SUPERINTENDENT'S UPDATES FOR THE WEEK OF MARCH 23, 2026

DISTRICT IMPROVEMENT TEAM MTSS UPDATE

The District Improvement Team continues to make meaningful progress in strengthening support for all students by actively engaging in Multi-Tiered Systems of Supports (MTSS) training while also leading the implementation of an MTSS Framework across the district. MTSS is a comprehensive, data-driven approach to meeting students' academic, behavioral, and social-emotional needs through a tiered system of support. At its core, MTSS provides high-quality instruction to all students (Tier 1), targeted interventions for those who need additional help (Tier 2), and more intensive, individualized support for students with significant needs (Tier 3). By using ongoing data to guide decisions, educators can respond more effectively and early to ensure every student has the opportunity to succeed. Through this training and district-wide rollout, the team is building a more consistent, proactive system that better supports both students and staff.

The 5 Essential Components of Michigan's MTSS Framework
