Special Education Services

Services for individuals with special needs are available for scholars ages 5 through 21. Jacksonville North Pulaski School District has trained diagnostic staff who identify and assess children with disabilities and help connect them with appropriate supports and services.

As scholars progress through their educational journey, support is designed to promote independence and success beyond the classroom. By the time they reach their final years of high school, scholars are encouraged to develop essential vocational and life skills that prepare them for postsecondary opportunities.

These skills include work readiness, job search and interview skills, social and communication skills, time management, problem solving, critical thinking, responsibility, integrity, and a positive attitude and demeanor.

High Quality Preschool Program

- **Certified Teachers and Paraprofessionals**
- **Free, Standards-Based Program**
- **Available for scholars ages 3 and 4**

Jacksonville North Pulaski School District's Pre-K program is designed to build strong foundational skills that prepare scholars for a successful transition to kindergarten.

Through a developmentally appropriate, standards-based curriculum, scholars strengthen early literacy, math, social-emotional, and motor skills in a nurturing and engaging learning environment.

Three Pre-K Locations

Homer Adkins Pre-K Center

Bayou Meto Elementary

Bobby G. Lester Elementary

Purple Star School District

The Jacksonville North Pulaski School District is a proud Purple Star School District, committed to supporting the educational and social-emotional needs of military-connected scholars and families. Through dedicated resources, trained staff, and a culture of understanding, JNPSD works to ensure military families feel welcomed, supported, and connected throughout every stage of their educational journey.
