Dear CMS Families,

We want to make you aware of a medical emergency that occurred today involving Mr. Adams during class. Students responded appropriately and immediately sought help, and our staff quickly responded to support him. Mr. Adams was alert and responsive when EMTs transported him from the building for further medical care.

We are very proud of how our students handled a difficult and unexpected situation. Mrs. Leffel met with our seventh- and eighth-grade students afterward to explain what occurred, provide reassurance, and address any questions or concerns.

We know witnessing a medical emergency can be unsettling for students. Please know that we will continue to support any students who may need additional reassurance following today's events.

Thank you for your care and support for Mr. Adams and our CMS community.

Mike McGough
Superintendent
Chesaning Area Schools
