August 6, 2025

Dear School Community,

I hope you all are enjoying a wonderful summer.

I'm writing to you today as a follow-up to our June 16th letter regarding our transportation plan for the 2025-2026 school year. I sincerely apologize that this updated information was not available before the end of July as we had hoped. I am pleased to share that we have received more clarity regarding our transportation resources, which has allowed us to finalize a plan that we believe will serve our students and families more effectively.

We will now have **12 bus routes**, all operating on a **two-run cycle** each morning and afternoon. This means that all 12 buses will be dedicated to a specific student group for each run.

The first bus run is specifically for our **elementary school students and morning CV-TEC students**. This run is scheduled to drop students off at school between **7:20 a.m. and 7:30 a.m.** Students who are not using district transportation may enter the elementary building between **7:30 a.m. and 7:35 a.m.** The elementary academic day will begin after these drop-off times.

The second bus run is for our **middle and high school students**, and it will drop students off at approximately **8:45 a.m.** The academic day for middle and high school students will begin at **8:55 a.m.**

An important update is that **elementary students will no longer have to wait at the end of the day for a later bus run**, as all 12 routes will now be running twice.

This week, our Transportation Department will be sending out **preliminary pick-up times**. Please note that these are tentative and will be adjusted based on the transportation forms that are due back by **August 15th**. After we receive all the forms, the Transportation Department will distribute the official pick-up times, which will include the customary 10-minute pick-up window.

You can also expect to receive a district newsletter in the next week, which will include specific messages from our building principals, along with other information as soon as it is available.

Thank you for your patience and support as we work to ensure a smooth start to the school year. For more specific answers to questions, please reach out to the building that your child attends or the Transportation Department.

Sincerely,

Mr. James C. Knight, Jr.
Superintendent of Schools
