August 3, 2026

Dear Big Rock Families,

I hope you are enjoying the final weeks of summer! As we prepare to welcome students back for another great school year, I wanted to provide an update regarding our back-to-school events.

As many of you know, Big Rock Elementary is undergoing significant construction this summer, including new flooring throughout the building and major HVAC improvements. While we are excited about these upgrades and the improvements they will bring to our school, construction is expected to continue right up until the start of the school year. As a result, we are still finalizing our plans for welcoming students and families back to school.

Because the construction timeline remains fluid, we are not yet ready to announce details regarding Open House, Meet the Teacher, or other back-to-school activities. Our priority is ensuring the building is safe, clean, and ready for students and staff while also providing our teachers with the time they need to prepare their classrooms for a successful start to the school year.

What you can expect is that every family will receive a Welcome Letter before school begins. The letter will include your child's classroom assignment, along with important back-to-school information to help your family prepare for the first day.

We know many families are eager to make plans, and we truly appreciate your patience as we work through the final details. We will share our finalized back-to-school schedule as soon as those plans are confirmed.

Thank you for your flexibility, understanding, and continued support as we navigate this unique start to the school year. While this year's opening may look a little different, our commitment to providing every Big Rock student with a safe, welcoming, and successful start remains unchanged.

We look forward to seeing everyone soon and beginning another fantastic school year together!

Matt Ralbusky

Principal, Big Rock Elementary
