloading of software or other files, regardless of whether it is copyrighted or scanned for malware;
4. Unauthorized use of personal removable media devices (such as flash or thumb drives);
5. Downloading of copyrighted material for other than personal use;
6. Using the network for any non approved educational games
7. Using the electronic networks for private financial or commercial gain;
8. Wastefully using resources, such as file space;
9. Hacking or attempting to hack or gain unauthorized access to files, accounts, resources, or entities by any means;
10. Invading the privacy of individuals, including the unauthorized disclosure, dissemination, and use of information about anyone that is of a personal nature, such as a photograph or video;
11. Using another user's account or password;
12. Disclosing any network or account password (including your own) to any other person, unless requested by the system administrator;
13. Posting or sending material authored or created by another without his/her consent;
14. Posting or sending anonymous messages;
15. Creating or forwarding chain letters, spam, or other unsolicited messages;
16. Using the electronic networks for commercial or private advertising;
17. Accessing, sending, posting, publishing, or displaying any abusive, obscene, profane, sexual, threatening, harassing, illegal, or knowingly false material;
18. Misrepresenting the user's identity or the identity of others; and
19. Using the electronic networks while access privileges are suspended or revoked.

Network Etiquette
The user is expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

1. Be polite. Do not become abusive in messages to others.
2. Use appropriate language. Do not swear, or use vulgarities or any other inappropriate language.
3. Do not reveal personal information, including the addresses or telephone numbers, of students or colleagues.
4. Recognize that the District's electronic networks are not private. People who operate District technology have access to all email and other data. Messages or other evidence relating to or in support of illegal activities may be reported to the authorities.
5. Do not use the networks in any way that would disrupt its use by other users.
6. Consider all communications and information accessible via the electronic networks to be private property.

No Warranties
The District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The District will not be responsible for any damages the user suffers. This includes loss of data resulting from delays, non-deliveries, missed-deliveries, or service interruptions caused by its negligence or the user's errors or omissions. Use of any information obtained via the Internet is at the user's own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

Indemnification
By using the District's electronic networks, the user agrees to indemnify the District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District relating to, or arising out of, any violation of these procedures.

Security
Network security is a high priority. If the user can identify or suspect a security problem on the network, the user must promptly notify the system administrator or Building Principal. Do not demonstrate the problem to other users. Keep user account(s) and password(s) confidential. Do not use another individual's account without written permission from that individual. Attempts to log-on to the network as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to the networks.

Vandalism
Vandalism will result in cancellation of privileges and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or any other network. This includes, but is not limited to, the uploading or creation of malware, such as viruses and spyware.

Telephone Charges
The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, texting or data use charges, long-distance charges, per-minute surcharges, and/or equipment or line costs.

Copyright Web Publishing Rules
Copyright law and District policy prohibit the re-publishing of text or graphics found on the Internet or on District websites or file servers/cloud storage without explicit written permission.

1. For each re-publication (on a website or file server) of a graphic or a text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the web address of the original source.
2. Students engaged in producing web pages must provide library media specialists with email or hard copy permissions before the web pages are published. Printed evidence of the status of public domain documents must be provided.
3. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the website displaying the material may not be considered a source of permission.
4. The fair use rules governing student reports in classrooms are less stringent and permit limited use of graphics and text.
5. Student work may only be published if there is written permission from both the parent/guardian and student.

Use of Email
The District's email system, and its constituent software, hardware, and data files, are owned and controlled by the District. The District provides email to aid students in fulfilling their duties and responsibilities, and as an education tool.

1. The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account's user. Unauthorized access by any student to an email account is strictly prohibited.
2. Each person should use the same degree of care in drafting an email message as would be put into a written memorandum or document. Nothing should be transmitted in an email message that would be inappropriate in a letter or memorandum.
3. Electronic messages transmitted via the District's Internet gateway carry with them an identification of the user's Internet domain. This domain is a registered name and identifies the author as being with the District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the District. Users will be held personally responsible for the content of any and all email messages transmitted to external recipients.
4. Any message received from an unknown sender via the Internet, such as spam or potential phishing emails, should either be immediately deleted or forwarded to the system administrator. Downloading any file attached to any Internet-based message is prohibited unless the user is certain of that message's authenticity and the nature of the file so transmitted.
5. Use of the District's email system constitutes consent to these regulations.

Internet Safety
Internet access is limited to only those acceptable uses as detailed in these procedures. Internet safety is supported if users will not engage in unacceptable uses, as detailed in these procedures, and otherwise follow these procedures.
Staff members will supervise students while students are using District Internet access to ensure that the students abide by the Terms and Conditions for Internet access contained in these procedures.

Each District computer with Internet access has a filtering device that blocks entry to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by the Children's Internet Protection Act and as determined by the Superintendent or designee.

The system administrator and Building Principals shall monitor student Internet access.

7.40: Annual Notice to Parents about Educational Technology Vendors Under the Student Online Personal Protection Act

(MSH Updated: October 2021)

School districts throughout the State of Illinois contract with different educational technology vendors for beneficial K-12 purposes such as providing personalized learning and innovative educational technologies, and increasing efficiency in school operations.

Under Illinois' Student Online Personal Protection Act, or SOPPA (105 ILCS 85/), educational technology vendors and other entities that operate Internet websites, online services, online applications, or mobile applications that are designed, marketed, and primarily used for K-12 school purposes are referred to in SOPPA as *operators*. SOPPA is intended to ensure that student data collected by operators is protected, and it requires those vendors, as well as school districts and the Illinois State Board of Education, to take a number of actions to protect online student data.

Depending upon the particular educational technology being used, our District may need to collect different types of student data, which is then shared with educational technology vendors through their online sites, services, and/or applications. Under SOPPA, educational technology vendors are prohibited from selling or renting a student's information or from engaging in

targeted advertising using a student's information. Such vendors may only disclose student data for K-12 school purposes and other limited purposes permitted under the law.

In general terms, the types of student data that may be collected and shared include personally identifiable information (PII) about students or information that can be linked to PII about students, such as:

- Basic identifying information, including student or parent/guardian name and student or parent/guardian contact information, username/password and student ID number
- Demographic information
- Enrollment information
- Assessment data, grades, and transcripts
- Attendance and class schedule
- Academic/extracurricular activities
- Special indicators (e.g., disability information, English language learner, free/reduced meals or homeless/foster care status)
- Conduct/behavioral data
- Health information
- Food purchases
- Transportation information
- In-application performance data
- Student-generated work
- Online communications
- Application metadata and application use statistics
- Permanent and temporary school student record information

Operators may collect and use student data only for K-12 purposes, which are purposes that aid in the administration of school activities, such as:

- Instruction in the classroom or at home (including remote learning)
- Administrative activities
- Collaboration between students, school personnel, and/or parents/guardians
- Other activities that are for the use and benefit of the school district

7.50: Use of Artificial Intelligence

(MSH New July 2023)

"Artificial intelligence" or "AI" is intelligence demonstrated by computers, as opposed to human intelligence. "Intelligence" encompasses the ability to learn, reason, generalize, and infer meaning. Examples of AI technology include ChatGPT and other chatbots and large language models.

AI is not a substitute for schoolwork that requires original thought. Students may not claim AI generated content as their own work. The use of AI to take tests, complete assignments, create multimedia projects, write papers, or complete schoolwork without permission of a teacher or administrator is strictly prohibited. The use of AI for these purposes constitutes cheating or plagiarism.

In certain situations, AI may be used as a learning tool or a study aid. Students who wish to use AI for legitimate educational purposes must have permission from a teacher or an administrator.

Students may use AI as authorized in their Individualized Education Program (IEP).Students may not use AI, including AI image or voice generator technology, to violate school rules or school district policies.

In order to ensure academic integrity, tests, assignments, projects, papers, and other schoolwork may be checked by AI content detectors and/or plagiarism recognition software.

CHAPTER 8
SEARCH & SEIZURE

8.10: Search & Seizure

(MSH Updated: November 2019)

Search & Seizure

In order to maintain order safety and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers and third party agencies.

School Property &Equipment As Well As Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The building principal may request the assistance of law enforcement officials or third party agencies to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students Searches

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the school or district's student rules and policies. The search will be conducted in a manner that is reasonably related to its objective of the search and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

School officials may require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates the school's disciplinary rules or school district policy. In the course of the investigation, the student may be required to share the content that is reported in order for the school to make a factual determination. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the school or district's policies or rules, evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, evidence may be transferred to law enforcement authorities.

Questioning of Students Suspected of Committing Criminal Activity

Before a law enforcement officer, school resource officer, or other school security person detains and questions on school grounds a student under 18 years of age who is suspected of committing a criminal act, the building principal or designee will: (a) Notify or attempt to notify the student's parent/guardian and document the time and manner in writing; (b) Make reasonable efforts to ensure the student's parent/guardian is present during questioning or, if they are not present, ensure that a school employee (including, but not limited to, a social worker, psychologist, nurse, guidance counselor, or any other mental health professional) is present during the questioning; and (c) If practicable, make reasonable efforts to ensure that a law enforcement officer trained in promoting safe interactions and communications with youth is present during the questioning.

CHAPTER 9
ATHLETICS & EXTRACURRICULAR ACTIVITIES

This Chapter applies to all school-sponsored athletic and extracurricular activities that are not part of an academic class nor otherwise carry credit for a grade.

Extracurricular activities and athletics are a privilege and not a right. Students who participate in all extracurricular activities and athletics are bound by the Serena Middle School Extracurricular Code of Conduct and must sign the code in order to participate. Students do not have a constitutional or statutory right to participate in extracurricular activities or athletics; therefore, students are not entitled to due process before suspension or removal from participation.

The Serena Board of Education recognizes extracurricular activities and athletics are a part of the total program of the school district. These programs are completely voluntary, but they do require extra effort and extra time. Those participating represent the school and district. Therefore, the standards must be kept high. These standards include academic requirements, citizenship and sportsmanship.

Selection of participants may be necessary. This selection is to be based not only upon performance, but also upon attitude, conduct, cooperation, and an earnest and sincere desire to represent the student body in a manner, which complements the student body and the community.

Extracurricular Activities

FFA

FFA is an intra-curricular activity, having its origin in a definite part of the school curriculum - vocational agriculture. Among other things, members learn, through active participation, how to conduct and take part in a public meeting; to speak in public; to buy and sell cooperatively; to solve their own problems; to finance themselves; and to assume civic responsibility. The foundation upon which the Future Farmers of America organization is built includes leadership and character development, sportsmanship, co-operation, service, thrift scholarship, improved agriculture, organized recreation, citizenship, and patriotism. The FFA Motto is “Learning to Do, Doing to Learn, Earning to Live, and Living to Serve”.

Future Farmers of America is an organization of, by, and for students studying vocational agriculture. It is for students who plan to work in agri-business or return to the farm for employment upon completion of high school, junior college or a four-year program.

9.10: Extracurricular Participation Requirements & Code Of Conduct

(MSH Updated: June 2022; Updated July 2026)

In order to participate in an extracurricular activity, participants and guardians need to have the necessary forms completed and returned, as well as all necessary actions completed prior to the beginning of extracurricular events and/or athletic contests. All forms will be made available at the Mandatory Parent/Guardian & Student-Athlete Mandatory Informational Session. Forms can also be requested from the office or Athletic Director at any time.

Actions Necessary for Participation

1. Parent/Guardian & Student-Athlete Mandatory Informational Session:
    a. Extracurricular participants, along with a guardian, are required to attend a Pre-Season Parent / Guardian Meeting and Meet all Academic Eligibility Requirements
    b. Academic Eligibility Requirements can be found in Section 2 of the Extracurricular Handbook, as well as in the Eligibility section of this handbook chapter.

Serena Middle School & IESA Academic Eligibility & Expectations

Academic Eligibility For All Extracurricular Activities

In order to participate in extracurricular and athletic activities, students must receive a passing grade in ALL subjects. Academic eligibility will be checked weekly.. Any student failing to meet academic requirements will be suspended from the sport or activity for a determined number of calendar days or until all academic requirements are met, whichever is longer.

When a participant is deemed academically ineligible, the participant will become a Practice Participant Only (P.P.O). A student who DOES NOT MEET eligibility can still participate in certain components, such as practices and meetings, but will be ineligible to participate in any games/competitions/events held by the activity. Participants may travel with the competitive team, but cannot dress in uniform (consider team manager, video operator, stats keeper, etc.).

Weekly Eligibility

Eligibility is checked at the end of each week, starting approximately Week 3 of a new quarter.

- Students must be passing all classes per week. If this requirement has not been met, students are ineligible to participate in games/competitions/club activities for a minimum of one week (Monday-Sunday).
    - If at the end of the week, at the next eligibility check, the student is passing the class (or the teacher has determined that enough work has been completed for the student to be in good standing), the student will be able to return to activity the following Monday, unless otherwise designated by the Athletic Director or Administration.
    - If at the end of the week, at the next eligibility check, the student is still not passing the class, the student will remain ineligible for the next week of the season. This will continue until the student is passing all classes.
    - In the event of an extracurricular without a designated number of activities, Administration reserves the right to adjust the ineligibility accordingly.

Absence From School On Day of Extracurricular Or Athletic Activity

A student who is absent from school after noon is ineligible for any extracurricular or athletic activity on that day unless the absence has been approved by Administration or Athletic Director. Exceptions may be made by the designated sponsor or

coach for justifiable reasons, including: 1) a pre-arranged medical absence 2) a death in the student's family or 3) a religious ceremony or event.

A student who is absent from school on a Friday before a Saturday event may be withheld from Saturday extracurricular or athletic activities at the sole discretion of the designated teacher, sponsor or coach.

Travel

All students must travel to extracurricular and athletic activities and return home from such activities with his or her team by use of school approved transportation. A written waiver of this rule may be issued by the sponsor or coach in charge of the extracurricular or athletic activity upon advance written request of a student's parent/guardian and provided the parent/guardian appears and accepts custody of the student. Oral requests will not be honored and oral permissions are not valid.

Students traveling by bus to and from extracurricular activities are subject to Bus Transportation and Bus Conduct rules listed in Chapter 4 of this Serena Middle School Student Handbook. Students that do not comply with these rules may be subject to bus suspension, and will not be given permission to find alternate transportation to and from future events as deemed by the coach, sponsor, athletic director, administration, or transportation director.

School Suspension Restrictions

A student who has been *In School Suspension* or *Out of School Suspension* from school is also suspended from participation in all extracurricular and athletic activities for the duration of the suspension.

"Participation In Extracurricular Activities Is A Privilege, Not A Right."

Serena is very proud of the students who represent the school via participation in athletics and clubs including sportsmanship, good decision-making and citizenship. However, this privilege requires responsibility and discipline. The following Extracurricular Code of Conduct applies 365 days/year, 24 hours a day, as long as students are recognized as Serena athletes and/or club members.

The following list of Extracurricular Code Violations is not exhaustive and includes violations involving Serena High School Handbook Policies, Unit 2 Board Policies, IESA Policies, Illinois School Code and Legal Infractions.

Violations will be treated cumulatively and will not reset each year. Under this policy, a violation as a fifth grader could make a later violation as an eighth grader a "second offense." Disciplinary penalties increase with subsequent violations and are listed in this section. A student may be excluded from extracurricular or athletic activities while the school is conducting an investigation into the student's conduct.

3. The student will be able to respond to any charges leveled against him or her.
4. The student may provide any additional information he or she wishes for the administrator to consider.
5. The administrator, with the help of other staff members if needed, may interview material witnesses or others with evidence concerning the case.

6. If the Administrator finds, after reviewing the evidence, that the violation occurred, he or she will impose sanctions on the student, as follows:

    1. Sanctions for violations other than drug and alcohol will be based on the nature of the offense and the number of offenses, and may include suspension from all extracurricular or athletic activities for one of the time periods described below:
        - A specified period of time or percentage of performances, activities or competitions;
        - The remainder of the season or for the next season, or academic year; or

    2. Sanctions for alcohol and other drug violations, including tobacco, nicotine in any form, mood-altering or performance enhancing drugs, products composed purely of caffeine in a loose powdered form, paraphernalia or any other illegal substance, will be based on the following:

            1. **Suspension of 30% of scheduled games/competitions/meetings/activities, including IESA series.**
                a. If less than 30% of the events remain, the remainder shall be carried forward and either served during the season of the same activity during the following academic year, or during the season of a different activity, whichever comes first.
                b. In the event of an extracurricular without a designated number of activities, administration reserves the right to adjust the ineligibility accordingly.
                c. Students must attend practices during their suspension. Students must also attend games/contests, but cannot be in uniform. Any unexcused absence from practices or games will result in normal team discipline rules that each coach has implemented.

            2. **INTERVENTION**: A student may reduce the suspension of games to 15% if the following requirements are met:
                a. If offense is drugs, alcohol, or vaping-related, then the student may enroll in an intervention program approved by Serena administration. It is the responsibility of

the student/guardian to find an appropriate program outside of the school and obtain approval prior to beginning the program.
b. Once proof of completion of the program is provided to administration, the student may benefit from the reduced suspension.

- **Second Violation** *(regardless of how much time has passed since the First Violation)*
  1. **Suspended for 60% of scheduled games/competitions/meetings/activities, including IESA state series**.
     a. If less than 60% of the events remain, the remainder shall be carried forward and either served during the season of the same activity during the following academic year, or during the season of a different activity, whichever comes first.
     b. In the event of an extracurricular without a designated number of activities, administration reserves the right to adjust the ineligibility accordingly.
     c. Students must attend practices during their suspension. Students must also attend games/contests, but cannot be in uniform. Any unexcused absence from practices or games will result in normal team discipline rules that each coach has implemented.

  2. **INTERVENTION**: A student may reduce the suspension of games to 45% if the following requirements are met:
     a. If offense is drugs, alcohol, or vaping-related, then the student may enroll in an intervention program approved by Serena administration. It is the responsibility of the student/guardian to find an appropriate program outside of the school and obtain approval prior to beginning the program.
     b. Once proof of completion of the program is provided to administration, the student may benefit from the reduced suspension.

- **Third Violation**
  1. Suspended from all extracurricular activities for one calendar year from the date of athletic code violation. Subsequent violations will result in an additional calendar year suspension.

7. The appropriate Administrator will make a written report of his or her decision and rationale. The student may appeal the decision to the Principal or Superintendent..
8. All students remain subject to all the School District's policies and the school's student/parent handbook.
9. The number of contests suspended shall be the number actually contested. Postponements, cancellations, scrimmages, B games and summer contests DO NOT count toward suspension.
10. When a violation occurs by a student participating in an individual IESA sport in which Serena does not field a team, consequences will be determined on an individual basis.

Procedure For Participants Charged/Convicted with a Felony

In the event that administration is able to officially confirm that a student has been charged with or arrested for a felony, and the administration becomes aware of any evidence in support of such charges or arrest, that student will be immediately suspended from all practices, games, meetings, or any team activity.

If the student is convicted of a felony they will be no longer allowed to participate in any extracurricular activity for the remainder of their high school career at Serena High School. If the student is found to be innocent or charges are dropped the student will be reinstated to the team immediately.

Appeal Process for Code Violation Consequences

The student and his or her parent/guardian has the option to appeal the disciplinary action to the Administration. The appeal must be submitted in writing to the Administrator within two school days after being notified of the disciplinary consequences. The written appeal must include: ~Student name~Head Coach/Sponsor ~Present date ~Details of the issue being appealed ~Name of extracurricular activity ~Rationale for reconsideration of the issue ~Date of occurrence. The Administrator will respond within two school days after the receipt of the written appeal request. The discipline will be in effect during the appeals process. The decision of the Administration after appeal is final.

This process may be terminated if there is a time delay or violation of the process by the parent/guardian. If the process is terminated in this manner, the original discipline specified shall remain in effect. Administration has the right to make exceptions to the time frame for responses but only in rare cases where extenuating circumstances are evident.

Modification Of Athletic Or Team Uniform

Students may modify their athletic or team uniform for the purpose of modesty in clothing or attire that is in accordance with the requirements of the student's religion or the student's cultural values or modesty preferences. Any modifications or alterations must be in compliance with IESA policies and approved by the coach, Athletic Director or Administrator.

10.10: Education of Children with Disabilities

(MSH Updated: November 2021)

It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act are identified, evaluated and provided with appropriate educational services.

The School provides a free appropriate public education in the least restrictive environment and necessary related services to all children with disabilities enrolled in the school. The term "children with disabilities" means children between ages 3 and the day before their 22nd birthday for whom it is determined that special education services are needed, except those children with disabilities who turn 22 years of age during the school year are eligible for special education services through the end of the school year. It is the intent of the school to ensure that students with disabilities are identified, evaluated, and provided with appropriate educational services.

A copy of the publication "Explanation of Procedural Safeguards Available to Parents of Students with Disabilities" may be obtained from the school district office.

Students with disabilities who do not qualify for an individualized education program, as required by the federal Individuals with Disabilities Education Act and implementing provisions of this Illinois law, may qualify for services under Section 504 of the federal Rehabilitation Act of 1973 if the student (i) has a physical or mental impairment that substantially limits one or more major life activities, (ii) has a record of a physical or mental impairment, or (iii) is regarded as having a physical or mental impairment.

(10.20): Discipline Of Students With Disabilities

(MSH Updated: June 2022)

Behavioral Interventions
Behavioral interventions shall be used with students with disabilities to promote and strengthen desirable behaviors and reduce identified inappropriate behaviors. The School Board will establish and maintain a committee to develop, implement, and monitor procedures on the use of behavioral interventions for children with disabilities.

Discipline of Special Education Students
The District shall comply with the Individuals With Disabilities Education Improvement Act of 2004 and the Illinois State Board of Education's Special Education rules when disciplining special education students. No special education student shall be expelled if the student's particular act of gross disobedience or misconduct is a manifestation of his or her disability.

Isolated Time Out, Time Out & Physical Restraint
Isolated time out, time out, and physical restraint shall only be used if the student's behavior presents an imminent danger of serious physical harm to the student or others, and other less restrictive and intrusive measures were tried and proven effective in stopping it. The School may not use isolated time out, time out, or physical restraint as discipline or punishment, convenience for staff, retaliation, as a substitute for appropriate educational or behavioral support, a routine safety matter, or to prevent property damage in the absence of imminent danger of serious physical harm to the student or others. The use of prone restraint is prohibited.

(10.70): PUNS (Prioritization of Urgency of Need for Services) Database Information for Students and Parents or Guardians

(MSH New May 2024)

The Illinois Department of Human Services (IDHS) maintains a statewide database known as the PUNS database (Prioritization of Urgency of Need for Services) that records information about individuals with intellectual disabilities or developmental disabilities who are potentially in need of services.

IDHS uses the data on PUNS to select individuals for services as funding becomes available, to develop proposals and materials for budgeting, and to plan for future needs. The PUNS database is available for children with intellectual disabilities or developmental disabilities with unmet service needs.

Registration to be included on the PUNS database is the first step toward receiving developmental disabilities services in this State. A child who is not on the PUNS database will not be in the queue for State developmental disabilities services.

For more information and to sign up for PUNS, see the Illinois Department of Human Services PUNS information page at https://www.dhs.state.il.us/page.aspx?item=41131.

STUDENT SERVICES

Student Services For Students With Disabilities

IDEA Child Find (Special Education) It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act are identified, evaluated and provided with appropriate educational services.

The School provides a free appropriate public education in the least restrictive environment and necessary related services to all children with disabilities enrolled in the school. The term "children with disabilities" means children between ages 3 and through the school year of which the student turns 22 for whom it is determined that special education services or 504 accommodations are needed. It is the intent of the school to ensure that students with disabilities are identified, evaluated, and provided with appropriate educational services based on identified individual needs.

Serena CUSD 2 has special education programs and services available either in our district or in the districts within our special education joint agreement, the La Salle County Education Alliance for Special Education (L.E.A.S.E.). These services are available for students with all types of disabilities and/or exceptionalities. Within the L.E.A.S.E. Cooperative, all member school districts establish, maintain or have access to special education instructional programs, resource programs and related services which meet the educational needs of children with the following exceptional characteristics: auditory; visual; physical/health impairments; speech/language impairments, deficits in the essential learning processes of perception, conceptualization, memory, attention or motor control; deficits in intellectual development and mental capacity; educational maladjustment related to social or cultural circumstances; affective disorders or adaptive behavior which restricts affective functioning.

Referrals of students for special education programs and/or services may be made by parents in writing, as well as by local school certified teachers after following the district's RTI process. Written referral requests should be submitted to either the Building Principal or the Director of Student Services.

This same right of access is afforded to an independent educational evaluator or a qualified professional retained by or on behalf of a parent or child. For further information, please contact the Director of Student Services 815.792.5102.

Section 504 Services

Section 504 Federal law protects students from discrimination due to a disability that substantially limits a major life activity. If your student has a qualifying disability that is substantially limiting and is significantly impacting the student's educational

performance, an individualized 504 Plan may be developed and implemented to provide the needed accommodations so the student can access his or her education as effectively.

Not all students with a medical diagnosis, life-threatening allergies and/or life-threatening chronic illnesses may be eligible under Section 504. This determination is made through a review of multiple sources including present and past data, teacher input, parent input, and student performance.

CHAPTER 12
STUDENT RECORDS & PRIVACY

(12.10): Student Privacy Protections

(MSH Updated: June 2022)

Surveys
All surveys requesting personal information from students, as well as any other instrument used to collect personal information from students, must advance or relate to the District's educational objectives, or assist students' career choices. This applies to all surveys, regardless of whether the student answering the questions can be identified or who created the survey.

Surveys By Third Parties
Before a school official or staff member administers or distributes a survey or evaluation created by a third party to a student, the student's parent/guardian may inspect the survey or evaluation, upon their request and within a reasonable time of their request. This applies to every survey: (1) that is created by a person or entity other than a district official, staff member, or student, (2) regardless of whether the student answering the questions can be identified, and (3) regardless of the subject matter of the questions.

Parents who object to disclosure of information concerning their child to a third party may do so in writing to the building principal.

Surveys Requesting Personal Information
School officials and staff members will not request, nor disclose, the identity of any student who completes any survey or evaluation (created by any person or entity, including the school or district) containing one or more of the following items:

1. Political affiliations or beliefs of the student or the student's parent/guardian.
2. Mental or psychological problems of the student or the student's family.
3. Behavior or attitudes about sex.
4. Illegal, anti-social, self-incriminating, or demeaning behavior.
5. Critical appraisals of other individuals with whom students have close family relationships.
6. Legally recognized privileged or analogous relationships, such as those with lawyers, physicians, and ministers.
7. Religious practices, affiliations, or beliefs of the student or the student's parent/guardian.
8. Income other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such a program.

The student's parent/guardian may: (1) inspect the survey or evaluation upon, and within a reasonable time of, their request, and/or (2) refuse to allow their child to participate in the survey. The school will not penalize any student whose parent/guardian exercised this option.

Instructional Material
A student's parent/guardian may inspect, upon their request, any instructional material used as part of their child's educational curriculum within a reasonable time of their request.

The term "instructional material" means instructional content that is provided to a student, regardless of its format, printed or representational materials, audio-visual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). The term does not include academic tests or academic assessments.

Prohibition On Selling Or Marketing Students' Personal Information
No school official or staff member may market or sell personal information concerning students (or otherwise provide that information to others for that purpose). The term personal information means individually identifiable information including: (1) a student or parent's first and last name, (2) a home or other physical address (including street name and the name of the

city or town), (3) a telephone number, (4) a Social Security identification number or (5) driver's license number or State identification card.

Unless otherwise prohibited by law, the above paragraph does not apply: (1) if the student's parent/guardian have consented; or (2) to the collection, disclosure or, use of personal information collected from students for the exclusive purpose of developing, evaluating or providing educational products or services for, or to, students or educational institutions, such as the following:

1. College or other postsecondary education recruitment, or military recruitment.
2. Book clubs, magazines, and programs providing access to low-cost literary products.
3. Curriculum and instructional materials used by elementary schools and secondary schools.

6. Student recognition programs.

Under no circumstances may a school official or staff member provide a student's personal information to a business organization or financial institution that issues credit or debit cards.

A parent/guardian who desires to opt their child out of participation in activities provided herein or who desires a copy or access to a survey or any other material described herein may contact the Building Principal.

(12.20): Student Records

(MSH Revised: June 2026)

Student Records

A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction or by a school employee, regardless of how or where the information is stored, except for certain records kept in a staff member's sole possession; records maintained by law enforcement officers working in the school; video and other electronic recordings (including electronic recordings made on school busses) that are created in part for law enforcement, security, or safety reasons or purposes, though such electronic recordings may become a student record if the content is used for disciplinary or special education purposes regarding a particular student. The Family Educational Rights and Privacy Act (FERPA) and the Illinois Student Records Act afford parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's school records. They are:

1. The right to inspect and copy the student's education records within 10 business days of the day the District receives a request for access.

The degree of access a student has to his or her records depends on the student's age. Students less than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have access and copyrights to both permanent and temporary records. A parent/guardian or student should submit to the building principal a written request that identifies the record(s) he or she wishes to inspect. Within 10 business days, the building principal will make arrangements for access and notify the parent/guardian or student of the time and place where the records may be inspected. In certain circumstances, the District may request an additional 5 business days in which to grant access. The District charges $.35 per page for copying but no one will be denied their right to copies of their records for inability to pay this cost.

These rights are denied to any person against whom an order of protection has been entered concerning the student.

2. The right to have one or more scores received on college entrance examinations included on the student's academic transcript.

Parents/guardians or eligible students may have one or more scores on college entrance examinations included on the student's academic transcript. The District will include scores on college entrance examinations upon the written request of the parent/guardian or eligible student stating the name of each college entrance examination that is the subject of the request and the dates of the scores that are to be included.

3. The right to request the amendment of the student's education records that the parent/ guardian or eligible student believes are inaccurate, irrelevant, or improper.

A parent/guardian or eligible student may ask the District to amend a record that is believed to be inaccurate, irrelevant, or improper. Requests should be sent to the building principal and should clearly identify the record the parent/guardian or eligible student wants changed and the specific reason a change is being sought.

If the District decides not to amend the record, the District will notify the parent/guardian or eligible student of the decision and advise him or her of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.

4. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that the FERPA or Illinois School Student Records Act authorizes disclosure without consent.

Disclosure without consent is permitted to school officials with legitimate educational or administrative interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board. A school official may also include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of personally identifiable information from education records (such as an attorney, auditor, medical consultant, therapist, or educational technology vendor); or any parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility or contractual obligation with the district.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or Federal law. Before information is released to these individuals, the parents/guardians or eligible student will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

Academic grades and references to expulsions or out-of-school suspensions cannot be challenged at the time a student's records are being forwarded to another school to which the student is transferring.

Disclosure is also permitted without consent to: any person for research, statistical reporting or planning, provided that no student or parent/guardian can be identified; to another school district that overlaps attendance boundaries with the District, if the District has entered into an intergovernmental agreement that allows for sharing of student records and information with the other district,[2] any person named in a court order; appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons; to the Ill. Department of Human Services (DHS) for the sole purpose of assessing or evaluating the student's eligibility for Medicaid waiver benefits consistent with the rules adopted by the DHS; and juvenile authorities when necessary for the discharge of their official duties who request information before adjudication of the student.

5. The right to a copy of any school student record proposed to be destroyed or deleted.

The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or permanently withdraws. Temporary records that may be of assistance to a student with a disability who graduates or permanently withdraws, may, after 5 years, be transferred to the parent/guardian or to the student, if the student has succeeded to the rights of the parent/guardian. Student temporary records are reviewed every 4 years or upon a student's change in attendance centers, whichever occurs first. =

6. The right to prohibit the release of directory information.

Throughout the school year, the District may release directory information regarding students, limited to:

- Parent/guardian names, addresses, electronic mail addresses, and telephone numbers
- Name
- Address
- Grade level
- Birth date
- Photographs, videos, or digital images used for informational or news-related purposes (whether by a media outlet or by the school) of a student participating in school or school-sponsored activities, organizations, and athletics that have appeared in school publications, such as yearbooks, newspapers, or sporting or fine arts programs
- Academic awards, degrees, and honors
- Information in relation to school-sponsored activities, organizations, and athletics
- Major field of study
- Period of attendance in school

Any parent/guardian or eligible student may prohibit the release of any or all of the above information by delivering a written objection to the building principal within 30 days of the date of this notice.

7. The right to request that military recruiters, institutions of higher learning, and the Illinois Student Assistance Commission not be granted access to your student's information without your prior written consent.

Federal law requires a secondary school to grant military recruiters and institutions of higher learning, upon their request, access to secondary school students' names, addresses, email addresses, and telephone numbers, unless the student's parent/guardian, or a student who is 18 years of age or older, submits a written request that the information not be released without the prior written consent of the parent/guardian or eligible student. Similarly, State law requires a secondary school to provide to military recruiters, public institutions of higher education, and the Illinois Student Assistance Commission access to the same types of information, in addition to a secondary student's birth date, unless the student's parent/guardian submits a written request before the end of the student's sophomore year (or if the student is a transfer student, by another time set by the District) that such information not be released. If you wish to opt your child out of the release of this information so that it is not released without your prior written consent, notify the building principal where your student is enrolled for further instructions. Students age 18 and older may also opt out by contacting the building principal for further instructions.

8. The right contained in this statement: No person may condition the granting or withholding of any right, privilege or benefits or make as a condition of employment, credit, or insurance the securing by any individual of any information from a student's temporary record which such individual may obtain through the exercise of any right secured under State law.

9. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:
   U.S. Department of Education
   Student Privacy Policy Office
   400 Maryland Avenue, SW

(12.30): Homeless Child's Right To Education

(MSH Updated: November 2009)

The district ensures the enrollment of homeless children is ongoing and will not be delayed due to scheduling issues, residency requirement documents or the lack of legal guardianship or student records. The district does not charge tuition nor will it refuse enrollment for homeless students.

When a child loses permanent housing and becomes a homeless person as defined at law, or when a homeless child changes his or her temporary living arrangements, the parent or guardian of the homeless child has the option of either:

a) Continuing the child's education in the school of origin for as long as the child remains homeless or, if the child becomes permanently housed, until the end of the academic year during which the housing is acquired; or
b) Enrolling the child in any school that non-homeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.

For more information regarding assistance and support, please contact the district homeless liaison Susan McNelis, Director of Student Services at smcnelis@unit2.net or call 815.792.5102.

(12.60): English Learners

(MSH Updated: June 2021)

The school offers opportunities for resident English Learners to achieve at high levels in academic subjects and to meet the same challenging State standards that all children are expected to meet. Students are tested to determine eligibility and services after the Home Language Survey form is completed at registration. If students qualify for language support services, these services are provided until the student demonstrates sufficient skill to exit the program based upon the State ACCESS test, or until a parent withdraws them from the program.

Parents/Guardians of English Learners will be informed how they can: (1) be involved in the education of their children; (2) be active participants in assisting their children to attain English proficiency, achieve at high levels within a well-rounded education, and meet the challenging State academic standards expected of all students.

Title 1

Title I is a federally funded program that provides instructional support for students experiencing difficulties in reading. Serena CUSD #2 Schools provide a Title I program for students with an identified need in the area of reading. As of the 2025-2026 school year, District Schools will be approved for "schoolwide" status with the Board and State. Students are screened with a multiple-step process to determine eligibility for Title I and must have parent permission to participate in the program. Once eligibility is established small groups of students go to the Title I classroom and with a certified Reading Specialist. The Reading Specialist will work on reading skills such as:Basic Reading Skills, Comprehension and Writing. Each student is periodically assessed and progress information is sent home to the parents at least quarterly. Students remain in the program until meeting established exit level criteria. Each year the criteria has to be reestablished for the grant program.

Assurances: Serena CUSD #2's Title I program has been designed and implemented in accordance with all requirements of the grant. The programming for the schools is coordinated by the Title I director. All instructions of the Title I program consult with the classroom teachers on a regular basis in order to ensure a coordinated effort exists in the buildings.

Student performance will be measured utilizing AIMSweb Plus and MAP.. Results are presented to parents during parent/teacher conferences or they are sent home with the student three times a year. Assessment data is utilized to determine if students are making adequate progress or if their intervention needs to be changed.

Student Selection Criteria
Student selection may be based on any or all of the following multiple criteria: classroom performance, AIMSweb Plus, MAP, and running records or a teacher's common assessments. Copies of the criteria are maintained by the classroom teacher or the Title I teacher.

Program Improvement and Evaluation:
Local evaluation of the Title I programming plan is an ongoing process. The Title I instructors may conduct pre and post tests on individual students. Title I teachers are also responsible for gathering all information pertinent to effective evaluation of student progress while enrolled in the program. Instruments such as AIMSweb Plus or other intervention programs will assist in assessing basic reading skills, fluency and comprehension.

Program Quality: Serena CUSD #2 makes every effort to provide documentation of the quality of this program. Examples of this documentation may include any of the following:
- Minutes from data team meetings for student movement in the tiered levels of intervention
- Notes and records from conferences attended by those associated with Title I programming will be kept and housed in the teacher's classroom.
- Desired outcomes as outlined on the Title I application under program goals and objectives represent broad program goals. Specific goals and objectives for students enrolled in Title I can be found outlined in the teacher's lesson plans.
- Title I teachers maintain individual student progress folders which are located in the Title I classrooms.

Response to Intervention or Multi-Tiered System of Support (RtI or MTSS)
Response to Intervention (RtI) integrates assessment and intervention within a 3-tiered system to maximize student achievement. During the fall, winter, and spring universal screening of core content is reviewed to help determine students' strengths and weaknesses in the areas of reading and math.

All students receive Tier I RtI as part of the general education classroom curriculum.

If universal screening, along with classroom data, indicates a student is significantly below grade level in reading or math, then they will receive Tier II RtI support. This support will be given in addition to Tier I instruction. This instruction is a supplement, not a substitute for the reading or math instruction received from the classroom teacher. When students receive Tier II RtI support they will be progress monitored every two weeks and their progress will be reviewed by a team every six to eight weeks.

A student may receive Tier III RtI support if they have not made significant progress as determined by the team. The focus of instruction during RtI will be early writing strategies, phonemic awareness, phonics, fluency, comprehension, number sense, math facts, concepts and application, and computation to name a few.

Communication is very important, so parents will be kept well informed of their child's growth and progress through reports and/or graphs depending on the level of intervention received.
